**Francis of Assisi as Artist of the Spiritual Life** Andrew T. McCarthy, 2010-08-13 Francis of Assisi as Artist of the Spiritual Life applies modern psychological understanding to a historical person While most such studies have sought a comprehensive personality profile this work focuses on one aspect Francis imagination and seeks greater insight into the imaginatively inspired spiritual vision of St Francis An analysis of Francis writings builds on a survey of modern views of the imagination and the approach of ORT or Object Relations Theory ORT with its contention that the imaginative creation of an infant s world develops out of the earliest interactions with the maternal caregiver highlights the way Francis formed his way of visualizing the reality around him While any study of a person 800 years in the grave is more dependent on what is plausible than on what is determinable this study finds numerous examples where Francis writings display an adept use of imagination and even encourages others in that use in a manner that corresponds to an ORT perspective on tutoring the imagination

cultural collection of studies on visual treatments of the phenomena of suffering and pain in early modern culture Ranging geographically from Italy Spain and the Low Countries to Chile Mexico and the Philippines and chronologically from the fourteenth to the eighteenth centuries these studies variously consider pain and suffering as somatic emotional and psychological experiences From examination of bodies shown victimized by brutal public torture to the sublimation of physical suffering conveyed through the incised lines of Counter Reformation engravings the authors consider depictions of pain and suffering as conduits to the divine or as guides to social behaviour indeed often the two functions overlap

**Retribution or Reality?** Michael S. Moore, 2023-11-09 The book of Job is one of the greatest if not the greatest literary accomplishments of the ancient world yet in many ways it is just as relevant today as it was then This book examines Job from a comparative theological perspective in order to help contemporary readers access it learn from it and apply its insights to contemporary life

**On God and Dogs** Stephen H. Webb, 1998 Many of us keep pet animals we rely on them for companionship and unconditional love For some people their closest relationships may be with their pets In the wake of the animal rights movement some ethicists have started to re examine this relationship and to question the rights of humans to own other sentient beings in this way In this engaging and thought provoking book Stephen Webb brings a Christian perspective to bear on the subject of our responsibility to animals looked at through the lens of our relations with pets especially dogs Webb argues that the emotional bond with companion animals should play a central role in the way we think about animals in general and against the more extreme animal liberationists defends the intermingling of the human and animal worlds He tries to imagine what it would be like to treat animals as a gift from God and indeed argues that not only are animals a gift for us but they give to us we need to attend to their giving and return their gifts appropriately Throughout the book he insists that what Christians call grace is present in our relations with animals just as it is with other humans Grace is the inclusive and expansive power of God's love to create and sustain relationships of real mutuality and reciprocity and Webb unfolds the implications of the recognition that animals too participate in God's abundant grace Webb's thesis affirms and persuasively defends many of the things that pet lovers feel instinctively that their relationships with their companion animals are meaningful and important and that their pets have value and worth in themselves in the eyes of God His book will appeal to a broad audience of thoughtful Christians and animal lovers

*Socialism and Communication* Omar Swartz, 2019-04-26 First published in 1999 this volume was offered as a response to an increasingly hostile and alienating political world and speaks for the vision of libertarian socialism anarchism Building upon James Arnt Aune's

Rhetoric and Marxism and the author's *The Rise of Rhetoric* this book differs by stressing the social over the communicative theoretical Omar Swartz presents a book of applied communication and advances social philosophy from a communication perspective rather than communication theory per se It will find an audience amongst those in social and communication studies as well as the cultural studies movement along with left wing political parties *The Representation of Bodily Pain in Late Nineteenth-century English Culture* Lucy Bending,2000 This book presents a study of the ways in which concepts of pain were treated across a broad range of late Victorian writing placing literary texts alongside sermons medical textbooks and the campaigning leaflets in order to suggest patterns of presentation and evasion to be perceived throughout the different texts assembled Pain is not a shared cross cultural phenomenon and this book uses the examples of fire walking flogging and tattooing to show that despite the fact that pain is often invoked as a marker of shared human identity understandings of pain are sharply affected by class gender race and supposed degree of criminality In arguing this case Virginia Woolfs claim that there is no language for pain is taken seriously but the importance of this book lies in its exploration of the ways in which the seemingly incommunicable experience of bodily suffering can be conveyed Dad Incarnate Bradford T. Stull,2007 What does it mean to be a father Society offers a wide range of stereotypes pedophiles deadbeat Mr Mom Some of these stereotypes cause destruction and despair none of them offers men a worthy model to follow Dad Incarnate leads the reader through a culture and western literature exploring how the image of father has been clipped compressed and otherwise distorted over the years It then presents the case for a much more informed understanding of fatherhood one that opens up possibilities rather than shutting them down Bradford Stull describes a new model dad incarnate that can help dads and the people who love them rediscover fatherhood Why Because how we think about father informs how we relate to that other Father God or Abba and the way we think about God informs the way we think about fathers Provided by publisher *About Merton* ,2002 *The Cumulative Book Index* ,1996 A world list of books in the English language **Archbishop Oscar Romero** Damian Zynda,2010 Damian Zynda's comprehensive analysis at the nexus of theology spirituality and psychology demonstrates the progression and depth of Romero's human and spiritual development and offers contemporary readers who want to be more perfect Christian disciples a valuable model of conversion spirituality Book Jacket **CCCC Bibliography of Composition and Rhetoric 1994** Gail E. Hawisher,Cynthia L. Selfe,1996-09 This volume lists and annotates more than two thousand articles books dissertations and papers that with few exceptions appeared in 1994 It includes an index of authors and editors a subject index and entries cross referenced according to subject matter The 1994 Bibliography looks dramatically different from the Bibliography Erika Lindemann founded more than ten years ago Many more titles now relate to fields not represented in early editions Although composition and rhetoric has always borrowed methods of investigation from other disciplines areas such as critical theory science studies feminist theory technology studies and postmodern theory were much less a part of the discipline a decade

ago These fields are well represented this year This volume like the 1993 Bibliography also differs from early editions in that it contains a section on electronic discussion groups or listservs including information on how readers may join the various groups Yet the mission and goals of the Bibliography remain the same to ensure that it is sufficiently comprehensive that it can continue to function as a major bibliographical resource available to scholars and teachers in rhetoric composition communication and literary education As usual the CCCC Bibliography of Composition and Rhetoric draws on a large group of experts in the field Annotations which accompany every entry in this volume describe a publication s contents and are intended to help users determine the entry s usefulness Annotations are brief and are meant to be descriptive not evaluative they explain what an entry is about but leave readers free to judge for themselves the work s merits The CCCC Bibliography of Composition and Rhetoric remains a critical bibliographical resource one that reflects and respects the variety of scholarship in composition studies and that exerts a constructive productive influence on the composition and rhetoric community
