Hypermasculinities in the Contemporary Novel Josef Benson, 2014-07-16 Issues of race gender women's rights masculinity and sexuality continue to be debated on the national scene These subjects have also been in the forefront of American literature particularly in the last fifty years One significant trend in contemporary fiction has been the failure of the heroic masculine protagonist In *Hypermasculinities in the Contemporary Novel* Cormac McCarthy Toni Morrison and James Baldwin Josef Benson examines key literary works of the twentieth century notably *Blood Meridian* 1985 *All the Pretty Horses* 1992 *Song of Solomon* 1977 and *Another Country* 1960 Benson argues that exaggerated masculinities originated on the American frontier and have transformed into a definition of ideal masculinity embraced by many southern rural American men Defined by violence racism sexism and homophobia these men concocted or perpetuated myths about African Americans to justify their mistreatment and mass murder of black men after Reconstruction As Benson illustrates the protagonists in these texts fail to perpetuate hypermasculinities and as a result a sense of ironic heroism emerges from the narratives Offering a unique and bold argument that connects the masculinities of cowboys and frontier figures with black males *Hypermasculinities in the Contemporary Novel* suggests alternative possibilities for American men

going forward Scholars and students of American literature and culture African American literature and culture and queer and gender theory will find this book illuminating and persuasive
