

# Remembering Summer

On cold, winter days ...  
my feet remember the sand between my toes,  
my legs remember the splash of the foamy surf,  
my body remembers stretching out through the long, lazy days,  
my arms remember cartwheels across the beach,  
my hands remember digging at low tide for juicy pips,  
my face remembers the warm rays of the sun,  
my mind remembers  
that summer will be back again soon.

**Cultural Histories, Memories and Extreme Weather** Georgina H. Endfield, Lucy Veale, 2017-07-28 Extreme weather events such as droughts strong winds and storms flash floods and extreme heat and cold are among the most destructive yet fascinating aspects of climate variability Historical records and memories charting the impacts and responses to such events are a crucial component of any research that seeks to understand the nature of events that might take place in the future Yet all such events need to be situated for their implications to be understood This book is the first to explore the cultural contingency of extreme and unusual weather events and the ways in which they are recalled

recorded or forgotten It illustrates how geographical context particular physical conditions an area s social and economic activities and embedded cultural knowledges and infrastructures all affect community experiences of and responses to unusual weather Contributions refer to varied methods of remembering and recording weather and how these act to curate recycle and transmit extreme events across generations and into the future With international case studies from both land and sea the book explores how and why particular weather events become inscribed into the fabric of communities and contribute to community change in different historical and cultural contexts This is valuable reading for students and researchers interested in historical and cultural geography environmental anthropology and environmental studies

*Learning by Heart* Maggie Anderson, David Hassler, 1999 A collection of poems written primarily between 1970 and 1995 by contemporary American poets that recall the experiences of elementary and high school **Memory** Sven Bernecker, 2009-12-24 In this book Sven Bernecker investigates the defining characteristics of memory and the issues essential to understanding it The book gives a comprehensive philosophical account of memory and illuminates issues central to contemporary discussions of metaphysics and epistemology such as personal identity causation mental content and justification Bernecker argues that remembering something unlike knowing something does not require having a belief There are also instances where one has a memory but no justification for what one remembers These surprising results suggest that remembering something requires standing in an appropriate causal relation to the relevant past representation The book shows that a distinction needs to be made between the causal dependence of a memory on a past representation and the causal dependence of a memory on that which retains the past representation This distinction turns out to be crucial for discerning cases of remembering from instances where some content is learned anew rather than recalled The book proposes a theory of memory contents whereby they are determined by relations the subject bears to his past physical or social environment rather than by states internal to the subject This theory is shown to be compatible with the compelling psychological criterion of personal identity Against the background of the theory of memory contents Bernecker maintains that a memory content need not be the same as but only similar to the content of the representation from which it causally derives This view has interesting results for the debate over false memories and the theory of self knowledge **The Triplet Scandal (Book Three)** Layla Valentine, I thought it would be so simple Marry the boss I hate and watch my money problems melt away But now I ve got one big billionaire problem And three tiny triplets on the way HER I made a deal with the devil Half a million to fake marry my jerk of a boss Sure what s the worst that could happen I only realized my mistake when he walked into my life Leon Knight the gorgeous billionaire who happens to be my fianc s biggest rival For one night only I followed my heart And make the biggest mistake of my life Six weeks later and the wedding s going ahead And I m pregnant with three of his sworn enemy s babies HIM This is no fairy tale but she looks like a princess to me A damsel in distress betrothed to a beast What s a gorgeous smart woman like Grace doing with a guy like Sebastian She doesn t strike

**Anne of Ingleside** Montgomery L., **Ethnic Capital in a Japanese Brazilian Commune** Nobuko Adachi,2017-02-16 This is a book about the power ethnic capital and how it drives both the economics of and the quest for identity in a Japanese Brazilian commune Adachi tells readers what this small diaspora community can teach us about how life in the trenches looks to those on the outskirts of the exploding transnational world economy This book explores the various strategies locals use to compete with others with whom they are linked locally nationally and globally Through the story of Kubo daily life Adachi offers insights into important aspects of social and linguistic theory as well as explicating how cross border relations become more and more intertwined In a sense Kubo s story with its struggles to maintain its identity even its survival in an increasingly globalized world encapsulates many of the problems now faced by smaller communities around the world be they diasporic or regionally entrenched or ethnically racially or religiously composed Adachi explores the motivations for racial and ethnic boundary making based primarily on values and principles rather than purely physiological features by focusing on Kubo and its marketing of supposedly traditional Japanese cultural values in spite of the commune being located in the interior of Brazil To do this she incorporates notions from linguistic anthropology and sociolinguistics including problems of language maintenance the relationships between language and symbolic power and the intricacies of language

and gender Doing so helps theorize the tensions between hybridity and purity entailed in the complexities of identity dynamics

**Higher Ground** Craig Werner, 2007-12-18 An insightful music writer brilliantly reinterprets the lives of three pop geniuses and the soul revolution they launched Soul music is one of America's greatest cultural achievements and Stevie Wonder Aretha Franklin and Curtis Mayfield are three of its most inspired practitioners In midcentury America it was soul music particularly the dazzling stream of recordings made by these three stars that helped bring the gospel vision of the black church into the mainstream energizing the era's social movements and defining a new American gospel where the sacred and the secular met What made this gospel all the more amazing was that its most influential articulators were the sons and daughters of sharecroppers storefront preachers and single parents in the projects whose genius gave voice to a new vision of American possibility Higher Ground seamlessly weaves the specific and intensely personal narratives of Stevie Aretha and Curtis's lives into the historical fabric of their times The three shared many similarities They were all children of the great migration and of the black church But Werner goes further and ties them together with a provocative thesis about American history and culture that compels us to reconsider both the music and the times And aside from the personalities and the history he writes beautifully about music itself the nuts and bolts of its creation and performance in a way that brings a new awareness and understanding to the most familiar music forcing you to listen to songs you've heard a thousand times with fresh ears In Higher Ground Werner illuminates the lives of three unparalleled American artists reminding us why their music mattered then and still resonates with us today
