The Fantastic and European Gothic Matthew Gibson, 2013-02-15 This book examines the rise of Fantastic literature on the continent in the nineteenth century the development of a European Gothic and the influence which this exerted on British writers By examining writers like Nodier Hoffmann Gautier F val and Stevenson the book argues firstly how their writings subvert entirely the view of the Fantastic accepted by Todorov Punter and others to show that it is the reversal of a pre Enlightenment spiritual world view which causes terror in these works and further demonstrates that Gothic novels frequently use allusion and anachronism to portray a cyclical view of history opposed to that of Scott , *Wisconsin Library Bulletin* ,1935
