## **Renaissance Talk:**

**Renaissance Talk** Stanley Stewart, 1997 Proceeding on the assumption that confusion in Renaissance criticism arises from the way we talk and the vocabularies we use Stewart investigates typical assertions in recent criticism of Spenser Shakespeare Donne and Herbert using a Wittgensteinian method of investigation This involves taking a thing usually a statement apart If a statement under such scrutiny seems to make no sense or to lead critics into blind alleys then we must try to clarify the expression As Stewart asserts if we are to go on together in critical conversation then we must find a way to sort out the confusion that arises from our language While Wittgenstein's thought has long been utilized by literary critics this study represents the first sustained application of ordinary language philosophy to the vocabulary and assumptions of current criticism This study is an original and important book one likely to be of great interest to philosophers as well as literary theorists While Renaissance Talk is primarily concerned with Renaissance and early modern studies its patient but relentless exposure of what sometimes passes for scholarly criticism along with its exemplary corrective explication of misinterpreted passages from the writings of major authors makes it useful reading for a wide range of Literary Studies students and scholars

**Speech, Print and Decorum in Britain, 1600--1750** Elspeth Jajdelska, 2016-03-10 Filling an important gap in the history of print and reading Elspeth Jajdelska offers a new account of the changing

relationship between speech rank and writing from 1600 to 1750 Jajdelska draws on anthropological findings to shed light on the different ways that speech was understood to relate to writing across the period bringing together status and speech literary and verbal decorum readership the material text and performance Jajdelska s ambitious array of sources includes letters diaries paratexts and genres from cookery books to philosophical discourses She looks at authors ranging from John Donne to Jonathan Swift alongside the writings of anonymous merchants apothecaries and romance authors Jajdelska argues that Renaissance readers were likely to approach written and printed documents less as utterances in their own right and more as representations of past speech or as scripts for future speech In the latter part of the seventeenth century however some readers were treating books as proxies for the author s speech rather than as representations of it These adjustments in the way speech and print were understood had implications for changes in decorum as the inhibitions placed on lower ranking authors in the Renaissance gave way to increasingly open social networks at the start of the eighteenth century As a result authors from the lower ranks could now publish on topics formerly reserved for the more privileged While this apparently egalitarian development did not result in imagined communities that transcended class readers of all ranks did encounter new models of reading and writing and were empowered to engage legitimately in the gentlemanly criticism that had once been the reserve of the cultural elites Shortlisted for the European Society for the Study of English ESSE book prize 2018

**The Erotics of Talk** Carla Kaplan,1996-12-12 Is feminism in crisis With many feminists now questioning identification and focusing on differences between women what is the fate of feminist criticism s traditional imperative to rescue women s stories and make their voices heard In this provocative rereading of the classic texts of the feminist literary canon Carla Kaplan takes a hard look at the legacy of feminist criticism and argues that important features of feminism s own canon have been overlooked in the rush to rescue and identify texts African American women s texts she demonstrates often dramatize their distrust of their readers their lack of faith in the cultural conversation through strategies of self silencing and self talk At the same time she argues the homoerotics of women s writing has too often gone unremarked Not only does longing for an ideal listener draw women s texts into a romance with the reader but there is an erotic excess which is part of feminist critical recuperation itself Drawing on a wide range of resources from sociolinguistics and anthropology to literary theory Kaplan s highly readable study proposes a new model for understanding and representing talk She supplies fresh readings of such feminist classics as Jane Eyre The Yellow Wallpaper Incidents in the Life of a Slave Girl Their Eyes Were Watching God and The Color Purple revealing how their erotics of talk works as a rich political allegory and form of social critique
