**Critical Terms for Art History, Second Edition** Robert S. Nelson,Richard Shiff,2010-03-15 Art has always been contested terrain whether the object in question is a medieval tapestry or Duchamp's Fountain But questions about the categories of art and art history acquired increased urgency during the 1970s when new developments in critical theory and

other intellectual projects dramatically transformed the discipline The first edition of *Critical Terms for Art History* both mapped and contributed to those transformations offering a spirited reassessment of the field's methods and terminology Art history as a field has kept pace with debates over globalization and other social and political issues in recent years making a second edition of this book not just timely but crucial Like its predecessor this new edition consists of essays that cover a wide variety of loaded terms in the history of art from sign to meaning ritual to commodity Each essay explains and comments on a single term discussing the issues the term raises and putting the term into practice as an interpretive framework for a specific work of art For example Richard Shiff discusses Originality in Vija Celmins's *To Fix the Image in Memory* a work made of eleven pairs of stones each consisting of one original stone and one painted bronze replica In addition to the twenty-two original essays this edition includes nine new ones performance style memory monument body beauty ugliness identity visual culture visual studies and social history of art as well as new introductory material All help expand the book's scope while retaining its central goal of stimulating discussion of theoretical issues in art history and making that discussion accessible to both beginning students and senior scholars Contributors Mark Antliff Nina Athanassoglou Kallmyer Stephen Bann Homi K Bhabha Suzanne Preston Blier Michael Camille David Carrier Craig Clunas Whitney Davis Jas Elsner Ivan Gaskell Ann Gibson Charles Harrison James D Herbert Amelia Jones Wolfgang Kemp Joseph Leo Koerner Patricia Leighton Paul Mattick Jr Richard Meyer W J T Mitchell Robert S Nelson Margaret Olin William Pietz Alex Potts Donald Preziosi Lisbet Rausing Richard Shiff Terry Smith Kristine Stiles David Summers Paul Wood James E Young

**The Future of Nostalgia** Svetlana Boym, 2008-08-05 Can one be nostalgic for the home one never had Why is it that the age of globalization is accompanied by a no less global epidemic of nostalgia Can we know what we are nostalgic for In the seventeenth century Swiss doctors believed that opium leeches and a trek through the Alps would cure nostalgia In 1733 a Russian commander disgusted with the debilitating homesickness rampant among his troops buried a soldier alive as a deterrent to nostalgia In her new book Svetlana Boym develops a comprehensive approach to this elusive ailment Combining personal memoir philosophical essay and historical analysis Boym explores the spaces of collective nostalgia that connect national biography and personal self-fashioning in the twenty-first century She guides us through the ruins and construction sites of post-communist cities St Petersburg Moscow Berlin and Prague and the imagined homelands of exiles Benjamin Nabokov Mandelstam and Brodsky From Jurassic Park to the Totalitarian Sculpture Garden from love letters on Kafka's grave to conversations with Hitler's impersonator Boym unravels the threads of this global epidemic of longing and its antidotes

**Falling Upwards** Lee Siegel, 2009-04-27 Sex and the City Saul Bellow Eyes Wide Shut Dante and the American self Barbara Kingsolver acting in Hollywood Soviet painting in Soho Angels in America Jane Austen in the present J K Rowling nothing escapes Lee Siegel's incandescent eye Siegel possesses an intellectual range and independent perspective unmatched by his peers and *Falling Upwards* brings together the best of his essays all of them rich with the trademark wit

and intelligence that have won him many friends and a few enemies In these essential writings Siegel deftly uses the occasion of a book film painting or television show not merely to appraise it but to make sense of life in a way that is more defiant of impoverished cultural norms than most contemporary artistic expression Guided by the belief that a calculating self interest in art making diminishes the prospects for the imagination in life Siegel celebrates authentic sensibilities and lambasts manufactured sentiments With uncanny insight yet also with incomparable logic and analytical rigor he has invented a new idiom in which the language of criticism embodies the playful creative synthesizing power that has been largely abdicated by the arts in our time In writing about works of culture Siegel has created a standard by which to judge them

*The Unlikely Futurist* James Rann, 2020-07-07 In the early twentieth century a group of writers banded together in Moscow to create purely original modes of expression These avant garde artists known as the Futurists distinguished themselves by mastering the art of the scandal and making shocking denunciations of beloved icons With publications such as *A Slap in the Face of Public Taste* they suggested that Aleksandr Pushkin the founder of Russian literature be tossed off the side of their steamship of modernity Through systematic and detailed readings of Futurist texts James Rann offers the first book length study of the tensions between the outspoken literary group and the great national poet He observes how those in the movement engaged with and invented a new Pushkin who by turns became a founding father to rebel against a source of inspiration to draw from a prophet foreseeing the future and a monument to revive Rann's analysis contributes to the understanding of both the Futurists and Pushkin's complex legacy *The Unlikely Futurist* will appeal broadly to scholars of Slavic studies especially those interested in literature and modernism

Thinking Utopia Jörn Rüsen, Michael Fehr, Thomas W. Rieger, 2006-12-01 After the breakdown of socialist and communist systems in the East it had become fashionable to declare the so called end of utopia end of history end of narratives The authors of this volume do not share this view but think that it is time to rehabilitate utopian thought The political concept of Utopia that has given its name to these transcendental projections onto the world has been too narrow to describe and analyze the moving forces of the mind perceiving human existence beyond reality By broadening the perspectives of utopian studies these essays enable the reader to reconstruct scholarly paradigms and strategies of utopian complex and holistic thinking in modern cosmology philosophy sociology in literary historical and political sciences and to compare traditions and ways of Western utopian thought to the practice in the East *9/11 and the Visual Culture of Disaster* Thomas Stubblefield, 2014-12-17 An insightful view on how 9 11 is perceived in American society the day that refuses to enter history the tragedy that has in effect not yet passed Journal of Popular Culture The day the towers fell indelible images of plummeting rubble fire and falling bodies were imprinted in the memories of people around the world Images that were caught in the media loop after the disaster and coverage of the attack its aftermath and the wars that followed reflected a pervasive tendency to treat these tragic events as spectacle Though the collapse of the World Trade Center was the most photographed disaster in history it failed to yield a single noteworthy image of carnage Thomas Stubblefield argues that the absence within these spectacular images is the paradox of 9 11 visual culture which foregrounds the visual experience as it obscures the event in absence erasure and invisibility From the spectral presence of the Tribute in Light to Art Spiegelman s nearly blank New Yorker cover from the elimination of the Twin Towers from TV shows and films to the monumental cavities of Michael Arad s 9 11 memorial the void became the visual shorthand for the incident By examining configurations of invisibility and erasure across the media of photography film monuments graphic novels and digital representation Stubblefield interprets the post 9 11 presence of absence as the reaffirmation of national identity that implicitly laid the groundwork for the impending invasions of Iraq and Afghanistan A concise engaging and thought provoking work that asks the reader to reassess their knowledge and relationship to that moment and the resulting milieu of post 9 11 life in America ARLIS NA Reviews Extraordinarily brilliant will change how we think about disasters and tragedies The book is a must read for both students and practitioners of media studies Repository **The Museum as Muse** Kynaston McShine, 1999 Published on the occasion of the exhibition of the same name held at the Museum of Modern Art New York March 14 June 1 1999
