twentieth century witnessed nations across Africa fighting for their independence from colonial forces By examining black Americans attitudes toward and responses to these liberation struggles James Meriwether probes the shifting meaning of Africa in the intellectual political and social lives of African Americans Paying particular attention to such important figures and organizations as W E B Du Bois Martin Luther King Jr and the NAACP Meriwether incisively utilizes the black press personal correspondence and oral histories to render a remarkably nuanced and diverse portrait of African American opinion Meriwether builds the book around seminal episodes in modern African history including nonviolent protests against apartheid in South Africa the Mau Mau war in Kenya Ghana s drive for independence under Kwame Nkrumah and Patrice Lumumba s murder in the Congo Viewing these events within the context of their own changing lives especially in regard to the U S civil rights struggle African Americans have continually reconsidered their relationship to contemporary Africa and vigorously debated how best to translate their concerns into action in the international arena Grounded in black Americans encounters with Africa this transnational history sits astride the leading issues of the twentieth century race civil rights anticolonialism and the intersections of domestic race relations and U S foreign relations *A Very Mutinous People* Noeleen McIlvenna,2009-06-01 Historians have often glorified eighteenth century Virginia planters philosophical debates

about the meaning of American liberty But according to Noeleen McIlvenna the true exemplars of egalitarian political values had fled Virginia's plantation society late in the seventeenth century to create the first successful European colony in the Albemarle in present day North Carolina Making their way through the Great Dismal Swamp runaway servants from Virginia joined other renegades to establish a free society along the most inaccessible Atlantic coastline of North America They created a new community on the banks of Albemarle Sound maintaining peace with neighboring Native Americans upholding the egalitarian values of the English Revolution and ignoring the laws of the mother country Tapping into previously unused documents McIlvenna explains how North Carolina's first planters struggled to impose a plantation society upon the settlers and how those early small farmers defending a wide franchise and religious toleration steadfastly resisted She contends that the story of the Albemarle colony is a microcosm of the greater process by which a conglomeration of loosely settled politically autonomous communities eventually succumbed to hierarchical social structures and elite rule Highlighting the relationship between settlers and Native Americans this study leads to a surprising new interpretation of the Tuscarora War

Unmasking the Administrative State John Marini, 2019-01-29 The election of Donald J Trump to the presidency shocked the political establishment triggering a wave of hysteria among the bicoastal elite that may never subside The biggest shockwaves of all however were felt not in the progressive parishes of Manhattan or San Francisco but in the halls of the political elite's cherished and oft overlooked center of power Washington DC's sprawling administrative state for President Trump represented an existential threat to its denizens who came to be known as swamp creatures How did it come to pass that the draining of the swamp would become a core aim of the Trump administration impacting everything from judicial appointments to the federal budget and regulatory policy Marini's unmasking of the administrative state goes beyond bureaucracy or legalism to its core in an intellectual elite whose consensus transcends whatever disagreements flare up The universities the media and think tanks that denounce Trump are its heart The answer to this question and many more lies in the underappreciated but revolutionary scholarship of Professor John Marini collected in his new book *Unmasking the Administrative State* which tells the critical missed story of the last century of political history The ascendance of the theory behind and resultant growth of an administrative state that has supplanted limited constitutional government with the tyranny of unbounded anticonstitutional bureaucracy Marini illustrates the existential threat of the administrative state to our republic exposes the regressive philosophy from which it springs and argues for the reassertion of the founding principles to restore self government The Trump administration may be the best chance to apply the lessons of Marini's life's work and seize this remarkable opportunity to restore power to its rightful owners the American people *Dragonfire Triumph* Deborah Cooke, 2019-05-21 *Dragonfire Triumph* is the fourth and final digital bundle in The *Dragonfire Novels* The Complete Series and includes the books that include the final victory of the Pyr in the Dragon's Tail Wars between the Pyr dragon shifters pledged to defend the treasures of the earth and the evil Slayers dragon shifters bent on destroying both the

Women Writers and the English Nation in the 1790s Angela Keane, 2001-01-25 Angela Keane addresses the work of five women writers of the 1790s and its problematic relationship with the canon of Romantic literature Refining arguments that

women's writing has been overlooked Keane examines the more complex underpinnings and exclusionary effects of the English national literary tradition The book explores the negotiations of literate middle class women such as Hannah More Mary Wollstonecraft Charlotte Smith Helen Maria Williams and Ann Radcliffe with emergent ideas of national literary representation As women were cast into the feminine maternal role in Romantic national discourse women like these who defined themselves in other terms found themselves exiled sometimes literally from the nation These wandering women did not rest easily in the family romance of Romantic nationalism nor could they be reconciled with the models of literary authorship that emerged in the 1790s
