The Grounding of Modern Feminism Nancy F. Cott, 1987-01-01 The time has come to define feminism it is no longer possible to ignore it The Century Magazine 1914 In this landmark addition to scholarship Nancy F Cott author of *The Bonds of Womanhood* offers a new interpretation of American feminism during the early decades of this century a period traditionally viewed as one in which women won the right to vote and then lost interest in feminist issues Cott argues instead that this period was a time of crisis and transition from the nineteenth century woman movement to the beginning of modern feminism Many of the issues that are central to women today says Cott were firmly articulated in the early decades of this century For example the problem of defining sexual equality so as to recognize sexual difference between men and women the ambiguous potential of a movement seeking individual freedoms for women by mobilizing sex solidarity and the tensions involved in attaining full expression in work and love are all enduring elements of feminism seized upon by women of the 1910s and 1920s First discussing how feminism was indebted to its predecessors Cott shows that increasing heterogeneity and diverse loyalties among women in the early twentieth century contradicted the premise of the nineteenth century cause of woman the singular noun symbolizing the unity of the female sex From this crisis emerged feminism championing individual variability and refuting the premise that a singular woman existed Cott focuses on the suffrage campaign milieu in which feminism arose giving particular attention to the character and role of the National Woman's Party from its militant suffrage days to its advocacy of the equal right amendment in the 1920s Against prevailing interpretations of the decline of women's political activities after 1920 Cott counterposes the swelling numbers in women's voluntary associations and their political efforts She also analyzes the pitfalls that awaited women who tried for effectiveness in the male dominated political parties She sets the controversy over the equal rights amendment in new context discussing the full dimensions of the conflict as not merely over personalities tactics or class loyalties but as a signal example of the modern problem of capturing sexual equality and sexual difference in law The book explores the irony strewn path of women who as aspiring professionals and political actors attempted to put into practice the feminist intent to replace the abstraction woman with instead the human sex This history the story of women who first claimed the name feminists builds an essential bridge between the presuffrage period and today

Learning from the Left Julia L. Mickenberg, 2005-11-10 At the height of the Cold War dozens of radical and progressive writers illustrators editors librarians booksellers and teachers cooperated to create and disseminate children's books that challenged the status quo *Learning from the Left* provides the first historic overview of their work Spanning from the 1920s when both children's book publishing and American Communism were becoming significant on the American scene to the late 1960s when youth who had been raised on many of the books in this study

unequivocally rejected the values of the Cold War Learning from the Left shows how radical values and ideas that have now become mainstream including cooperation interracial friendship critical thinking the dignity of labor feminism and the history of marginalized people were communicated to children in repressive times A range of popular and critically acclaimed children's books many by former teachers and others who had been blacklisted because of their political beliefs made commonplace the ideas that McCarthyism tended to call subversive These books about history science and contemporary social conditions as well as imaginative works science fiction and popular girls mystery series were readily available to children most could be found in public and school libraries and some could even be purchased in classrooms through book clubs that catered to educational audiences Drawing upon extensive interviews archival research and hundreds of children's books published from the 1920s through the 1970s Learning from the Left offers a history of the children's book in light of the history of the history of the Left and a new perspective on the links between the Old Left of the 1930s and the New Left of the 1960s Winner of the Grace Abbott Book Prize of the Society for the History of Children and Youth

Women who Taught Alison L. Prentice, Marjorie R. Theobald, 1991-01-01 In an era when women are moving into so many areas of the labour force we all remember some of the first working women we ever encountered women teachers as they were too often known The impact of women on education has been enormous throughout the English speaking world It has also been ignored for the most part by mainstream historians of education Alison Prentice and Marjorie R Theobald have addressed this omission by bringing together a wide range of essays by feminist historians on the role of women in education at all levels in Canada Australia Britain and the United States All the essays were ground breaking when first published Among the subjects they explore are the experience of women in private or domestic schooling and the rigours of teaching as single women in remote areas Other essays discuss the impact on women's working schools in the nineteenth century the growth of professional teachers organizations and the blurring of public and private in the lives of twentieth century teachers The editors provide an introduction that traces the growth of the emerging field of the history of women in teaching and identifies new directions currently developing A bibliography offers further resources

Founding Mothers and Others A. Sadovnik, S. Semel, 2016-04-30 Interest in progressive education and feminist pedagogy has gained a significant following in current educational reform circles Founding Mothers and Others examines the female founders of progressive schools and other female educational leaders in the early twentieth century and their schools or educational movements All of the women led remarkable lives and their legacies are embedded in education today The book examines the lessons to be learned from their work and their lives The book also analyzes whether their leadership styles support contemporary feminist theories of leadership that argue women administrators tend to be more inclusive democratic and caring than male administrators Through an examination of

these women this book looks critically at the ways in which the leaders administrative styles and behaviors lend support to feminist claims Alternative Schools in British Columbia 1960-1975 Harley Rothstein,2024-08-09 The tumultuous 1960s was an era of the counterculture political activism and resistance to authority Conventions and values were challenged and new approaches to education captured the imaginations of parents teachers and students Reacting against the one size fits all nature of the traditional public school system groups of parents and teachers in Canada and the United States established alternative schools or free schools based on the Progressive child centred philosophy of John Dewey and the Romantic ideas of Summerhill founder A S Neill In Alternative Schools in British Columbia 1960 1975 Harley Rothstein tells the story of ten such schools that arose in the province of British Columbia Drawing on 350 self conducted interviews newspaper articles personal journals and school records Dr Rothstein invites readers to experience the early days of alternative schools He describes the educational philosophy curriculum and governance of these institutions and introduces readers to the people who were at the heart of alternative communities Tracing the evolution successes and challenges of each school he presents the day to day experience and brings to life the ethos of the 1960s era Historians educators and all curious readers will become immersed in this engaging account of a group of educational pioneers on Canada s west coast and how they inspired the liberalization of the public school system that would come in the 1970s **Learning from Children** Mary E.

Hauser,2006 This is the first published biography of Caroline Pratt an innovative progressive educator who founded the City and Country School in Greenwich Village New York in 1914 It provides a feminist analysis of Pratt s life and work that adds a new dimension to our appreciation of her contributions to progressive education Learning from Children also shows how an analysis of Pratt s work can inform our understanding of current critical issues in educational policy and practice Caroline Pratt s story will enliven courses on history of education foundations of early childhood education and women s history topics

The Handbook of Dewey's Educational Theory and Practice Charles L. Lowery,Patrick M. Jenlink,2019-08-05 In the last twenty five years there has been a great deal of scholarship about John Dewey s work as well as continued appraisal of his relevance for our time especially in his contributions to pragmatism and progressivism in teaching learning and school learning The Handbook of Dewey s Educational Theory and Practice provides a comprehensive accessible richly theoretical yet practical guide to the educational theories ideals and pragmatic implications of the work of John Dewey America s preeminent philosopher of education Edited by a multidisciplinary team with a wide range of perspectives and experience this volume will serve as a state of the art reference to the hugely consequential implications of Dewey s work for education and schooling in the 21st century Organized around a series of concentric circles ranging from the purposes of education to appropriate policies principles of schooling at the organizational and administrative level and pedagogical practice in Deweyan classrooms the chapters will connect Dewey s theoretical ideas to their pragmatic implications Problem-posing with Multicultural Children's Literature Elizabeth P. Quintero,2004 Problem posing with Multicultural Children s Literature

documents an ongoing qualitative study of early childhood teachers using a problem posing method with multicultural children's literature. Grounded in critical theory, the text has been written for use in upper division undergraduate and graduate level classes that study infants, toddlers, preschoolers, kindergartners, and students in grades one and two. The book uses examples from both early childhood and elementary teacher education students and practicing teachers work as they study critical literacy, multicultural children's literature, and integrated early childhood curriculum. This structure provides insights into guided research in child development, cultural and linguistic contexts, learning theory, strategies for teaching young children, family advocacy, and all related aspects of early childhood teacher education as the learners move through the activities.

Spatial Citizenship Education Euikyung E. Shin, Sarah Witham Bednarz, 2018-09-21

Spatial Citizenship Education is an innovative exploration of ways to engage and promote citizenship through a deeper understanding of spatial and geographic perspectives. The authors propose that recognizing the relationship between space and citizenry enables productive and positive engagement with important societal issues such as equity, justice, and environmental stewardship. By providing a historical overview of geography's contribution to citizenship education, including progress made and challenges faced by educational reform movements, this collection shows how geography can contribute to a new type of citizen: one with an enhanced understanding of the world as seen through the key concepts of geography: space, place, scale, power, and human-environment relationships. Through a theoretical explanation of key citizenship ideas and by providing practical, classroom-based teaching tools, this volume will be essential for geography education researchers and social studies educators alike.

Stealing from the Mother Jerry Aldridge, Lois McFadyen Christensen, 2013-08-11 This book is the only available compilation of women in education and psychology whose work has been marginalized, forgotten, or attributed to their male colleagues. This resource includes women from the progressive era (1900-1950), the psychological period (1950-2000), and the political period (2000-2010). Caucasian and African American scholars from the Northeast, Southern, and Midwestern states are highlighted. Some of the chapters are shorter than others due to the limited literature concerning some of the women. In addition, chapters describing the elimination of gender inequity in early childhood education, the marginalization of women in education under No Child Left Behind, as well as discrimination of women in higher education are included. The book concludes with the need to rethink teacher education to include the exceptional contributions of the women who are showcased in this book. Finally, this source is an attempt to eliminate gender inequity in teacher education and educational psychology by restoring the contributions of feminine scholars.

Pragmatism and Feminism Charlene Haddock Seigfried, 1996-06-15 Though many pioneering feminists were deeply influenced by American pragmatism, their contemporary followers have generally ignored that tradition because of its marginalization by a philosophical mainstream intent on neutral analyses devoid of subjectivity. In this revealing work, Charlene Haddock Seigfried effectively reunites two major social and philosophical movements, arguing that pragmatism, because of its focus on the emancipatory potential of everyday

experiences offers feminism its most viable and powerful philosophical foundation With careful attention to their interwoven histories and contemporary concerns Pragmatism and Feminism effectively invigorates both traditions opening them to new interpretations and appropriations and asserting their timely philosophical relevance This foundational work in feminist theory simultaneously invites and guides future scholarship in an area of rapidly emerging significance *Creating a Female Dominion in American Reform, 1890-1935* Robyn Muncy, 1994-04-28 In this book Muncy explains the continuity of white middle class American female reform activity between the Progressive era and the New Deal She argues that during the Progressive era female reformers built an interlocking set of organizations that attempted to control child welfare policy Within this policymaking body female progressives professionalized their values bureaucratized their methods and institutionalized their reforming networks To refer to the organizational structure embodying these processes the book develops the original concept of a female dominion in the otherwise male empire of policymaking At the head of this dominion stood the Children's Bureau in the federal Department of Labor Muncy investigates the development of the dominion and its particular characteristics such as its monopoly over child welfare and its commitment to public welfare and shows how it was dependent on a peculiarly female professionalism By exploring that process this book illuminates the relationship between professionalization and reform the origins and meaning of Progressive reform and the role of gender in creating the American welfare state

Working with Class Daniel J. Walkowitz, 1999 Polls tell us that most Americans_ whether they earn 20 000 or 200 000 a year_ think of themselves as middle class As this phenomenon suggests middle class is a category whose definition is not necessarily self evident In this book historian Daniel

Women Educators in the Progressive Era A. Durst, 2010-07-19 In 1896 John Dewey established the Laboratory School at the University of Chicago an experimental school designed to test his ideas in the reality of classroom practice Through a collective portrait of four of the school's teachers *Women Educators in the Progressive Era* examines the struggles and satisfactions of teaching at this innovative school and situates the school community in the context of Progressive Era experimental impulses in Chicago and the nation This book reassesses the implications of Dewey's ideas for current efforts to improve schools as it explores how the Laboratory School teachers participated in inquiry designed to advance educational thought and practice

Social Science in the Crucible Mark C. Smith, 1994 The 1920s and 30s were key decades for the history of American social science The success of such quantitative disciplines as economics and psychology during World War I forced social scientists to reexamine their methods and practices and to consider recasting their field as a more objective science separated from its historical foundation in social reform The debate that ensued fiercely conducted in books articles correspondence and even presidential addresses made its way into every aspect of social science thought of the period and is the subject of this book Mark C Smith first provides a historical overview of the controversy over the nature and future of the social sciences in early twentieth century America and then through a series of intellectual biographies offers an

intensive study of the work and lives of major figures who participated in this debate Using an extensive range of materials from published sources to manuscript collections Smith examines objectivists economist Wesley Mitchell and political scientist Charles Merriam and the more purposive thinkers historian Charles Beard sociologist Robert Lynd and political scientist and neo Freudian Harold Lasswell He shows how the debate over objectivity and social purpose was central to their professional and personal lives as well as to an understanding of American social science between the two world wars These biographies bring to vivid life a contentious moment in American intellectual history and reveal its significance in the shaping of social science in this country *Women and the Politics of Class* Johanna Brenner, 2000-09 Drawing on explorations of the labour movement and working class politics Brenner provides a materialist approach to one of the most important issues of feminist theory today ethnicity the intersection of race nationality gender sexuality and class **Children Today** ,1987

Telling Women's Lives Judy Long, 1999-05 For centuries the great man format and masculine discourse of biography and autobiography have eclipsed women If we accept this history we remain ignorant of Lady Sarashina a Japanese woman of the Han period whose book survives from the 11th century We overlook Margaret Cavendish and Dame Julian two early English autobiographers And we fail to consider sufficiently slave narratives oral histories or lesbian coming out stories *Telling Women's Lives* assesses existing traditions of autobiography and biography in search of a method capable of conveying the distinctive content of women's lives while retaining the tenor of feminine subjectivity Drawing on feminist research methodologies of the past two decades as well as anthropology and sociology Long paves the way for the formulation of an emergent feminist methodology for telling women's lives This highly original study seeks to revise and recreate the genre so as to accommodate a feminine discourse narrator reader and subject The messiness of women's lives the daily work and detail that men have programmatically excluded acquires new meaning as Long develops here an innovative theory of sociobiography
