Unfortunately few resources exist to help multiethnic couples maneuver through the potential minefield of cultural collision The purpose of this volume is to provide such a resource Equally Yoked examines the subject of multiethnic marriage from a biblical perspective before considering a history of the practice in North America over the last four centuries Additionally this book surveys the challenges that multiethnic Christian couples frequently encounter and offers premarital counseling propositions that will prove valuable to both counselors and couples who originate from diverse backgrounds **A**

The Red and the White Andrew R. Graybill, 2013-09-30 Winner of the Labriola Center American Indian National Book Award One of the American West's bloodiest and least known massacres is searingly re-created in this generation-spanning history of native-white intermarriage At dawn on January 23, 1870, four hundred men of the Second U.S. Cavalry attacked and butchered a Piegan camp near the Marias River in Montana in one of the worst slaughters of Indians by American military forces in U.S. history Coming to avenge the murder of their father, a former fur trader named Malcolm Clarke who had been killed four months earlier by their Piegan mother's cousin, Clarke's own two sons joined the cavalry in a slaughter of many of their own relatives In this groundbreaking work of American history, Andrew R. Graybill places the Marias Massacre within a larger three-generation saga of the Clarke family, particularly illuminating the complex history of native-white intermarriage in the American Northwest

Passing Interest Julie Cary Nerad, 2014-06-16 The first volume to focus on the trope of racial passing in novels, memoirs, television, and films published or produced between 1990 and 2010, *Passing Interest* takes the scholarly conversation on passing into the twenty-first century With contributors working in the fields of African American studies, American studies, cultural studies, film studies, literature, and media studies, this book offers a rich interdisciplinary survey of critical approaches to a broad range of contemporary passing texts Contributors frame recent passing texts with a wide array of cultural discourses including immigration law, the Post-Soul Aesthetic, contemporary political satire, affirmative action, the paradoxes of colorblindness, and the rhetoric of post-racialism Many explore whether one drop of blood still governs our sense of racial identity or to what extent contemporary American culture allows for the racially indeterminate individual Some essays open the scholarly conversation to focus on ethnic passers, individuals who complicate the traditional black-white binary while others explore the slippage between traditional racial passing and related forms of racial performance, including blackface minstrelsy and racial masquerade

Crossing B(1)ack Sika Dagbovie-Mullins, 2013-01-25 The past two decades have seen a growing influx of biracial discourse in fiction, memoir, and theory, and since the 2008 election of Barack Obama, to the presidency debates over whether America has entered a post-racial phase have set the media abuzz In this penetrating and provocative study, Sika A. Dagbovie-Mullins adds a new dimension to this dialogue as she investigates the ways in which various mixed-race writers and public figures have redefined both blackness and whiteness by invoking multiple racial identities Focusing on several key novels, Nella Larsen's *Quicksand* (1928), Lucinda Roy's *Lady Moses* (1998), and Danzy Senna's *Caucasia* (1998), as well as memoirs by Obama, James McBride, and Rebecca Walker, and the personae of singer Mariah Carey and actress Halle Berry, Dagbovie-

Mullins challenges conventional claims about biracial identification with a concept she calls black sentient mixed race identity Whereas some multiracial organizations can diminish blackness by for example championing the inclusion of multiple race options on census forms and similar documents a black sentient consciousness stresses a perception rooted in blackness a connection to a black consciousness writes the author that does not overdetermine but still plays a large role in one's racial identification By examining the nuances of this concept through close readings of fiction memoir and the public images of mixed race celebrities Dagbovie Mullins demonstrates how a black sentient mixed race identity reconciles the widening separation between black white mixed race and blackness that has been encouraged by contemporary mixed race politics and popular culture A book that promises to spark new debate and thoughtful reconsiderations of an especially timely topic

Crossing Black recognizes and investigates assertions of a black centered mixed race identity that does not divorce a premodern racial identity from a postmodern racial fluidity

Discrimination by Default Lu-in Wang, 2008-04 Drawing on social psychology to detail three ways in which unconscious assumptions can lead to discrimination this book demonstrates how these dynamics interact in medical care to produce an invisible self fulfilling and self perpetuating prophecy of racial disparity

The First Amendment in Cross-Cultural Perspective Ronald J. Krotoszynski Jr., Ronald J. Krotoszynski, 2009-03 The First Amendment and its guarantee of free speech for all Americans has been at the center of scholarly and public debate since the birth of the Constitution and the fervor in which intellectuals politicians and ordinary citizens approach the topic shows no sign of abating as the legal boundaries and definitions of free speech are continually evolving and facing new challenges Such discussions have generally remained within the boundaries of the U S Constitution and its American context but consideration of free speech in other industrial democracies can offer valuable insights into the relationship between free speech and democracy on a larger and more global scale thereby shedding new light on some unexamined and untested assumptions that underlie U S free speech doctrine Ronald J Krotoszynski Jr compares the First Amendment with free speech law in Japan Canada Germany and the United Kingdom countries that are all considered modern democracies but have radically different understandings of what constitutes free speech Challenging the popular and largely American assertion that free speech is inherently necessary for democracy to thrive Krotoszynski contends that it is very difficult to speak of free speech in universalist terms when the concept is examined from a framework of comparative law that takes cultural difference into full account

Illicit Love Ann McGrath, 2015-12-01 *Wedding New Worlds* revises histories of interracial love sex and marriage amid legal and cultural barriers created to regulate and make illegal the liaisons between indigenous and non indigenous people in Australia and the US from the late 18th century to the 20th century

Undercover Asian Leilani Nishime, 2014-01-30 In this first book length study of media images of multiracial Asian Americans Leilani Nishime traces the codes that alternatively enable and prevent audiences from recognizing the multiracial status of Asian Americans Nishime's perceptive readings of popular media movies television shows magazine articles and artwork indicate how and why

the viewing public often fails to identify multiracial Asian Americans Using actor Keanu Reeves and the Matrix trilogy golfer Tiger Woods as examples Nishime suggests that this failure is tied to gender sexuality and post racial politics Also considering alternative images such as reality TV star Kimora Lee Simmons the television show Battlestar Galactica and the artwork of Kip Fulbeck this incisive study offers nuanced interpretations that open the door to a new and productive understanding of race in America *America's Colony* Pedro A Malavet,2007-11 An examination of the legal relationship between U S and Puerto Rico

Romance and Rights Alex Lubin,2009-09-18 Romance and Rights The Politics of Interracial Intimacy 1945 1954 studies the meaning of interracial romance love and sex in the ten years after World War II How was interracial romance treated in popular culture by civil rights leaders African American soldiers and white segregationists Previous studies focus on the period beginning in 1967 when the Supreme Court overturned the last state anti miscegenation law Loving v Virginia Lubin s study however suggests that we cannot fully understand contemporary debates about hybridity or mixed race identity without first comprehending how WWII changed the terrain The book focuses on the years immediately after the war when ideologies of race gender and sexuality were being reformulated and solidified in both the academy and the public Lubin shows that interracial romance particularly between blacks and whites was a testing ground for both the general American public and the American government The government wanted interracial relationships to be treated primarily as private affairs to keep attention off contradictions between its outward aura of cultural freedom and the realities of Jim Crow politics and anti miscegenation laws Activists however wanted interracial intimacy treated as a public act one that could be used symbolically to promote equal rights and expanded opportunities These contradictory impulses helped shape our current perceptions about interracial romances and their broader significance in American culture Romance and Rights ends in 1954 the year of the Brown v Board of Education decision before the civil rights movement became well organized By closely examining postwar popular culture African American literature NAACP manuscripts miscegenation laws and segregationist protest letters among other resources the author analyzes postwar attitudes towards interracial romance showing how complex and often contradictory those attitudes could be

Mark One or More Kim W. Williams,2006 Mark One or More tells the little known story of the struggle to include a multiracial category on the U S census and the profound changes it wrought in the American political landscape The movement to add a multiracial category to the 2000 U S Census provoked unprecedented debates about race The effort made for strange bedfellows Republicans like House Speaker Newt Gingrich and affirmative action opponent Ward Connerly took up the multiracial cause Civil rights leaders opposed the movement on the premise that it had the potential to dilute the census count of traditional minority groups The activists themselves a loose confederation of organizations many led by the white mothers of interracial children wanted recognition What they got was the transformation of racial politics in America Mark One or More is the compelling account of how this small movement sparked a big change and a moving call to reassess

the meaning of racial identity in American life Kim M Williams is Associate Professor of Public Policy in Harvard s Kennedy School of Government and an expert in racial and ethnic politics and political movements *Scars of War* Sabrina Thomas,2021-12 *Scars of War* examines how the exclusion of mixed race persons and people of Asian descent in the United States shaped the efforts of policymakers to recognize the Amerasians of Vietnam as American children and initiate legislation that designated them unfit for American citizenship **Neither Enemies nor Friends** S. Oboler,A. Dzidzienyo,2005-04-01 In this collection leading scholars focus on the contemporary meanings and diverse experiences of blackness in specific countries of the hemisphere including the United States The anthology introduces new perspectives on comparative forms of racialization in the Americas and presents its implications both for Latin American societies and for Latinos relations with African Americans in the U S
