Noujio,2021-03-22 Culture and religion are basic to every human society and the history of a people always sustains her cultural and religious values We decided to use the African culture and religion as our departing point for the mere fact that Africa is generally considered as the cradle of civilization and it is a very historic and controversial continent However while examining some prominent world cultures and religions in a comparative manner our major focus is on the Christian Thomistic culture religion as illustrated by Jacques Maritain in comparison with the African culture religion as expressed by Joseph Ki Zerbo Both thinkers consider that in the midst of multiculturalism and globalization authentic humanism or personalism that is based on the sacredness of the human person should be endorsed as a new civilization or culture Only such a culture can make the future of humankind essentially meaningful and interesting Shifting from all mediocre standards of culture which are based on relativism supported by postmodern thinkers there is a need to get back to the original culture that is based on authentic and objective standards The major difference that we noticed between the Thomistic Christian ideas and those of the Africans is that while Jacques Maritain appeals for Thomistic humanism to grow from the formal classrooms and the books into the streets and the fields Ki Zerbo explains that African humanism has always existed in the streets and in the fields it might never even have existed in the books and in the classrooms The global reaction toward the killing of George Floyd in USA defying all fears of the COVID 19 intensifies the argument that a culture which qualifies one race as being superior over another has to be reexamined and radically eradicated and replaced by authentic humanism

WORLD HISTORY, JOURNEYS Candice Goucher,Linda Walton,2013-09-13 Using a thematic approach this innovative

textbook explores the history of the world from its earliest prehistory to the present age of globalization **Introduction to World Religions** Christopher Partridge, 2018-07-01 This leading textbook for world religion is designed to help students in their study and research of the world's religious traditions. Known and valued for its balanced approach and its respected board of consulting editors, this text addresses ways to study religion, provides broad coverage of diverse religions, and offers an arresting layout with rich illustrations. Introductory sections on understanding religion and the religions of antiquity lay the foundation for the study of the numerous religious traditions highlighted in the volume, including indigenous religions, Hinduism, Buddhism, Jainism, Judaism, Christianity, Islam, Sikhism, and Chinese, Korean, and Japanese religions. The user-friendly content is enhanced by charts of religious festivals, historic timelines, updated maps of the world's religions, and a useful glossary. Both historical overviews and modern perspectives for each religion are included. Religion and Schooling in Contemporary America Thomas C. Hunt, James C. Carper, 1997 First Published in 1998 Routledge is an imprint of Taylor & Francis, an informa company.

World Religions for Healthcare Professionals Mark Carr, Siroj Sorajjakool, Ernest Bursey, 2023-08-08 This third edition of a popular text introduces healthcare students and professionals to a wide range of health beliefs and practices in world religions. Chapters on various religions are written to offer an insider's view on the religion's historical development, key beliefs, and practices, including ideas of health, sickness, death, and dying. The chapters include case studies, advice on what to do and what to avoid when caring for patients. Introductory chapters invite the reader to consider the broad context of patient care in pluralistic society and explore one's personal orientation to others from different religions. How we care for patients from different backgrounds and cultures insists on professional boundaries that the reader may have not yet examined. A new chapter explores the relationship between religion and public health in light of the COVID-19 pandemic, asking the reader to consider what morally appropriate balance is required if and when personal faith conflicts with public health needs. Undoubtedly, the sensitivity with which clinicians communicate with patients and make decisions regarding appropriate medical intervention can be greatly increased by an understanding of religious and cultural diversity. This is a core textbook for students studying healthcare, religion, and culture, and an invaluable reference for healthcare professionals.
