**Colonial Self-Fashioning in British India, c. 1785-1845** Prasannajit de Silva,2018-07-26 A stereotypical view of the nineteenth century British in India which might be characterised as one of deliberate isolation and segregation from their surroundings has recently been complemented by one evoking a high degree of integration and closer co existence in the eighteenth century Focusing on a period which straddles this apparent shift this book explores a variety of ways in which British residents in India represented their lives through visual material and reveals a more nuanced position Consideration of these images which have often been overlooked in the scholarly literature opens up questions of identity facing the British population in India at this time and facing colonial societies more generally and issues about the role of visual culture in negotiating them It also underlines the fragile and contested nature of identity the colonists self fashioning encompassed not only expressions of difference from their Indian setting but also what distinguished them from their compatriots back in Britain as well as engaging with metropolitan attitudes towards and prejudices about them

**Guru English** Srinivas Aravamudan,2011-06-27 Guru English is a bold reconceptualization of the scope and meaning of cosmopolitanism examining the language of South Asian religiosity as it has flourished both inside and outside of its original context for the past two hundred years The book surveys a specific set of religious vocabularies from South Asia that

Aravamudan argues launches a different kind of cosmopolitanism into global use Using Guru English as a tagline for the globalizing idiom that has grown up around these religions Aravamudan traces the diffusion and transformation of South Asian religious discourses as they shuttled between East and West through English language use The book demonstrates that cosmopolitanism is not just a secular Western discourse that results from a disenchantment with religion but something that can also be refashioned from South Asian religion when these materials are put into dialogue with contemporary social movements and literary texts Aravamudan looks at religious forms of neoclassicism nationalism Romanticism postmodernism and nuclear millenarianism bringing together figures such as Swami Vivekananda Sri Aurobindo Mahatma Gandhi and Deepak Chopra with Rudyard Kipling James Joyce Robert Oppenheimer and Salman Rushdie Guru English analyzes writers and gurus literary texts and religious movements and the political uses of religion alongside the literary expressions of religious teachers showing the cosmopolitan interconnections between the Indian subcontinent the British Empire and the American New Age

Nationalism and Globalisation Stephen Tierney, 2015-10-08 This book addresses a seemingly paradoxical situation On the one hand nationalism from Scotland to the Ukraine remains a resilient political dynamic fostering secessionist movements below the level of the state On the other the competence and capacity of states and indeed the coherence of nationalism as an ideology are increasingly challenged by patterns of globalisation in commerce cultural communication and constitutional authority beyond the state It is the aim of this book to shed light on the relationship between these two processes addressing why the political currency of nationalism remains strong even when the salience of its objective independent and autonomous statehood becomes ever more attenuated The book takes an interdisciplinary approach both within law and beyond with contributions from international law constitutional law constitutional theory history political science and sociology The challenge for our time is considerable Global networks grow ever more sophisticated while territorial borders such as those in Eastern and Central Europe become seemingly more unstable It is hoped that this book by bringing together areas of scholarship which have not communicated with one another as much as they might will help develop an ongoing dialogue across disciplines with which better to understand these challenging and potentially destabilising developments

Ideologies of the Raj Thomas R. Metcalf, 1997-02-27 Ideologies of the Raj examines how the British sought to justify their rule over India The author argues that two divergent strategies were devised to legitimate their authority the one defined characteristics which the Indians shared with the British themselves while the other emphasised qualities of enduring difference In the end however the differences predominated in the colonial view of India Since the British constructed few explicit ideologies of empire the author explores the workings of the Raj through the study of its underlying assumptions as revealed in policies and writings Students of modern India and the British Empire will find Thomas Metcalf's book relevant and accessible

Baptists, Bengalis, and the Construction of Agricultural and Horticultural Science in India, 1793-1840 Laura Tavolacci, 2025-09-26 The Agricultural and Horticultural Society of India was founded in 1820 by an English Baptist missionary William Carey. He was part of a network of missionaries centred at Srirampur Serampore, the Danish settlement close to Calcutta. This book explores the ways that missionaries included plants in their projects of proselytization to better understand the origins of this scientific society. It includes an investigation of the farms and gardens at each mission station; the missionaries work with indigo plantations and different scientific projects leading up to the creation of the agricultural society. Amidst all of this, plants became an important target and sign of moral improvement, marking a sort of moral frontier which reiterated racial hierarchies. Nevertheless, various entanglements with Bengali converts, gardeners, malis, and the elite bhadralok class also impacted the missionary vision. In the initial years of the scientific organisation, missionaries and their interlocutors upheld a romantic and hierarchical vision of agrarian society that mixed gardening with large-scale agriculture, but an economic depression in 1833 followed, shortly by William Carey's death in 1834, ending this composite vision. The Society began to focus instead on the production of more remunerative agricultural cash crops like sugar and cotton over horticultural crops like vegetables and fruit trees.

*In the Shadow of the Mahatma* Susan Billington Harper, 2019-06-04 This is a biography of Vedanayagam Samuel Azariah (1874-1945), bishop of the Anglican Church in India from 1912 until his death in 1945. His life sheds new light on the challenges and opportunities faced by religious minorities throughout the world today. As a Christian leader in a non-Christian culture, he negotiated complex cultural, social, political, and economic pressures with exceptional skill and diplomacy. As the first Indian bishop of an Anglican diocese and as modern India's most successful leader of depressed class and non-Brahmin conversion movements to Christianity, Azariah was equally at home with the untouchables of rural India and the unreachable of the British Empire. From this platform, Azariah inevitably came into contact and, ironically, also into conflict with the dominating presence of Mahatma Gandhi. Susan Billington Harper here reconstructs major events and issues of Azariah's public life, including a previously unstudied controversy with Gandhi over the issue of conversion and religious freedom in the 1930s. Based on hitherto untapped primary sources, including diocesan records and vernacular oral histories expressed in both stories and songs, this fascinating volume not only provides the first critical study of Bishop Azariah's life but also offers important, at times challenging, insights for those interested in modern India and the place of Christianity within it.

**The Rule of Law and Emergency in Colonial India** Haruki Inagaki, 2021-10-09 This book takes a closer look at colonial despotism in early nineteenth-century India and argues that it resulted from Indians forum shopping the legal practice, which resulted in jurisdictional jockeying between an executive, the East India Company, and a judiciary, the King's Court. Focusing on the collisions that took place in Bombay during the 1820s, the book analyses how Indians of various

descriptions peasants revenue defaulters government employees merchants chiefs and princes used the court to challenge the government and vice versa and demonstrates the mechanism through which the lawcourt hindered the government's indirect rule which relied on local Indian rulers in newly conquered territories The author concludes that existing political anxiety justified the East India Company's attempt to curtail the power of the court and strengthen their own power to intervene in emergencies through the renewal of the company's charter in 1834 An insightful read for those researching Indian history and judicial politics this book engages with an understudied period of British rule in India where the royal courts emerged as sites of conflict between the East India Company and a variety of Indian powers
