Religious Experience Of Mankind:

The Religious Experience of Mankind Ninian Smart, 1976 *The Religious Experience of Mankind*, by Ninian Smart
Ninian Smart, 1971 **The Religious Experience** Ninian Smart, 1991 Well known and respected this comprehensive history of religious experience explores the major world religions within a consistent framework based on the author's paradigm six dimensions of religion. It tells the story without entering unduly into technicalities and focuses on how the major religious traditions relate to human experience. It extends beyond information about the traditions to distill the essential patterns of both feelings and ideas that animate religious practice. Contains photographs that evoke the flavor of religious rituals or experiences and maps that orient students to the geographic context of religious traditions *Law, Freedom, and Story* John C Hoffman, 1986-04 Rarely has an author illuminated in one book an aspect of religious study with attention to so many disciplines. John Hoffman skilfully interrelates the fields of psychology, mythology, anthropology, literature, and New Testament studies to show their common use of narration techniques. Hoffman explains how the storytelling nature of myths, parables, and psychotherapy seeks to heal and to bring wholeness to both the individual and to a social grouping. Bringing into this discussion the tension between law, the stabilizing factor of a society, and freedom, the spontaneous and creative urges that move outside of social order, Hoffman shows how rituals function to affirm the order of the culture in which they exist yet as they open up the realm of the imagination they provide the possibility for disruption. For as long as fantasy is a part of narration, both in telling and hearing, the social order can be both criticized and superseded. Hoffman clearly sets his work within the genre of Crossan, Perls, Jaffe, Turner, Grimes, Buechner, and Eliade. Carefully examining the work of Tom Driver and John Cobb, he expresses the need to go beyond traditional structures and formulations in order to move theology closer to narrative. A narrative form, Hoffman argues, can both affirm faith and invite believers to transcend its expression and break free of its strictures, providing for an ever more dynamic theology **The Cambridge Companion to Religious Experience** Paul K. Moser, Chad Meister, 2020-07-16 For centuries theologians and philosophers among others have examined the nature of religious experience. Students and scholars unfamiliar with the vast literature face a daunting task in grasping the main issues surrounding the topic of religious experience. *The Cambridge Companion to Religious Experience* offers an original introduction to its topic. Going beyond an introduction, it is a state-of-the-art overview of the topic with critical analyses of and creative insights into its subject. Religious experience is discussed from various interdisciplinary perspectives from religious perspectives inside and outside traditional monotheistic religions and from various topical perspectives. Written by leading scholars in clear and accessible prose, this book is an ideal resource for undergraduate and graduate students, teachers, and scholars across many disciplines **Ninian Smart on World Religions: Religious experience and philosophical analysis. I. Autobiographical. 'Methods in my life'** Ninian Smart, 2009 Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the

late 1960s His pioneering views on education in religion proved hugely influential at all levels from primary schools to academic teaching and research An unending string of publications many of them accessible to the general public sustained a reputation that became worldwide Here for the first time a selection of Ninian Smart's wide ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century The editor John Shepherd was Principal Lecturer in Religion and Philosophy at the University of Cumbria He first met Smart as a postgraduate student and recently helped establish the Ninian Smart Archive at the University of Lancaster

Understanding Religious Experiences J. Harold Ellens, 2007-11-30 Today most people feel less interested in religion and more interested in spirituality If you ask what they mean they will tell you that organized religion tends to turn them off but nonetheless they feel a hunger in the heart that they cannot seem to fill They do not mean that they would rather have disorganized religion they mean that institutional religion does not seem to satisfy their spirits and feel there must be something more some better way of experiencing whatever that is for which they are hungry Much new experimentation is going on as a result Some of it is a search for the meaning to fill the soul and satisfy the spirit much of it is a search for meaning on the spiritual level itself Spirituality reaches always toward the question about the meaning of God the meaning of relationships with others the meaning of intimacy and the meaning of soul gratifying insights into truth Here Ellens carefully and sensitively explores the full range of our spiritual natures and the variety of spiritual experiences of which we are capable describing the way our souls and psyches work in our hunger and thirst for meaning He explains in an enlightening and unconventional way why and how every human desires to reflect upon learn and share a heartfelt experience of God and of others Readers will find in this book a description of the meaning of the

biblical stories about spiritual experiences in addition to descriptions of the kinds of spiritual experiences that ordinary people are having how they are achieving them and the ways in which they are filling their lives with meaning that goes beyond the horizons of material life The author paints this picture in such a way as to let us in on what biblically based authentic spirituality and spiritual experience really is and why it may or may not necessarily have anything to do with traditional institutionalized religion He carefully and vividly explains the notion of spirituality as it is illustrated in the Bible and discusses spiritual experiences such as prayer epiphany visions and other experiences He considers whether spirituality is mainly a connection with God with others or with both Readers hoping to get a better sense of what it means to be spiritual will have many of their questions answered in these pages *SCM Studyguide to Religious and Spiritual Experience* Jeff Astley, 2020-02-28 This Studyguide provides a succinct and lucid introduction to the subject for those studying and teaching religion at both undergraduate and GCE AS A level By exploring the key areas of both the empirical and theoretical study of religious and spiritual experience the Studyguide will serve as an accessible and nonpartisan guide to enable its readers to explore the range of challenging data debates approaches and issues that relate to the study of this widespread and significant phenomenon *Religious Behaviour and Spiritual Experience* Ashit Chandra Chakraborty, Swami Priyavratana, 2015-12-23 Spiritual life and its experiences seem to elude ordinary understanding Can spiritual truths be investigated by scientific techniques Why do people take to spiritual life Is there a scientific truth behind supra normal experiences This book published by Advaita Ashrama a publication centre of Ramakrishna Math Belur Math India deals with scientific exploration of spiritual experiences and answers these questions *Religious Experience in World Religions* Victor C. Comparative Historical and Interpretative Study of Religions Michael P. Adogbo, 2010 The slimness of Comparative Historical and Interpretative Study of Religions belies its contents and it is a truly historical and interpretative study of religions in human history It is specially designed for students in tertiary institutions Although the topics reflect the current National University Commission NUC undergraduate programme in Religious Studies in Nigeria the work provides a thorough methodological discussion and more on specific themes historical figures and movements in study of religions Book Jacket **Human Traits and Their Social Significance** Irwin Edman, 1919 **Towards a Theory of Relativity of Truth in Morality and Religion** Charles Goossens, 1990 This study argues for a model in which moral truth is presented as truth in the perspective of certain social commitments while religious truth is interpreted as truth in the perspective of religious experience It theorizes that relativity need not conflict with universality Truth from the perspective of the outsider is therefore truth without qualification
