Travel Guide is the essential handbook for all longboarders who yearn to find perfect waves Surf Fever John Severson, 2004 An in depth collection of the work of one of surfing's primary photographers recording a foundational stage in the evolution of the sport of surfing **Scratching the Horizon** Izzy Paskowitz, Daniel Paisner, 2012-08-21 Scratching the Horizon presents a bitchin love letter to sand and sea and a spirited inside account of life with the first family of American surfing In 1956 Dorian Doc Paskowitz stepped away from a successful medical practice and began a lifelong surfing odyssey that grew to include his wife Juliette and their nine children Together the Paskowitz clan lived a vagabonding bohemian existence eschewing material possessions in favor of intangible riches like health and good cheer all the while careening along the world's coastlines in search of the perfect wave In Scratching the Horizon Izzy Paskowitz looks back at his unusual upbringing and his lifelong passion for the sport that carries his family's stamp As the fourth oldest child in a family of inveterate surfers rock stars and beach bums he is uniquely qualified to shine a light on a childhood that has come to symbolize the surfing credo a reckless young adulthood that nearly cost him his sanity and a maturing sense of self and purpose that allows him to lift others on the back of his experience As the father of a son with autism and the founder of Surfers Healing a foundation devoted to expanding the horizons of children with autism through surfing Paskowitz has found a way to connect the surreal aspects of his childhood to the harsh realities of adulthood and he shares these discoveries in this wickedly entertaining and transforming memoir *The Glide* Chris Bystrom, 1998 Planet Surf Ryan Smith, 2009-10 For the dawn patrol surfing is more than a sport it's a way of life maybe even a religion Surfing is pure adrenaline offering extreme thrills and extreme danger not to mention extreme fashion to its disciples around the globe Planet Surf is a bible of all things surf from its history and culture to the world's top surfing spots Whether you're a Big Kahuna or a Grommet this comprehensive book has everything you'll need to have a gnarly time Aloha Hit the Pipeline Sunset Beach and Waimea for some world class surf Hawaii is synonymous with surfing the sport of ancient kings Learn all about surfing's origins in Polynesian culture and its spread around the globe Discover top surf destinations around the world from the South Pacific to South Africa and everywhere in between Even England is now a major surf spot Wipeout Check out the world's most exciting surf spots and the biggest waves ever recorded Ride the giants at Mavericks in California Jaws in Hawaii Teahupoo in Tahiti and Pico Alto in Peru without wiping out Hit the deck Whether your ride an egg fish pin tail mini mal or longboard get a grip on essential surfing gear and learn how to choose the best board for your abilities Features heart stopping images of amazing big wave action killer wipeouts dream rides and more Cool graphics maps and illustrations provide impressive visuals to the exciting text *Surf Better* Dave Rearwin, 2011-11-18 From the author of *Adventures of a Journeyman Surfer* Latest edition v 2.0 revised expanded and improved Longboard Shortboard with new images and detailed explanations Includes detailed Shortboard section with multiple images and analysis of common moves including off the lip and aials plus common errors to avoid New information additional graphics more detailed explanations New layout for easier reading and Kindle viewing

For an all shortboard experience try the DVD Surf Better Shortboard in both Regular and Goofy foot editions Surf Better is a must have book for surfers ocean goers and anyone looking for a simple effective way to get in shape and stay there A complete surfing program including fitness tactics and techniques wave knowledge and more Fully illustrated Instructional surfing photos Surfing technique and check list Dry Land Surf School with workouts and agility drills Understanding waves and swell direction Surfing a new break How to read waves rips and boils Using tides and currents PART I SURFING TECHNIQUE Preparation and Takeoff Getting pitched pearling waves tactics Takeoff tips Dealing with Backwash Turns Shortboard Action Turns Off the lip foam Air Turning Arm Shoulder and Upper body Action Outside arm snap Form Follows Function Turning off of the Foam Turn or Snap off the Lip Off the lip Snapback step by step details Off the Lip and Air Getting Air Common Errors Foot Position Frontside vs Backside Cross stepping and Nose riding Technical Practice Checklist Leash Management and the Houdini Moment PART II KNOW YOUR OCEAN Sea swell and waves Wave formation and propagation How waves travel How fast do waves move What defines deep water and shallow water Ocean facts PART III KNOW YOUR BREAK Swell direction and the magic number Tides Wave refraction and Island wave shadows The effects of wind How waves behave in shallow water Interpreting swell information Understanding size vs power Using reef boils Using currents PART IV DRY LAND SURF SCHOOL Full flexibility agility and surf simulation section with dozens of exercises and workout packages then he floated an Off the lip center my ass by bringing my board back under me recovery pretty awesome move and proof that his book is working NOTE on the images Some readers have expressed dissatisfaction that the images in the book are black and white not full color Using color images in the print edition would have required a price of 40 or 50 per book just to break even Clearly this was not an option The images in the Kindle edition are all the original full color There have also been some comments about the quality of the images One problem is that printing on glossy or semi gloss paper which would have preserved the image quality would also raise the cost to a prohibitive level Again the images in the Kindle edition look better than those in the print edition because there is no issue of paper quality The other problem is that the best image in terms of quality is not always the best image to illustrate the point at hand Taking good surf pictures is really pretty easy shoot at 7 to 12fps and you re guaranteed to capture some great moments but getting a good clear image to illustrate a particular point with the surfer s foot or arm or body in exactly the position you want to discuss is amazingly hard For the purposes of this book sometimes demonstrating the point had to take precedence over maximum quality
