Green, 2020-11-23 Do you want to know how the ancient power of the moon influences Wiccan magic Looking to tap into this powerful natural energy and harness it to fulfil your desires Then keep reading Everything You Need to Know About the Magic of the Moon For Wiccans and other Pagan practitioners the Moon is a vital presence with much to teach us about the eternal rhythms of the Universe the powers of Nature and the magical potential that is ours to tap into when we align our intentions with lunar energy For millennia the Moon has been associated with many central concerns of human existence love passion fertility mystery death and rebirth and the afterlife just to name a few It's no wonder that this celestial body is the domain of the Goddess in so many traditions Wiccans know that the Moon influences all of us whether we realize it or not Yet it's not always clear what this means in the context of our day to day lives The focus on the New Moon and Full Moon throughout so much of Wiccan and Pagan lore can leave the impression that the Moon's significance is limited to these times But in fact each phase of the lunar cycle offers particular energies that you can attune with and harness for your specific magical goals This book is for anyone wanting to learn more about the connections between the Moon and the practice of magic While much of the information comes from a Wiccan perspective and it is designed to include newcomers to Wicca the broader focus of Moon Magic provides a rich foundation for

enhancing your personal practice of magic through working with lunar energies Foundations of Lunar Magic Many books about Wicca and magic will tell you that the waxing Moon is a time for attracting and the waning Moon is for banishing but in reality there s much more to it than that Moon Magic takes an in depth look at the lunar cycle providing limitless possibilities for working with these multifaceted energies The practical elements are accessible enough for beginners yet those with more magical experience will still find plenty of new ideas concepts and tips to enhance their practice In this book you ll find How the Moon s energy influences the Earth animals and people The core elements of the Moon in Wiccan spiritual practice A detailed breakdown of magical properties of the lunar cycle beginning with the New Moon and moving through all 9 phases of the Moon s journey around the Earth Spells for each phase of the lunar cycle as well as magical recipes techniques and correspondences all focused on making the most out of your connection to the Moon s amazing power And more So whether you follow a particular tradition of Wicca Witchcraft or another Pagan path or an eclectic combination of all three or even if you re simply just curious you will find plenty of useful information within these pages If you re ready to learn about the magic of the Moon scroll to the top of the page and select the buy button

The Practice of Magical Evocation Franz

Bardon,2014-07-28 Throughout the ages and primarily during the past few centuries many lengthy dissertations have been published on the art of higher magic Unfortunately they are for the most part such bewildering and incomplete remnants that very little of it can be taken as a point of reference for practical studies and this only in small fragments The original initiative for magic was known only to a very few lodges and was reserved for a particularly chosen few while for the seekers of truth who searched diligently for any information this subject matter remained dark and mysterious Various religions during the Middle Ages were severely hostile towards any magical knowledge In our history the most prominent examples are the well known Inquisitions Later in modern times magic was regarded as mere superstition and any person who showed some inclination toward this knowledge let alone one seriously concerned himself with the study of magic was regarded as a fool and was ridiculed In the past mystical and other sects maligned magic to such a degree that the word magic has to this very day an extremely dubious reputation And any person who has had an appreciation or understanding for magical knowledge has been pilloried as a black magician In reality true magic was initially taught in the ancient schools of the prophets and then only in the highest circles However only a few select insiders had access to these institutions In those days only a few books occasionally disclosed scant bits of information about true magic These books were deliberately written in such a way that they would disclose little or nothing even to the most astute reader and hence they would not give the seeker of truth a complete understanding of the subject of magic In accordance with the ancient Egyptian Mysteries the magic of the second Tarot card is represented by the High Priestess Franz Bardon the author of *The Practice of Magical Evocation* gladly continues to guide the serious diligent reader and student of magic along the proper path as long as this person is devoid of any fanatical religious beliefs and erroneous ideology Furthermore this person has to be prepared to penetrate further into the mysteries of the knowledge of magic or the Hermetic sciences As in Franz Bardon's first book *Initiation into Hermetics* Bardon endeavors to keep the language of this second volume in a style that is understandable to everyone The subject matter of the magic of evocation is among the least known and least investigated branches of the art and therefore Bardon makes certain that every person who reads this book will become completely familiar with this subject matter not only in theory but above all with the practice if he so chooses It is important however that the reader know that he will not achieve any results with the practice of magical evocation unless he has successfully completed Step VIII at the very least of Franz Bardon's first book *Initiation into Hermetics* which is a description of the first tarot card the Magician Should Franz Bardon be successful in assisting the reader who has successfully completed the entire practical part of his first book to achieve the same good results with this one then Bardon has achieved his objective Those readers who initially study the secret sciences only theoretically will find in this work a satisfactory broadening of their knowledge *The Moon Book* Sarah Faith Gottesdiener,2024-05-01 A guide to conscious living through the moon and her phases incorporating wellness rituals spellwork and witchcraft for the modern seeker The Moon Book guides readers in realigning with an entire lunation
