Monuments Of Progress Modernization And Public Health In Mexico City 1876 1911:

Monuments of Progress Claudia Agostoni, 2003 A social and cultural history of public health in Mexico during the late 1800s and early 1900s The book offers a fresh take on the history of medicine and public health by shifting away from the history of epidemic disease and heroic accounts of medical men and toward looking at public health in a broader social framework It shows how new public health policies were instrumental in the modernisation of Mexico Adds to a small but fast growing body of literature on the history of public health in Latin America and other developing areas of the world **New Directions in Transnational Mexican History** Matthew D. Esposito, James Garza, 2023-10-16 New Directions in Transnational Mexican History Mexico On the World Stage is the first collection by historians to examine foreign immigration to Mexico as a way to interpret the significance of Mexican transnationalism and pluriculturalism The contributors analyze Mexico as a recipient nation broadening the application of transnationalism to encompass not only foreign migrants but Mexican figures like Francisco Madero who were deeply influenced by transnational experiences This book explore the roles of Spanish entrepreneurs U S consuls American and Mexican medical professionals transnational railroad workers borderland cowboys international divas cosmopolitan puppeteers American missionaries and Mexican women soccer players This area of interdisciplinary inquiry has attracted the latest generation of scholars destined to publish their works during the age of globalization These pioneering scholars use transnational approaches to determine if Mexico has emerged as a transmigration and emigration state and if the Mexican people s extraterritorial influence embodied in the terms Greater Mexico and Mexico de Afuera applies to larger swaths of the Americas and the world *Low Income, Social Growth, and Good Health* James C. Riley, 2008 Life expectancy and income among the first countries to begin health transitions Which countries should be studied A colonizer and the country colonized Japan and Korea Very low income is not a barrier Sri Lanka Two neighbors Panama and Costa Rica Capitalism and communism dictatorship and democracy Cuba and Jamaica The Soviet and Chinese models of social development Oil rich lands The Latin American case income inequality and health in Mexico Limiting mortality from fecal disease malaria and tuberculosis *The Spirits of the Times* Lia Theresa Schraeder, 2009 Funerals, Festivals, and Cultural Politics in Porfirian Mexico Matthew D. Esposito, 2010 When President Benito Ju rez died unexpectedly of a heart attack in 1872 the Mexican government declared a seven day period of mourning Nearly the entire population of Mexico City filed past Ju rez s body as it lay in state in the National Palace Over 100 000 people watched the magnificent procession of his hearse and countless mourners vied for position to listen to his eulogies Ju rez s was the last state funeral for a sitting president in republican Mexico and the public response proved the existence of a Mexican national community It also gave birth to the cultural politics and mythical discourse of the Porfirian regime that would overthrow Ju rez s successor in 1876 In 1902 Mexican journalist congressman and intellectual Justo Sierra asserted that Mexico gained both national pride and its international personality during the long reign of Porfirio Diaz Matthew

Esposito argues that much of this identity stemmed from Díaz's reliance on memorialism. Over the course of thirty five years the Porfirian state constructed dozens of national monuments performed countless commemorations and held 110 state funerals. While most historians have argued that Díaz's reign owed its longevity to extralegal activities and personal appeals to loyalty, Esposito examines Díaz's successful manipulation of cults of the dead, hero cults and national memory to shape the perception of his leadership. **Quill & Quire**, 2003. *The British National Bibliography* Arthur James Wells, 2004.

Monuments of Progress Claudia Amalia Agostoni Urencio, King's College London. Department of Spanish & Spanish-American Studies, 1996. *Monuments of Progress* Claudia Agostoni, 1997. *Historical Abstracts*, 1993. *Death Is All Around Us* Jonathan M. Weber, 2019-04-01. Late nineteenth century Mexico was a country rife with health problems. In 1876 one out of every nineteen people died prematurely in Mexico City, a staggeringly high rate when compared to other major Western world capitals at the time which saw more modest premature death rates of one out of fifty two London, one out of forty four Paris and one out of thirty five Madrid. It is not an exaggeration to maintain that each day dozens of bodies could be found scattered throughout the streets of Mexico City making the capital city one of the most unsanitary places in the Western Hemisphere. In light of such startling scenes in *Death Is All around Us* Jonathan M. Weber examines how Mexican state officials including President Porfirio Díaz tried to resolve the public health dilemmas facing the city. By reducing the high mortality rate, state officials believed that Mexico City would be seen as a more modern and viable capital in North America. To this end the government used new forms of technology and scientific knowledge to deal with the thousands of unidentified and unburied corpses found in hospital morgues and cemeteries and on the streets. Tackling the central question of how the government used the latest technological and scientific advancements to persuade citizens and foreigners alike that the capital city and thus Mexico as a whole was capable of resolving the hygienic issues plaguing the city, Weber explores how the state's attempts to exert control over procedures of death and burial became a powerful weapon for controlling the behavior of its citizens. **PUBLIC HEALTH IN THE CITY OF MEXICO** George McCutchen B. 1876.
