North Country Mary Lethert Wingerd, 2010 In 1862 four years after Minnesota was ratified as the thirty second state in the Union simmering tensions between indigenous Dakota and white settlers culminated in the violent six week long U S Dakota War Hundreds of lives were lost on both sides and the war ended with the execution of thirty eight Dakotas on December 26 1862 in Mankato Minnesota the largest mass execution in American history The following April after suffering a long internment at Fort Snelling the Dakota and Winnebago peoples were forcefully removed to South Dakota precipitating the near destruction of the area s native communities while simultaneously laying the foundation for what we know and recognize today as Minnesota In North Country The Making of Minnesota Mary Lethert Wingerd unlocks the complex origins of the state origins that have often been ignored in favor of legend and a far more benign narrative of immigration settlement and cultural exchange Moving from the earliest years of contact between Europeans and the indigenous peoples of the western Great Lakes region to the era of French and British influence during the fur trade and

beyond Wingerd charts how for two centuries prior to official statehood Native people and Europeans in the region maintained a hesitant largely cobeneficial relationship Founded on intermarriage kinship and trade between the two parties this racially hybridized society was a meeting point for cultural and economic exchange until the western expansion of American capitalism and violation of treaties by the U S government during the 1850s wore sharply at this tremulous bond ultimately leading to what Wingerd calls Minnesota s Civil War A cornerstone text in the chronicle of Minnesota s history Wingerd s narrative is augmented by more than 170 illustrations chosen and described by Kirsten Delegard in comprehensive captions that depict the fascinating often haunting representations of the region and its inhabitants over two and a half centuries North Country is the unflinching account of how the land the Dakota named Mini Sota Makoce became the State of Minnesota and of the people who have called it at one time or another home

A Way Across the Mountain Scott Stine, 2015-09-22 From July to November 1833 Joseph R Walker led a brigade of fifty eight fur trappers with two hundred horses and a year s provisions from the Rocky Mountains of Wyoming to the Pacific coast of central California Toward the end of their journey the Walker brigade crossed the Sierra Nevada becoming the first non Native people to traverse the range from east to west That crossing made long and brutal by bewildering terrain and deep snow is widely and rightly considered a milestone in the exploration of intermontane North America Following Walker s death in 1876 an alluring tale arose concerning his trans Sierran route In the course of the crossing goes the story Walker found himself on the northern rim of Yosemite Valley at the plungepoint of North America s tallest waterfall staring into the most awesome mountain chasm on the continent Over the decades since then this time honored tale has hardened to folklore Dozens of historical works have construed it as a towering moment in the opening of the West But in fact this tale of Yosemite s discovery has no basis or support in firsthand accounts of the 1833 Sierran crossing Moreover there is much in those accounts that contradicts Yosemite lore and much that points to a trans Sierran route well north of Yosemite Valley In *A Way Across the Mountain* Scott Stine reconstructs Walker s 1833 route over the Sierra Stine draws on his own intimate knowledge of the geomorphology hydrography biogeography and climate of the Sierra Nevada and Great Basin and employs the detailed travel narrative of the Walker brigade s field clerk Zenas Leonard Stine documents the inception growth and persistence of the Yosemite Myth and explores the extent to which that lore has overshadowed Walker s greatest discovery that the huge swath of continent between the Wasatch Front and the Sierran crest is hydrographically closed draining not to an ocean but to salty lakes and desert sands

Frank F. Mathias,2021-12-14 Frank Mathias was born in Maysville Kentucky pop 7000 in 1925 and grew up in nearby Carlisle pop 1500 where life in his small town was much like that in towns and villages all across America He came of age in an era of total security his parents never even had a key to their front door Daily living was infused with gossip no one had a secret and everyone knew everyone else s business Outdoor life was a vital part of growing up and teachers and mentors instilled a sense of right and wrong in young people Raised during the Great Depression Mathias became a member of a fighting force the likes of which the world had never known a legion now called The Greatest Generation The GI Generation tells Mathias s story of growing up with the sweet whistle of the L N train and the summer kitchen smells of hot salt rising bread and blackberry cobbler which could instantly halt even the most rousing game of cowboys and Indians Much of community life focused on the local high school which in Mathias s case was a tiny one with no chemistry courses no drivers training and no guidance counselors Yet the one hundred students who graduated between 1942 and 1944 became university professors top executives military commanders successful investors lawyers and physicians A vivid portrait of a bucolic pre war boyhood The GI Generation takes readers back to an era when boys rustled watermelons under the hot summer sun and young lovers danced to the sounds of farmhouse bands Whether describing the unfortunate but delicious end of his brother s pet chicken Don or the ominous clouds of war Mathias writes with humor honesty and compassion **American State Papers** United States. Diana L. Di Stefano,2013-11-01 Every winter settlers of the U S and Canadian Mountain West could expect to lose dozens of lives to deadly avalanches This constant threat to trappers miners railway workers and their families forced individuals and communities to develop knowledge share strategies and band together as they tried to survive the extreme conditions of avalanche country The result of this convergence author Diana Di Stefano argues was a complex network of formal and informal cooperation that used disaster preparedness to engage legal action and instill a sense of regional identity among the

many lives affected by these natural disasters Encounters in Avalanche Country tells the story of mountain communities responses to disaster over a century of social change and rapid industrialization As mining and railway companies triggered new kinds of disasters ideas about environmental risk and responsibility were increasingly negotiated by mountain laborers at the elite levels among corporations and in socially charged civil suits Disasters became a dangerous crossroads where social spaces and ecological realities collided illustrating how individuals groups communities and corporate entities were all tangled in this web of connections between people and their environment Written in a lively and engaging narrative style Encounters in Avalanche Country uncovers authentic stories of survival struggles frightening avalanches and how local knowledge challenged legal traditions that defined avalanches as acts of god Combining disaster mining railroad and ski histories with the theme of severe winter weather it provides a new and fascinating perspective on the settlement of the Mountain West
