Legal Pluralism in Action Latif Tas, 2016-04-22 This groundbreaking book contributes to and refocuses public debates about the incorporation of plural approaches into the English legal system The book specifically advances the recent largely theoretical discussions of Sharia legal practice by examining a secular method of dispute resolution as practised by the Kurdish Peace Committee in London Following migration to the West many Kurds still adhere to traditional values and norms Building on these they have adapted their customary legal practices to create unofficial legal courts and other forms of legal hybridisation These practical solutions to the challenges of a pluralistic life are seen by Kurdish communities in the UK as applicable not only to British and transnational daily life but also as a training ground for institutions in a possible future Kurdish state The study provides a substantive evidence base using extensive ethnographic data about the workings of the Kurdish Peace Committee examining detailed case studies in the context of the customs and practices of the Kurdish community Based on an ethnographic and interdisciplinary approach this book will be of interest to policy makers socio legal professionals students and scholars of legal anthropology ethnic minority law transnationalism diaspora Kurdish Turkish and Middle Eastern studies

Diaspora, Law and Literature Klaus Stierstorfer, Daniela Carpi, 2016-11-07 The well known challenges of international migration have triggered new departures in academic approaches with diaspora studies evolving as an interdisciplinary and even transdisciplinary field of study Its emerging methodology shares concerns with another interdisciplinary field the study of the relations between law and literature which focuses on the ways in which the two cultural practices of law and literature mutually negotiate each other and on the question after the ontological

commensurability of the domains This volume offers for the first time an attempt to provide an interface between these overlapping interdisciplinary endeavours of literary studies legal studies and diaspora studies In doing so it explores new approaches and invites new perspectives on diasporas migration and the disciplines that study them hopefull also adding to the cultural resources of coping with a swiftly changing social landscape in a globalizing world **The Power of Law in a Transnational World** Franz von Benda-Beckmann, Keebet von Benda-Beckmann, Anne M. O. Griffiths, 2012 How is law mobilized and who has the power and authority to construct its meaning This important volume examines this question as well as how law is constituted and reconfigured through social processes that frame both its continuity and transformation over time The volume highlights how power is deployed under conditions of legal pluralism exploring its effects on livelihoods and on social institutions including the state Such an approach not only demonstrates how the state through its various development programs and organizational structures attempts to control territory and people but also relates the mechanisms of state control to other legal modes of control and regulation at both local and supranational levels

Theorizing Local Migration Law and Governance Moritz Baumgärtel, Sara Miellet, 2022-09-22 Explores how analyses of legal processes can inform the theorization of the role of local governments in migration governance Rules of Law and Laws of Ruling Franz von Benda-Beckmann, Keebet von Benda-Beckmann, 2016-04-08 Offering an anthropological perspective this volume explores the changing relations between law and governance examining how changes in the structure of governance affect the relative social significance of law within situations of legal pluralism The authors argue that there has been a re regulation rather than a de regulation propagated by a plurality of regulative authorities and this re regulation is accompanied by an increasing ideological dominance of rights talk and juridification of conflict Drawing on insights into such processes this volume explores the extent to which law is used both as a constitutive legitimation of governance and as the medium through which governance processes take place Highlighting some of the paradoxes and the unintended consequences of these regulating processes and the ensuing dynamics Rules of Law and Laws of Ruling will be a valuable resource for researchers and students working in the areas of legal anthropology and governance **In Pursuit of**

emerging states negotiate statehood in a globalised world It critically examines the transfer of international constitution making models as part of international rule of law promotion frameworks Specific emphasis is placed on the socio cultural translation dynamics of these models in conflict settings The comparative study explores the tensions between state sovereignty and international interventions examining whether international constitution making involvement fosters the production of societal consensus or inadvertently impedes efforts to achieve stability and peace By focusing on constitutional law making the book sheds light on how normative ideas are transformed in negotiations and opens up new analytical avenues for re thinking conventional constitution making practices It critically reconsiders the assumption that every emerging state requires a written constitution alongside the state centred notion of sovereignty underpinning this paradigm Additionally the study addresses the power and knowledge hierarchies inherent in international interventions providing empirical data from post conflict African contexts The book will be of interest to academics researchers and policy makers working in the areas of comparative public law constitutionalism sociology of law anthropology legal geography international relations political science and African studies

Eugen Ehrlich's Sociology of Law Knut Papendorf, Stefan Machura, Anne Hellum, 2014 The work of Eugen Ehrlich 1862 1922 is directly relevant for an understanding of law in society and of the role of sociology of law Today it is possible to see behind the smokescreen of historical debates and to assess Ehrlich's key ideas in the light of today's problems The coexistence of state and local law still challenges lawyers and decision makers Ehrlich suggests sociology of law as an instrument to address social and legal problems that supplements standard legal methodology The articles in this book place Eugen Ehrlich in the context of his times outline the international reception of his work and show the relevance of his

thoughts for contemporary issues Series Society and Law Gesellschaft und Recht Vol 8 Subject Socio Legal Studies Legal History **Law and Anthropology** Michael D. A. Freeman, David Napier, 2009-11-19 Law and Anthropology the latest volume in the Current Legal Issues series offers an insight into the state of law and anthropology scholarship today Focussing on the inter connections between the two disciplines it also includes case studies from around the world *The Oxford Handbook of Global Legal Pluralism* Paul Schiff Berman, 2020-06-01 Over the past two decades Global Legal Pluralism has become one of the leading analytical frameworks for understanding and conceptualizing law in the 21st century Wherever one looks there is conflict among multiple legal regimes Some of these regimes are state based some are built and maintained by non state actors some fall within the purview of local authorities and jurisdictional entities and some involve international courts tribunals and arbitral bodies and regulatory organizations Global Legal Pluralism has provided first and foremost a set of useful analytical tools for describing this conflict among legal and quasi legal systems At the same time some pluralists have also ventured in a more normative direction suggesting that legal systems might sometimes purposely create legal procedures institutions and practices that encourage interaction among multiple communities These scholars argue that pluralist approaches can help foster more shared participation in the practices of law more dialogue across difference and more respect for diversity without requiring assimilation and uniformity Despite the veritable explosion of scholarly work on legal pluralism conflicts of law soft law global constitutionalism the relationships among relative authorities transnational migration and the fragmentation and reinforcement of territorial boundaries no single work has sought to bring together these various scholarly strands place them into dialogue with each other or connect them with the foundational legal pluralism research produced by historians anthropologists and political theorists Paul Schiff Berman one of the world s leading theorists of Global Legal Pluralism has gathered over 40 diverse authors from multiple countries and multiple scholarly disciplines to touch on nearly every area of legal pluralism research offering defenses critiques and applications of legal pluralism to 21st century legal analysis Berman also provides introductions to every part of the book helping to frame the various approaches and perspectives The result is the first comprehensive review of Global Legal Pluralism scholarship ever produced This book will be a must have for scholars and students seeking to understand the insights of legal pluralism to contemporary debates about law At the same time this volume will help energize and engage the field of Global Legal Pluralism and push this scholarly trajectory forward into another two decades of innovation **From Transnational Relations to Transnational Laws** Shaheen Sardar Ali, Anne Griffiths, 2016-04-15 This book approaches law as a process embedded in transnational personal religious communicative and economic relationships that mediate between international national and local practices norms and values It uses the concept living law to describe the multiplicity of norms manifest in transnational moral social or economic practices that transgress the territorial and legal boundaries of the nation state Focusing on transnational legal encounters located in family life diasporic religious institutions and media events in

countries like Norway Sweden Britain and Scotland it demonstrates the multiple challenges that accelerated mobility and increased cultural and normative diversity is posing for Northern European law For in this part of the world as elsewhere national law is challenged by a mixture of expanding human rights obligations and unprecedented cultural and normative pluralism enhanced by expanding global communication and market relations As a consequence transnationalization of law appears to create homogeneity fragmentation and ambiguity expanding space for some actors while silencing others Through the lens of a variety of important contemporary subjects the authors thus engage with the nature of power and how it is accommodated ignored or resisted by various actors when transnational practices encounter national and local law
