Longing For Myth In Germany Religion And Aesthetic Culture From Romanticism To Nietzsche:

The Longing for Myth in Germany George S. Williamson, 2004-07 Since the dawn of Romanticism artists and intellectuals in Germany have maintained an abiding interest in the gods and myths of antiquity while calling for a new mythology suitable to the modern age In this study George S Williamson examines the factors that gave rise to this distinct and profound longing for myth In doing so he demonstrates the entanglement of aesthetic and philosophical ambitions in Germany with some of the major religious conflicts of the nineteenth century Through readings of key intellectuals ranging from Herder and Schelling to Wagner and Nietzsche Williamson highlights three crucial factors in the emergence of the German engagement with myth the tradition of Philhellenist neohumanism a critique of contemporary aesthetic and public life as dominated by private interests and a rejection of the Bible by many Protestant scholars as the product of a foreign Oriental culture According to Williamson the discourse on myth in Germany remained bound up with problems of Protestant theology and confessional conflict through the nineteenth century and beyond A compelling adventure in intellectual history this study uncovers the foundations of Germany's fascination with myth and its enduring cultural legacy

The Aesthetics of Mythmaking in German Postwar Culture André Fischer, 2024-03-15 Myths are a central part of our reality But merely debunking them lets us forget why they are created in the first place and why we need them Andr Fischer draws on key examples from German postwar culture from novelists Hans Henny Jahn and Hubert Fichte to sculptor and performance artist Joseph Beuys and filmmaker Werner Herzog to show that mythmaking is an indispensable human practice in times of crisis Against the background of mythologies based in nineteenth century romanticism and their ideological continuation in Nazism fresh forms of mythmaking in the narrative visual and performative arts emerged as an aesthetic paradigm in postwar modernism Boldly rewriting the cultural history of an era and setting in transition *The Aesthetics of Mythmaking in German Postwar Culture* counters the predominant narrative of an

exclusively rational Vergangenheitsbewältigung coming to terms with the past Far from being merely reactionary the turn toward myth offered a dimension of existential orientation that had been neglected by other influential aesthetic paradigms of the postwar period Fischer's wide ranging transmedia account offers an inclusive perspective on myth beyond storytelling and instead develops mythopoesis as a formal strategy of modernism at large **Sacrifice Imagined** Douglas

Hedley,2011-09-08 Sacrifice Imagined is an original exploration of the idea of sacrifice by one of the world's preeminent philosophers of religion Despisers of religion have poured scorn upon the idea of sacrifice as an index of the irrational and wicked in religious practice Nor does its secularised form seem much more appealing One need only think of the appalling cult of sacrifice in numerous totalitarian regimes of the twentieth century Yet sacrifice remains a part of our cultural and intellectual imaginary Hedley proposes good reasons to think that issues of global conflict and the ecological crisis highlight the continuing relevance of the topic of sacrifice for contemporary culture The subject of sacrifice has been decisively influenced by two books Girard's The Violence and the Sacred and Burkert's Homo Necans Both of these are theories of sacrifice as violence Hedley's book challenges both of these highly influential theories and presents a theory of sacrifice as renunciation of the will His guiding influences in this are the much misunderstood Joseph de Maistre and the Cambridge Platonists The Songs of Johanna Kinkel Anja Bunzel,2020 Drawing on a wealth of unpublished sources surrounding

Kinkel this book explores the extent to which Kinkel's Lieder reflect and transcend compositional aesthetic cultural and socio political facets typically associated with the first half of the nineteenth century A Single Communal Faith? Thomas Rohkrämer,2007-10-01 How could the Right transform itself from a politics of the nobility to a fatally attractive option for people from all parts of society How could the Nazis gain a good third of the votes in free elections and remain popular far into their rule A number of studies from the 1960s have dealt with the issue in particular the works by George Mosse and Fritz Stern Their central arguments are still challenging but a large number of more specific studies allow today for a much more complex argument which also takes account of changes in our understanding of German history in general This book shows that between 1800 and 1945 the fundamentalist desire for a single communal faith played a crucial role in the radicalization of Germany's political Right A nationalist faith could gain wider appeal because people were searching for a sense of identity and belonging a mental map for the modern world and metaphysical security **The World of Mr**

Casaubon Colin Kidd,2016-10-31 This book explores the intellectual contexts for Mr Casaubon a central character in George Eliot's classic and much loved novel Middlemarch **Hermann Cohen and the Crisis of Liberalism** Paul E.

Nahme,2019-03-28 A fresh look at a nineteenth century Jewish philosopher whose theology offers a beacon in an illiberal twenty first century world Recommended Choice Hermann Cohen is often held to be one of the most important Jewish philosophers of the nineteenth century Paul E Nahme in this new consideration of Cohen liberalism and religion emphasizes the idea of enchantment or the faith in and commitment to ideas reason and critique the animating spirits that move society

forward Nahme views Cohen through the lenses of the crises of Imperial Germany the rise of antisemitism nationalism and secularization to come to a greater understanding of liberalism its Protestant and Jewish roots and the spirits of modernity and tradition that form its foundation Nahme s philosophical and historical retelling of the story of Cohen and his spiritual investment in liberal theology present a strong argument for religious pluralism and public reason in a world rife with populism identity politics and conspiracy theories Brill's Companion to German Romantic Philosophy Elizabeth Millán Brusslan, Judith Norman, 2018-11-12 Early German Romanticism has long been acknowledged as a major literary movement but only recently have scholars appreciated its philosophical significance as well This collection of original essays showcases not only the philosophical achievements of early German Romantic writers such as Friedrich Schlegel and Novalis but also the sophistication contemporary relevance and wide ranging influence of their philosophical contributions This volume will be of interest both to students looking for an introduction to romanticism as well as to scholars seeking to discover new facets of the movement a romantic perspective on topics ranging from mathematics to mythology from nature to literature and language This volume bears testimony to the enduring and persistent modernity of early German Romantic philosophy

The Indo-German Identification Robert Cowan, 2010 The nineteenth century development and later consequences of the imagined relationship between ancient India and modern German culture In the early nineteenth century German intellectuals such as Novalis Schelling and Friedrich Schlegel convinced that Germany s cultural origins lay in ancient India attempted to reconcile these origins with their imagined destiny as saviors of a degenerate Europe then shifted from Indomania to Indophobia when the attempt foundered The philosophers Hegel Schopenhauer and later Nietzsche provided alternate views of the role of India in world history that would be disastrously misappropriated in the twentieth century Reconstructing Hellenistic and humanist views of the ancient Brahmins and Goths French Enlightenment debates over the postdiluvian origins of the arts and sciences and the Indophilia and proto nationalism of Herder Robert Cowan focuses on turning points in the development of an Indo German ideal an ideal less focused on intellectual imperialism than many studies of the Aryan Myth and Orientalism would have us believe Cowan argues that the study of this ideal continues to offer lessons about cultural difference in the post national twenty first century Of great interest to historians philosophers and literary scholars this cross cultural study offers a new understanding of the Indo German story by showing that attempts to establish identity necessarily involve a reconciliation of origins and destinies of self and other of individual and collective Robert Cowan is Assistant Professor of English at Kingsborough Community College of the City University of New York
