

The background of the cover is a dark, moody illustration. In the center, there is a dark silhouette of a person, possibly a man, standing with arms slightly out. The background is filled with soft, ethereal light in shades of blue, purple, and yellow, creating a hazy, dreamlike atmosphere. At the bottom, there are several bright, diagonal streaks of orange and yellow light, suggesting a path or a source of illumination.

Duncan Pritchard, Mark Harris

Religious Conviction:

Shakespeare and the Theater of Religious Conviction in Early Modern England Walter S H Lim, 2023-12-19 This book analyzes Shakespeare's use of biblical allusions and evocation of doctrinal topics in Hamlet Measure for Measure The Winter's Tale Richard II and The Merchant of Venice It identifies references to theological and doctrinal commonplaces such as sin grace confession damnation and the Fall in these plays affirming that Shakespeare's literary imagination is very much influenced by his familiarity with the Bible and also with matters of church doctrine This theological and doctrinal subject matter also derives its significance from genres as diverse as travel narratives sermons political treatises and royal proclamations This study looks at how Shakespeare's deployment of religious topics interacts with ideas circulating via other cultural texts and genres in society It also analyzes how religion enables Shakespeare's engagement with cultural debates and political developments in England absolutism and law radical political theory morality and law and conceptions of nationhood

Religious Conviction in Liberal Politics Christopher J. Eberle, 2002-05-02 What role should a citizen's religious convictions play in her political activities Is she for example permitted to decide on the basis of her religious convictions to support laws that criminalize abortion or discourage homosexual relations Christopher Eberle is deeply at odds with the dominant orthodoxy among political theorists about the relation of religion and politics His argument is that a citizen may responsibly ground her political commitments on religious beliefs even if her only reasons for her political commitments are religious in nature His ideal of citizenship allows citizens to engage in politics without privatizing their religious commitments and yet does not license mindless and intransigent sectarianism An inherently controversial book that offers a substantial challenge to political liberalism it will be read by students and professionals in philosophy political science law and religious studies and general readers seeking insight into the relationship between religious commitments and liberal politics

An Essay on the Profession of Personal Religious Conviction and Upon the Separation of Church & State Alexandre Rodolphe Vinet, 1843 *Religious Convictions and Political Choice* Kent Greenawalt, 1991 How far may Americans properly rely on their religious beliefs when they make and defend political decisions Are decisions based on religious convictions compatible with liberal democratic premises Kent Greenawalt dissects such issues as abortion and animal rights to illustrate secular and religious bases for decision making concluding that citizens cannot be expected to rely exclusively on rational secular grounds

lust and religious loyalty can be effective roadblocks to rightful conviction **The Cost of Certainty** Jeremy Young, 2006-01-25 This book critically explores the Christian teaching of God's unconditional love The author argues for the recovery of a spirituality of uncertainty and unconditional love as a basis for a renewal of contemporary Christian faith and practice The Cambridge Handbook of Religious Epistemology Jonathan Fuqua, John Greco, Tyler McNabb, 2023-08-17 The first handbook on the topic of religious epistemology introduces and discusses topics fundamental to the epistemology of religious belief *The Handbook of Life-Span Development, Volume 2*, 2010-08-09 In the past fifty years scholars of human development have been moving from studying change in humans within sharply defined periods to seeing many more of these phenomenon as more profitably studied over time and in relation to other processes The Handbook of Life Span Development Volume 2 Social and Emotional Development presents the study of human development conducted by the best scholars in the 21st century Social workers counselors and public health workers will receive coverage of the social and emotional aspects of human change across the lifespan *Religious Beliefs and Conscientious Exemptions in a Liberal State* John Adenitire, 2019-06-13 The central focus of this edited collection is on the ever growing practice in liberal states to claim exemption from legal duties on the basis of a conscientious objection Traditional claims have included objections to compulsory military draft and to the provision of abortions Contemporary claims include objections to anti discrimination law by providers of public services such as bakers and B B hoteliers who do not want to serve same sex couples The book investigates the practice both traditional and contemporary from three distinct perspectives theoretical doctrinal with special emphasis on UK Canadian and US law and comparative Cumulatively the contributors provide a comprehensive set of reflections on how the practice is to be viewed and carried out in the context of a liberal state Religion and Generalised Trust Handi Hadiwitanto, 2016 For most Indonesian citizens Muslims and Christians alike religion plays an important role in private and public life Against the backdrop of tacit and overt conflicts between religious groups in Indonesia this study examines the potential role of religion in building trust between people To what extent does religion induce or reduce trust between Muslims and Christians While religious communities are important socialising agencies for moral principles that may encourage trust religious identification may also be related to distrust towards others making trust a problematic issue in the context of interreligious relations This dissertation describes how trust is determined by religion in both positive and negative ways and how it can be seen as a crucial concept within the religious meaning system Series Interreligious Studies Vol 9 Subject Religious Studies Southeast Asian Studies Sociology **Law and Faith in a Sceptical Age** Anthony Bradney, 2009-10-16 Law and Faith in a Sceptical Age is an analysis of the legal position of religious believers in a dominantly secular society Great Britain is a society based upon broadly liberal principles It claims to recognise the needs of religious believers and to protect them from discrimination But whilst its secular ideology pervades public discourse the vestigial remains of a Christian Protestant past are seen in things as varied as the structure of public holidays and the continued

existence of established churches in both England and Scotland Religious Christian values also form the starting point for legal rules relating to matters such as marriage Active religious communities constitute a very small minority of the population however those who belong to them often see their religion as being the most important element of their identity Yet the world view of these communities is frequently at odds with both the prevailing liberal secular climate of Great Britain and its Christian Anglican past This necessarily entails a clash of ideologies that puts in question the secular majority's claim to want to protect religious minorities the possibility of it being able to sufficiently understand the needs of those minorities and the desirability or practicality of any accommodation between the needs of the various religious communities and the secular mainstream of society Law and Faith in a Sceptical Age addresses these issues by raising the question of whether a liberal secular state can protect religion Accommodation to different religious traditions forms part of the history of the legal systems of Britain This book asks whether further accommodation can and should be made Philosophy, Science and Religion for Everyone Duncan Pritchard, Mark Harris, 2017-07-20 Philosophy Science and Religion for Everyone brings together these great truth seeking disciplines and seeks to understand the ways in which they challenge and inform each other Key topics and their areas of focus include Foundational Issues why should anyone care about the science and religion debate How do scientific claims relate to the truth Is evolution compatible with design Faith and Rationality can faith ever be rational Are theism and atheism totally opposed Is God hidden or does God simply not exist Faith and Science what provides a better explanation for the origin of the universe science or religion Faith and physics can they be reconciled Does contemporary neuroscience debunk religious belief Creationism and evolutionary biology what constitutes science and what constitutes pseudo science Practical Implications is fundamentalism just a problem for religious people What are the ethical implications of the science and religion debate Do logic and religion mix This book is designed to be used in conjunction with the free Philosophy Science and Religion MOOC massive open online course created by the University of Edinburgh and hosted by the Coursera platform www.coursera.org This book is also highly recommended for anyone looking for a concise overview of this fascinating discipline God, Truth, and other Enigmas Mirosław Szatkowski, 2015-07-01 The book God Truth and other Enigmas is a collection of eighteen essays that fall under four headings God's Existence Non Existence Omniscience Truth and Metaphysical Enigmas The essays vary widely in topic and tone They provide the reader with an overview of contemporary philosophical approaches to the subjects that are indicated in the title of the book **Bias, Belief, and Conviction in an Age of Fake Facts** Anke Finger, Manuela Wagner, 2022-09-29 In this book authors engage in an interdisciplinary discourse of theory and practice on the concept of personal conviction addressing the variety of grey zones that mark the concept Bias Belief and Conviction in an Age of Fake Facts discusses where our convictions come from and whether we are aware of them why they compel us to certain actions and whether we can change our convictions when presented with opposing evidence which prove our personal convictions wrong Scholars from philosophy psychology

comparative literature media studies applied linguistics intercultural communication and education shed light on the topic of personal conviction crossing disciplinary boundaries and asking questions not only of importance to scholars but also related to the role and possible impact of conviction in the public sphere education and in political and cultural discourse By taking a critical look at personal conviction as an element of inquiry within the humanities and social sciences this book will contribute substantially to the study of conviction as an aspect of the self we all carry within us and are called upon to examine It will be of particular interest to scholars in communication and journalism studies media studies philosophy and psychology The Open Access version of this book has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license <https://www.taylorfrancis.com/books/oa-edit/10.4324/9781003187936/bias-belief-conviction-age-fake-facts-anke-finger-manuela-wagner>

Ramsey, 2011-06-07 In a time when more and more people are discovering they can have a rational morality without an orthodox God these twenty four essays reappraise the whole character of Christian ethics and criticize the traditional underpinning of morality by religion Edited by Ian T Ramsey professor of philosophy at Oxford University the volume is a valuable sequel to the well known New Essays in Philosophical Theology The contributors include atheists agnostics and Christians Among them are Ninian Smart R B Braithwaite Ronald Hepburn and Iris Murdoch The essays do not attempt to examine specific Christian questions in any sort of theological detail rather their primary concern is with problems that arise principally in a philosophical context But they are concerned with issues that lie behind the present bewilderment in Christian morality Stressing the diversity of moral situations the papers show that these are far from being homogeneous and rule determined Moral decision demands personal involvement activating the possibility of good and bad reasons for making such a decision The essays point out the character of moral disagreements and also remind us that morality is not only of individual but also of social significance The last section of the book examines the present concept of natural law its possible erosion by developments in anthropology psychology and philosophy and whether the possibility exists for a theory of morality that unites both natural law theory and Christian ethics Socio-ideological fantasy and the Northern Ireland conflict Adrian Millar, 2013-07-19 Conducting a Lacanian inspired psychoanalysis of some of the most candid interview materials ever gathered from former IRA members and loyalists the author demonstrates through a careful examination of their slips of the tongue jokes rationalisations and contradictions that it is the unconscious dynamics of socio ideological fantasy i e the unconscious pleasure people find in suffering domination submission ignorance failure and rivalry over jouissance that lead to the reproduction of antagonism between the Catholic and Protestant communities in Northern Ireland In the light of this he concludes that traditional approaches to conflict resolution which overlook the unconscious are doomed to failure and that a Lacanian psychoanalytic understanding of socio ideological fantasy has great potential for informing the way we understand and study all inter religious and ethnic conflicts Whether you find yourself agreeing with the arguments in this book or not you are sure to find it a welcome change from both the existing mainly conservative analyses of the Northern Ireland conflict and traditional approaches to conflict resolution
