Original Letters Written During the Reigns of Henry VI., Edward IV., and Richard III. by Various Persons of Rank Or Consequence ... with Notes Historical and Explanatory and Authenticated by Engravings of Autographs and Seals John Fenn, 1840 A History of the British Army, Vol.1 (of 2) J. W. Fortescue, The history of the British Army is commonly supposed to begin with the year 1661 and from the day the 14th of February whereon King Charles the Second took over Monk s Regiment of Foot from the Commonwealth s service to his own and named it the Coldstream Guards The assumption is unfortunately more convenient than accurate The British standing army dates not from 1661 but from 1645 not from Monk s regiment but from the famous New Model which was established by Act of the Long Parliament and maintained in substance until the Restoration The continuity of the Coldstream regiment s existence was practically unbroken by the ceremony of Saint Valentine s day and this famous corps therefore forms the link that binds the New Model to the Army of Queen Victoria But we are not therefore justified in opening the history of the army with the birth of the New Model The very name indicates the existence of an earlier model and throws us back to the outbreak of the Civil War There then confronts us the difficulty of conceiving how an organised body of trained fighting men could have been formed without the superintendence of experienced officers We are forced to ask whence came those officers and where did they learn their profession The answer leads us to the Thirty Years War and the long struggle for Dutch Independence to the English and

Scots numbered by tens nay hundreds of thousands who fought under Gustavus Adolphus and Maurice of Nassau Two noble regiments still abide with us as representatives of these two schools a standing record of our army s prentice years But though we go back two generations before the Civil War to find the foundation of the New Model Army it is impossible to pause there In the early years of Queen Elizabeth s reign we are brought face to face with an important period in our military history with a break in old traditions an unwilling conformity with foreign standards in a word with the renascence in England of the art of war For there were memories to which the English clung with pathetic tenacity not in Elizabeth s day only but even to the midst of the Civil War the memories of King Harry the Fifth of the Black Prince of Edward the Third and of the unconquerable infantry that had won the day at Agincourt Poitiers and Cre y The passion of English sentiment over the change is mirrored to us for all time in the pages of Shakespeare for no nation loves military reform so little as our own and we shrink from the thought that if military glory is not to pass from a possession into a legend it must be eternally renewed with strange weapons and by unfamiliar methods This was the trouble which afflicted England under the Tudors and she comforted herself with the immortal prejudice that is still her mainstay in all times of doubt I tell thee herald I thought upon one pair of English legs Did march three Frenchmen The origin of the new departures in warfare must therefore be briefly traced through the Spaniards the Landsknechts and the Swiss and the old English practice must be followed to its source Cre y gives us no resting place for Edward the Third s also was a time of military reform the next steps are to the Battle of Falkirk the Statute of Winchester and the Assize of Arms and still the English traditions recede before us till at last at the Conquest we can seize a great English principle which forced itself upon the conquering Normans and ultimately upon all Europe To be continue in this ebook Robert of Gloucester's Chronicle Robert (of Gloucester),1810 1775-1817 Edward Verrall Lucas,1905 *The Life of Charles Lamb* Edward Verrall Lucas,John Lamb,1905
