Mission For Peace Point 4 In Iran:

Mission for Peace William E. Warne, 1956 Twelve year old Esther Atoolik tells of the last winter her people spent on King Island Alaska in the early 1960 s Petroleum and Progress in Iran Gregory Brew, 2022-12-22 Explores how oil companies Western development NGOs the US government and Iranian technocrats turned Iran into the first petro state

The Great American Mission David Ekbladh, 2011-08-08 The Great American Mission traces how America s global modernization efforts during the twentieth century were a means to remake the world in its own image David Ekbladh shows that the emerging concept of modernization combined existing development ideas from the Depression He describes how ambitious New Deal programs like the Tennessee Valley Authority became symbols of American liberalism s ability to marshal the social sciences state planning civil society and technology to produce extensive social and economic change For proponents it became a valuable weapon to check the influence of menacing ideologies such as Fascism and Communism Modernization took on profound geopolitical importance as the United States grappled with these threats After World War II modernization remained a means to contain the growing influence of the Soviet Union Ekbladh demonstrates how U S led nation building efforts in global hot spots enlisting an array of nongovernmental groups and international organizations were a basic part of American strategy in the Cold War However a close connection to the Vietnam War and the upheavals of the 1960s would discredit modernization The end of the Cold War further obscured modernization s mission but many of its assumptions regained prominence after September 11 as the United States moved to contain new threats Using new sources and perspectives The Great American Mission offers new and challenging interpretations of America s ideological motivations and humanitarian responsibilities abroad **Mission Manifest** Matthew K. Shannon, 2024-06-15 In Mission Manifest Matthew Shannon argues that American evangelicals were central to American Iranian relations during the decades leading up to the 1979 revolution These Presbyterian missionaries and other Americans with ideals worked with US government officials nongovernmental organizations and their Iranian counterparts as cultural and political brokers the living sinews of a binational relationship during the Second World War and early Cold War As US global hegemony peaked between the 1940s and the 1960s the religious authority of the Presbyterian Mission merged with the material power of the American state to infuse US foreign relations with the messianic ideals of Christian evangelicalism In Tehran the missions of American evangelicals became manifest in the realms of religion development programs international education and cultural associations Americans who lived in Iran also returned to the United States to inform the growth of the national security state higher education and evangelical culture The literal and figurative missions of American evangelicals in late Pahlavi Iran had consequences for the binational relationship the global evangelical movement and individual Americans and Iranians Mission Manifest offers a history of living breathing people who shared personal professional and political aims in Iran at the height of American global power Losing Hearts and Minds Matthew K. Shannon, 2017-12-15 Matthew K

Shannon provides readers with a reminder of a brief and congenial phase of the relationship between the United States and Iran In *Losing Hearts and Minds* Shannon tells the story of an influx of Iranian students to American college campuses between 1950 and 1979 that globalized U S institutions of higher education and produced alliances between Iranian youths and progressive Americans *Losing Hearts and Minds* is a narrative rife with historical ironies Because of its superpower competition with the USSR the U S government worked with nongovernmental organizations to create the means for Iranians to train and study in the United States The stated goal of this initiative was to establish a cultural foundation for the official relationship and to provide Shah Mohammad Reza Pahlavi with educated elites to administer an ambitious program of socioeconomic development Despite these goals Shannon locates the incubation of at least one possible version of the Iranian Revolution on American college campuses which provided a space for a large and vocal community of dissident Iranian students to organize against the Pahlavi regime and earn the support of empathetic Americans Together they rejected the Shah s authoritarian model of development and called for civil and political rights in Iran giving unwitting support to the rise of the Islamic Republic of Iran

Covert Capital Andrew Friedman,2013-08-03 The capital of the U S Empire after World War II was not a city It was an American suburb In this innovative and timely history Andrew Friedman chronicles how the CIA and other national security institutions created a U S imperial home front in the suburbs of Northern Virginia In this covert capital the suburban landscape provided a cover for the workings of U S imperial power which shaped domestic suburban life The Pentagon and the CIA built two of the largest office buildings in the country there during and after the war that anchored a new imperial culture and social world As the U S expanded its power abroad by developing roads embassies and villages its subjects also arrived in the covert capital as real estate agents homeowners builders and landscapers who constructed spaces and living monuments that both nurtured and critiqued postwar U S foreign policy Tracing the relationships among American agents and the migrants from Vietnam El Salvador Iran and elsewhere who settled in the southwestern suburbs of D C Friedman tells the story of a place that recasts ideas about U S immigration citizenship nationalism global interconnection and ethical responsibility from the post WW2 period to the present Opening a new window onto the intertwined history of the American suburbs and U S foreign policy *Covert Capital* will also give readers a broad interdisciplinary and often surprising understanding of how U S domestic and global histories intersect in many contexts and at many scales *American Crossroads* 37

The Communist Movement in Iran Sepehr Zabih, **My Name Is Iran** Davar Ardalan,2008-01-08 Drawing on her remarkable personal history a National Public Radio producer brings readers the lives of three generations of women and their ordeals with love rejection and revolution in America and Iran **A Modern Contagion** Amir A. Afkhami,2019-02-05 How deadly cholera pandemics transformed modern Iran Pandemic cholera reached Iran for the first of many times in 1821 assisted by Britain s territorial expansion and growing commercial pursuits The revival of Iran s trade arteries after six decades of intermittent civil war fractured rule and isolation allowed the

epidemic to spread inland and assume national proportions In *A Modern Contagion* Amir A Afkhami argues that the disease had a profound influence on the development of modern Iran steering the country's social economic and political currents Drawing on archival documents from Iranian European and American sources Afkhami provides a comprehensive overview of pandemic cholera in Iran from the early nineteenth century to the First World War Linking the intensity of Iran's cholera outbreaks to the country's particular sociobiological vulnerabilities he demonstrates that local national and international forces in Iran helped structure the region's susceptibility to the epidemics He also explains how Iran's cholera outbreaks drove the adoption of new paradigms in medicine helped transform Iranian views of government and caused enduring institutional changes during a critical period in the country's modern development Cholera played an important role in Iran's globalization and diplomacy influencing everything from military engagements and boundary negotiations to Russia and Britain's imperial rivalry in the Middle East Remedying an important deficit in the historiography of medicine public health and the Middle East *A Modern Contagion* increases our understanding of ongoing sociopolitical challenges in Iran and the rest of the Islamic world

The Truman Presidency Michael James Lacey, 1991-06-28 The essays in this volume provide a wide ranging overview of the intentions achievements and failures of the Truman administration

The Global Interior Megan Black, 2018-10-01 Megan Black argues that the U S Department of the Interior known for managing domestic natural resources and operating public parks constantly supports and projects American power abroad In the guise of sharing expertise globally Interior has helped the U S maintain key benefits of empire without the burden of playing the imperialist villain

The Rise and Fall of the Shah Amin Saikal, 2021-07-13 On November 4 1979 when students occupied the American Embassy in Tehran and subsequently demanded that the United States return the Shah in exchange for hostages the deposed Iranian ruler's regime became the focus of worldwide scrutiny and controversy But as Amin Saikal shows this was far from the beginning of Iran's troubles Saikal examines the rule of Mohammad Reza Shah Pahlavi especially from 1953 to 1979 in the context of his regime's dependence on the United States and his dreams of transforming Iran into a world power Saikal argues that despite the Shah's early achievements his goals and policies were full of inherent contradictions and weaknesses and ultimately failed to achieve their objectives Based on government documents published and unpublished literature and interviews with officials in Iran Britain and the United States *The Rise and Fall of the Shah* critically reviews the domestic and foreign policy objectives as well as the behavior of the Shah to explain not only what happened but how and why In a new introduction Saikal reflects on what has happened in Iran since the fall of the Shah and relates Iran's past to its political present and future

Concrete Revolution Christopher Sneddon, 2015-09-25 *Concrete Revolution* offers a compelling historical account of the U S Bureau of Reclamation's contributions to dam technology Cold War politics and the social and environmental adversity perpetuated by the U S government in its pursuit of capitalist economic development Founded in 1902 the Bureau amassed geopolitical power after the Second World War in response to the Soviet Union's

increasing global influence By offering technical and water resource management advice to the world's underdeveloped regions the Bureau found that it could not only provide them with economic assistance and provide the U S with investment opportunities but also gain alliances for the U S and further the country's global standing in the face of a burgeoning communist regime The book includes a number of case studies from the Bureau's foray into overseas development and the launch of its Foreign Activities Office in 1950 to specific projects such as the Litani River initiative in Lebanon the Blue Nile investigation in Ethiopia and the Mekong river basin development project in mainland Southeast Asia the bureau's longest international undertaking which affected Thailand Laos Cambodia and Vietnam If Sneddon argues we can come to understand dams as both technical and political objects rather than mere instruments of impartial science we can better participate in current debates about large dams and river basin planning
