in the constitution of a revolutionary government Emeritus Justice Albie Sachs was a freedom fighter for most of his life He then played a major role in the negotiating committee for the new constitution of South Africa and was subsequently appointed to the new Constitutional Court of South Africa Therefore the question of what it means to make the transition from a freedom fighter to a participant in a revolutionary government is not abstract in Hegel's sense of the word it is an actual journey that Albie Sachs undertook The essays in this book raise the complex question of what it actually means to make this transition without selling out to the demands of realism In addition the preface written by Emeritus Justice Albie Sachs and his interview with Drucilla Cornell and Karin van Marle further address key questions about revolution in the twentieth and twenty first centuries from armed struggle to the organization of a nation state committed to ethical transformation in the name of justice Albie Sachs and transformation in South Africa from revolutionary activist to constitutional court judge illuminates the theoretical and practical experiences of revolution and its political aftermath With first hand accounts alongside academic interrogation this unique book will intrigue anyone interested in the intersection of Law and Politics

as encroachments upon democratic sovereignty Benhabib develops two key concepts to move beyond these false antitheses International human rights norms need contextualization in specific polities through processes of what she calls democratic iterations Furthermore such norms have a jurisgenerative power in that they enable new actors to enter fields of social and political contestation they promote new vocabularies for public claim making and anticipate a justice to come Ranging over themes such as sovereignty citizenship genocide European anti semitism the crisis of the nation state and the scarf affair in contemporary Europe and Turkey this major new book by one of our leading political theorists reflects upon the political transformations of our times and makes a compelling case for a cosmopolitanism without illusions *Crisis and Renewal in the History of European Political Thought*, 2021-08-30 Listen to the podcast here Read *Crisis* as a trigger for new ways of thinking about politics here This volume explores the complex theme of crisis in European political thought from antiquity to the twenty first century It investigates the innovations in political thought that sprang from crisis as well as the conceptual challenges thinkers faced when dealing with the devastation wrought by spiritual economic and political crises In so doing *Crisis and Renewal* also examines the ways in which crisis often became the site of renewal As an object of theoretical reflection and as a pivotal element of our vocabulary the notion of crisis is often applied indiscriminately and without clarity to a huge variety of domains This volume provides a historically informed analysis of what it means to reflect on and theorise about crisis Contributors are Erica Benner Niall Bond Nathaniel Boyd Andrea Catanzaro Patricia Chiantera Stutte Alberto Clerici Cesare Cuttica Annalisa Furia George Gallwey Kai Gr f Ferenc H rcher Paschalis M Kitromilides L szl Kontler Adriana Luna Fabritius Clara Maier Janine Murphy Adrian O Connor and Mark Somos **The Juridical Unconscious** Shoshana Felman, 2002-11-30 This book offers an account of the surprising interaction between trauma and justice Moving from texts by Arendt Benjamin Freud Zola and Tolstoy to the Dreyfus and Nuremberg trials and the trials of O J Simpson and Adolf Eichmann Felman argues that the adjudication of collective traumas in the 20th century transformed both culture and law

**The Body Politic** Catherine A. deeply shaped the history of the twentieth century This book thus merges ideas and representations by devoting an equal importance to theoretical and iconographic sources offering for our troubled present a new intellectual history of the revolutionary past

**Critical Theories of Anti-Semitism** Jonathan Judaken, 2024-06-04 Despite its persistence and viciousness anti-Semitism remains undertheorized in comparison with other forms of racism and discrimination How should anti-Semitism be defined What are its underlying causes Why do anti-Semites target Jews In what ways has Judeophobia changed over time What are the continuities and disconnects between medieval anti-Judaism and the Holocaust How does criticism of the state of Israel relate to anti-Semitism And how can social theory illuminate the upsurge in attacks on Jews today Considering these questions and many more this book is at once a philosophical reflection on key problems in the analysis of anti-Semitism and a history of its leading theories and theorists Jonathan Judaken explores the methodological and conceptual issues that have vexed the study of Judeophobia and calls for a reconsideration of the definitions categories and narratives that underpin overarching explanations He traces how a range of thinkers have wrestled with these challenges examining the theories of Jean-Paul Sartre the Frankfurt School Hannah Arendt and Jean-François Lyotard alongside the works of sociologists Talcott Parsons and Zygmunt Bauman and historians Leon Poliakov and George Mosse Judaken argues against claims about the uniqueness of Judeophobia demonstrating how it is entangled with other racisms Islamophobia Negrophobia and xenophobia *Critical Theories of Anti-Semitism* not only urges readers to question how they think about Judeophobia but also draws them into conversation with a range of leading thinkers whose insights are sorely needed in this perilous moment

**Hannah Arendt's Ethics** Deirdre Lauren Mahony, 2018-06-28 The vast majority of studies of Hannah Arendt's thought are concerned with her as a political theorist This book offers a contribution to rectifying this imbalance by providing a critical engagement with Arendtian ethics Arendt asserts that the crimes of the Holocaust revealed a shift in ethics and the need for new responses to a new kind of evil In this new treatment of her work Arendt's best-known ethical concepts the notion of the banality of evil and the link she posits between thoughtlessness and evil both inspired by her study of Adolf Eichmann are disassembled and appraised The concept of the banality of evil captures something tangible about modern evil yet requires further evaluation in order to assess its implications for understanding contemporary evil and what it means for traditional moral philosophical issues such as responsibility blame and punishment In addition this account of Arendt's ethics reveals two strands of her thought not previously considered her idea that the condition of living with oneself can represent a barrier to evil and her account of the nonparticipants who refused to be complicit in the crimes of the Nazi period and their defining moral features This exploration draws out the most salient aspects of Hannah Arendt's ethics provides a critical review of the more philosophically problematic elements and places Arendt's work in this area in a broader moral philosophy context examining the issues in moral philosophy which are raised in her work such as the relevance of intention for moral responsibility and of thinking for good moral conduct and questions of character integrity and moral

incapacity      Founding Acts Serdar Tekin, 2016-05-25 Founding Acts argues that how constitutions are made or their pedigree is morally and politically as significant as what they are made of or their content On this view democratic constitution making is not only about making a democratic constitution but also about making it democratically      **The Worlds of American Intellectual History** Joel Isaac, James T.
