Exploring the Transnational Neighbourhood Stephan Ehrig,Britta C. Jung,Gad Schaffer,2022-10-13 Urban neighbourhoods have come to occupy the public imagination as a litmus test of migration with some areas hailed as multicultural success stories while others are framed as ghettos In an attempt to break down this dichotomy Exploring the Transnational Neighbourhood filters these debates through the lenses of geography anthropology and literary and cultural studies By establishing the interdisciplinary concept of the transnational neighbourhood it presents these localities whether Clichy sous Bois Belfast El Segundo Barrio or Williamsburg as densely packed contact zones where disparate cultures meet in often highly asymmetrical relations producing a constantly shifting local and cultural knowledge about identity belonging and familiarity Exploring the Transnational Neighbourhood offers a pivotal response to one of the key questions of our time How do people create a sense of community within an exceedingly globalised context By focusing on the neighbourhood as a

central space of transcultural everyday experience within three different levels of discourse i.e. the virtual the physical local and the transnational global the multidisciplinary contributions explore bottom up practices of community building alongside cultural social economic and historical barriers Schooling and the Politics of Disaster Kenneth J. Saltman, 2010-06-10

Schooling and the Politics of Disaster is the first volume to address how disaster is being used for a radical social and economic reengineering of education From the natural disasters of the Asian tsunami and the hurricanes in the Gulf Coast to the human made disasters in Iraq Afghanistan Haiti Sudan Indonesia the United States and around the globe disaster is increasingly shaping policy and politics This groundbreaking collection explores how education policy is being reshaped by disaster politics Noted scholars in education and sociology tackle issues as far ranging as No Child Left Behind the War on Terror Hurricane Katrina the making of educational funding crises in the US and the Iraq War to bring to light a disturbing new phenomenon in educational policy El estado mexicano: Sociedad civil y diversidad Alberto Aziz Nassif, Alonso Sánchez Alonso, 2005

The U.S.-Mexico Transborder Region Carlos G. Vélez-Ibáñez, Josiah Heyman, 2017-04-11 The U S Mexico Transborder Region presents advanced anthropological theorizing of culture in an important regional setting Not a static entity the transborder region is peopled by ever changing groups who face the challenges of social inequality political enforcement of privilege economic subordination of indigenous communities and organized resistance to domination The book influenced by the work of Eric Wolf and senior editor Carlos G V lez Ib ez centers on the greater Mexican North U S Southwest although the geographic range extends farther This tradition like other transborder approaches attends to complex and fluid cultural and linguistic processes going beyond the classical modern anthropological vision of one people one culture one language With respect to recent approaches however it is more deeply social focusing on vertical relations of power and horizontal bonds of mutuality V lez Ib ez and Heyman envision this region as involving diverse and unequal social groups in dynamic motion over thousands of years Thus the historical interaction of the U S Mexico border however massively unequal and powerful is only the most recent manifestation of this longer history and common ecology Contributors emphasize the dynamic transborder quality conflicts resistance slanting displacements and persistence in order to combine a critical perspective on unequal power relations with a questioning perspective on claims to bounded simplicity and perfection The book is notable for its high degree of connection across the various chapters strengthened by internal syntheses from notable border scholars including Robert R Alvarez and Alejandro Lugo In the final section Judith Freidenberg draws general lessons from particular case studies summarizing that access to valued scarce resources prompts the erection of human differences that get solidified into borders dividing and limiting engendering vulnerabilities and marginalizing some people At a time when understanding the U S Mexico border is more important than ever this volume offers a critical anthropological and historical approach to working in transborder regions Contributors Amado Alarcón Robert R Alvarez Miguel D az Barriga Margaret E Dorsey Judith Freidenberg Ruth Gomberg Mu oz James Greenberg Josiah

 tiene precedentes en la historia humana En el marco de la globalización económica y de lo que se ha dado en llamar la era de
 la información la movilidad humana sobre todo aquella de carácter transfronterizo ha generado nuevas realidades y espacios
 de conflicto y adaptación tanto en los contextos receptores como en aquellas regiones que se han convertido en exportadoras
 de población En esta dinámica estimulada por la pauperización de diversas regiones y por la aspiración a una mejor vida los
 migrantes enfrentan una diversidad de peligros vulnerabilidades y rechazos que dejan tras de sí o con ella una cifra notable
 de abusos y mortandad sobre todo en la amarga aventura de intentar el cruce clandestino de fronteras terrestres y marítimas
 En estos procesos los migrantes utilizan sus creencias como un valioso recurso que les permite atenuar y procesar el trayecto
 migratorio o bien como parte de sus estrategias de inserción social y resignificación identitaria en nuevos ámbitos ajenos
