that didn't stop anyone who wanted a beer or a shot of whiskey. Vast criminal networks soon developed across the country from stills in remote towns in Pennsylvania to streets full of speakeasies, underground bars in Chicago. Some people just wanted to enjoy a glass of wine or two with friends. Yet as the lawbreaking became more extensive and federal agents couldn't keep up, the money involved increased. Violent mobsters saw Prohibition as a way to make a killing on illegal alcohol, and things turned dark fast. For the many adults who had supported Prohibition, there was a lot of handwringing. Concerned women and men who had watched men stumble out of seedy saloons in their hometowns, abuse their wives, and abandon their children, had believed that prohibiting the sale of alcohol was the answer to many of America's social ills. But alarmed by the rampant lawbreaking, Americans including those who had once supported Prohibition soon rallied to end it. *Crime in America--heroin Importation, Distribution, Packaging, and Paraphernalia* United States. Travels with Ernest Laurel Richardson, Ernest Lockridge, 2004-04-23 In *Travels with Ernest* Crossing the Literary Sociological Divide Laurel Richardson and Ernest Lockridge, accomplished sociologist and published novelist, explore the fascinating interplay between literary and ethnographic writing. The exciting result is an intriguing experimental text that simultaneously delves into, reveals, simplifies, and complicates methodologies of writing and conveying experience. Refusing to force their unique voices into one integrated account, the authors also spouses, explicate their stories in separate narratives, and then discuss in transcribed free-wheeling conversations their different constructions of their travels together, travels simultaneously experienced but recalled and related differently through the filters of distinct professional perceptions, life histories, and interiors. This boundary-crossing text will provide an ideal platform for students and professors interested in understanding and exploring the absorbing complexities and possibilities of ethnographic writing and creative nonfiction.

Sam Hopkins is a good kid who has fallen in with the wrong crowd. Hanging around with car thieves and thugs, Sam knows it's only a matter of time before he makes one bad decision, too many, and gets into real trouble. But one day Sam sees these friends harassing an eccentric schoolmate named Jennifer. Finding the courage to face the bullies down, Sam loses a bad set of friends and acquires a very strange new one. Jennifer is not just eccentric. To Sam, she seems downright crazy. She has terrifying hallucinations involving demons, the devil, and death. And here's the really crazy part: Sam is beginning to suspect that these visions may actually be prophecies, prophecies of something terrible that's going to happen very soon. Unless he can stop it. With no one to believe him, with no one to help him, Sam is all alone in a race against time. Finding the truth before disaster strikes is going to be both crazy and very, very dangerous. Alexis,2022-04-25 In Kevin MacDonald s *Metaphysical Failure* Jonas E Alexis offers a thoroughly researched nuanced and lucid analysis of Kevin MacDonald s thought in particular MacDonald s belief in biological and philosophical Darwinism It is an important book that fills a critical gap in the literature on the history of revolutionary movements and

Darwinism both in the West and in Asia It is also a study that adds many significant strands to the densely interwoven history of ideas such as Malthusianism and Eugenics Alexis's book engages debates in the history of ideas going back to Madison Grant and beyond and the history of Darwinism It challenges many of the life long prevailing assumptions about identity politics and produces a powerful critique of how scientific theories have been misused to uphold misguided and faulty categorizations Powerfully reasoned and backed with a startling array of documented studies Kevin MacDonald's *Metaphysical Failure* presents an in depth look at key beliefs behind many mistaken and consequently destructive actions taken by numerous writers and thinkers particularly Darwin's ardent enthusiasts and devoted disciples The book presents eye opening insights into the historical development of Darwin's ideological project and how that project ended up crippling Darwin's intellectual children from Richard Dawkins Francis Crick James Watson Daniel Dennett Ernst Mayr and E O Wilson to Kevin MacDonald Richard Spencer David Duke and Jared Taylor
