Religious And Historical Paintings Of Jan Steen:

The Religious and Historical Paintings of Jan Steen Baruch David Kirschenbaum, Jan Steen, 1977 *Jan Steen* John Walsh, 1996 In this fascinating exploration of Jan Steen's *The Drawing Lesson* John Walsh offers an explanation of the individual parts and larger patterns of the work allowing us to see how each prop and pose contributes to the larger theme the art of painting and the education of the artist He also recounts Steen's career and the history of the picture itself presenting in sum not only an examination of a fine painting but also a lesson in how to look at and read a complex work of art

Renaissance and Baroque Art Leo Steinberg, 2021-02 Leo Steinberg was one of the most original art historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies In essays and lectures ranging from old masters to contemporary art he combined scholarly erudition with an eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it His writings sometimes provocative and controversial remain vital and influential reading Steinberg's perceptions evolved from long hard looking at his objects of study Almost everything he wrote included passages of formal analysis but always put into the service of interpretation This volume begins and ends with thematic essays on two fundamental precepts of Steinberg's art history how dependence on textual authority mutes the visual truths of images and why artists routinely copy or adapt earlier artworks In between are fourteen chapters on masterpieces of renaissance and baroque art with bold and enlightening interpretations of works by Mantegna Filippo Lippi Pontormo El Greco Caravaggio Steen and finally Velázquez Four chapters are devoted to some of Velázquez's best known paintings ending with the famously enigmatic *Las Meninas*

Renaissance and Baroque Art is the third volume in a series that presents Steinberg's writings selected and edited by his longtime associate Sheila Schwartz

Calvinism and the Arts Christopher Richard Joby, 2007 It is often thought that the French Reformer John Calvin 1509-1564 had a negative attitude towards the arts particularly visual art However in *Calvinism and the Arts A Re assessment* Dr Joby argues that in Calvin's writings and in the development of the Reformed tradition more generally it is possible to discern a more positive attitude than has hitherto been recognized He makes a start by examining exactly what type of visual art Calvin rejected and what type he affirmed He goes on to consider how Calvin's epistemology and eschatology can be used to argue for the placing of certain types of art notably histories and landscape paintings within

Reformed churches and then devotes separate chapters to reflecting on how music architecture and church decoration within the Reformed tradition provide further arguments for the use of these works of art In the final section he looks at specific histories and landscapes from the Dutch Golden Age and considers how the form and content of both of these types of art provide us with further ontological and epistemological arguments which inevitably lead to the conclusion that their continued exclusion from Reformed churches is no longer tenable

Parody and Festivity in Early Modern Art David R. Smith, 2017-07-05 Dwelling on the rich interconnections between parody and festivity in humanist thought and popular culture alike the essays in this volume delve into the nature and the meanings of festive laughter as it was conceived of in early modern art The concept of carnival supplies the main thread connecting these essays Bound as festivity often is to popular culture not all the topics fit the canons of high art and some of the art is distinctly low brow and occasionally ephemeral themes include grobianism and the grotesque scatology popular proverbs with ironic twists and a wide range of comic reversals some quite profound Many hinge on ideas of the world upside down Though the chapters most often deal with Northern Renaissance and Baroque art

they spill over into other countries times and cultures while maintaining the carnivalesque air suggested by the book's title

Perilous Chastity Laurinda S. Dixon, 2019-01-24 Bearing such titles as *The Doctor's Visit* or *The Lovesick Maiden* certain seventeenth century Dutch paintings are familiar to museum browsers an attractive young woman well dressed but pale and listless reclines in a chair languishes in bed or falls to the floor in a faint Weathered crones or impish boys leer suggestively in the background These paintings traditionally have been viewed as commentary on quack doctors or unmarried pregnant women The first book to examine images of women and illness in the light of medical history *Perilous Chastity* reveals a surprising new interpretation In an engaging analysis enhanced by abundant illustrations including eight pages of color plates Laurinda S Dixon shows how paintings reflect changing medical theories concerning women While she illuminates a tradition stretching from antiquity to the present she concentrates on art from the thirteenth through the eighteenth centuries and particularly on paintings from seventeenth century Leiden Dixon suggests how the assumptions of a predominantly male medical establishment have influenced prevailing notions of women's social place She traces the evolution of the belief that women's illnesses were caused by hysteria so named in ancient Greece after the notion that the uterus had a tendency to wander in the body All women were considered prone to hysteria strong emotions idleness intellectual activity or unladylike pursuits could cause it but it was most commonly diagnosed among celibates Analyzing paintings of women's sickrooms by Jan Steen Dirck Hals Gabriel Metsu Jacob Ochtervelt Godfried Schalcken Samuel van Hoogstraten and Franz van Mieris Dixon perceives metaphoric identifications of the womb as the source of illness She also documents changing fashions in cures for hysteria and discusses allusions to the debilitating effects of women's passions not only in paintings but also in madrigals by John Dowland and Henry Purcell In conclusion Dixon argues that her study has strong ramifications of attitudes towards women and illness today She takes up images in twentieth century culture as well and calls attention to a resurgence of female hysteria after World War II
