attitudes toward Satan proves to be intimately linked to the ideological struggle for emancipation that transformed the West and is epitomized by the American and French Revolutions. It is also closely connected to secularization that other exceptional historical process which saw Western culture spontaneously renounce its traditional gods and enter into a self-imposed state of religious indecision. *Children of Lucifer* makes the case that the emergence of Satanism presents a shadow history of the evolution of modern civilization as we know it. Offering the most comprehensive account of this history yet written, van Luijk proves that in the case of Satanism the facts are much more interesting than the fiction. *The Arts of Deception* James W. Cook, 2001. In *The Arts of Deception* James Cook explores the distinctly modern mode of trickery designed to puzzle the eye and challenge the brain. Upsetting the normally strict boundaries of value, race, class, and truth, the spectacles offer a revealing look at the tastes, concerns, and prejudices of America's very first mass audiences. **God and the Gothic** Alison Milbank, 2018. Alison Milbank provides a complete reimagining of the Gothic literary canon to examine its engagement with theological ideas, tracing its origins to the apocalyptic critique of the Reformation, female martyrs, and to the Dissolution of the monasteries, now seen as usurping authorities. Paradise Preserved Max F. Schulz, 1985. Examines the ways in which the idea of an earthly paradise inspired English life and thought in the eighteenth and nineteenth centuries.
