The MacHiavellian's Guide to Flirting Nick Casanova, 2008-11 The key to being successful at love is to be playful playfully suggestive playfully romantic and playfully bantering Flirting is how you send the message that you're interested without saying so directly If you do it well you can keep your prospect amused giddy titillated flattered and insulted all at the same time Flirting is also how you establish that you have a sense of humor that you're smart and that you're sane And it's how you tell whether your prospect has those same qualities If both of you are in the right mood these routines can be great fun The book is divided into two sections one for women and the other for men Since it is usually the man who does the chasing and the woman who does the choosing these different roles lend themselves to different styles of flirting Despite gender differences however most but not all of the chapters can be adapted for use by the opposite sex
