Moral Religious Predicament:

Towards a Theory of Relativity of Truth in Morality and Religion Charles Goossens,1990 This study argues for a model in which moral truth is presented as truth in the perspective of certain social commitments while religious truth is interpreted as truth in the perspective of religious experience It theorizes that relativity need not conflict with universality Truth from the perspective of the outsider is therefore truth without qualification **The Moral and Religious**

Predicament of Modern Man Benjamin Franklin Lewis,1972 *Self Love and Christian Ethics* Darlene Fozard

Weaver,2002-10-17 Publisher Description *Religion and Morality* Daniel Statman,Avi Sagi,2022-06-08 Religion and Morality seeks to answer two fundamental questions regarding the relation between religion and morality The first is the puzzle posed by Socrates the so called Euthyphro dilemma which asks is morality valuable by virtue of its intrinsic importance and worth or is morality valuable because and only because God approves it and commands us to follow its dictates The second question is raised by Kierkegaard in Fear and Trembling He asks Is a conflict between religion and morality possible Does God ever demand that we neglect our moral commitments The discussion on these questions is divided into three parts In the first two parts we discuss the idea that morality depends on religion The authors distinguish two types of dependence strong dependence according to which the very existence or validity of moral obligations depends on God s command and weak dependence according to which though morality itself is independent of God God or belief in God is necessary to enable human beings to know their moral duties and to carry them out The authors reject the strong dependence thesis as well as most versions of the weak dependence The third part of the book discusses different versions of the view that religion might conflict with morality The authors reject this view and show that very few religious thinkers would follow it all the way through to its ultimate consequences The book has implications for the philosophy of religion in its emphasis on the centrality of the moral element in religion and for moral philosophy in its highlighting among other things of the nature of moral judgments Religion and Morality Paul W. Diener,1997-01-01 Some people see religion and morality as

undeniably connected others see them as irreconcilably separate Paul Diener s accessible new book looks at the connection between these two concepts and examines how various religious and philosophical systems understand morality **The**

Foundations of Christian Bioethics Hugo Tristram Engelhardt,2000 For decades Engelhardt has alluded to the ethics that binds moral friends While his Foundations of Bioethics explored the sparse ethics binding moral strangers this long awaited volume addresses the morality at the foundations of Christian bioethics The volume opens with an analysis of the marginalization of Christian bioethics in the 1970s and the irremedial shortcomings of secular ethics in general Drawing on the Christianity of the first millennium Engelhardt provides the ontological and epistemological foundations for a Christian bioethics that can remedy the onesidedness of a secular bioethics and supply the bases for a Christian bioethics The volume then addresses issues from abortion third party assisted reproduction and cloning to withholding and withdrawing treatment

physician assisted suicide and euthanasia Practices such as free and informed consent are relocated within a traditional Christian morality Attention is also given to the allocation of scarce resources in health care and to the challenge of maintaining the Christian identity of physicians nurses patients and health care institutions in a culture that is now post Christian

Moral Struggle and Religious Ethics David A. Clairmont, 2011-03-31 *Moral Struggle and Religious Ethics* offers a comparative discussion of the challenges of living a moral religious life This is illustrated with a study of two key thinkers Bonaventure and Buddhaghosa who influenced the development of moral thinking in Christianity and Buddhism respectively Provides an important and original contribution to the comparative study and practice of religious ethics Moves away from a comparison of theories by discussing the shared human problem of moral weakness Offers an fresh approach with a comparison of the understanding of the problem of moral weakness between the two key thinkers Bonaventure and Buddhaghosa Written by a highly respected academic in the dynamic and fast growing field of comparative religious ethics

Morality, Religious and Secular Basil Mitchell, 1980 This book analyzes the moral confusion of contemporary society relating rival conceptions of morality with a wide variety of views about the nature and predicament of man Mitchell argues that many secular thinkers possess a traditional Christian conscience which they find hard to defend in terms of an entirely secular world view but which is more in line with a Christian understanding of man

The Moral Interpretation of Religion Peter Byrne, 1998 The Moral Interpretation of Religion provides a critical examination of the traditional attempt to interpret religion in moral terms alone He assesses historical attempts to reason directly from the basis of morality to the existence of a personal God

Subjectivity and Religious Truth in the Philosophy of Søren Kierkegaard Merigala Gabriel, 2010 Merigala Gabriel's main objective is to thoroughly examine subjective truth which is the core concept in Kierkegaard's philosophy Here Gabriel contrast subjective truth with objective truth in order to highlight the significance of subjective truth in its religious context and to bring out the inadequacy of objective truth The principle of absolute paradox connected with the subjective truth is also discussed The study also aims to present a detailed analysis of the aesthetic ethical and religious stages that represent existential dialectic to examine their interrelationship and to show how the religious mode of existence is the key to genuineness in real existence Care is taken to examine the disjunction between reason and faith to bring out the importance of faith in Christianity and to show the limitations of science as far as Christianity is concerned Gabriel also addresses the relation between God and Man Finally the importance of Kierkegaard's thought and his contribution to the development of subjectivity and religious truth are outlined

Theodicy of Culture and the Jewish Ethos Martina Urban, 2012-07-04 This volume presents the theory of culture of the Russian born German Jewish social philosopher David Koigen 1879 1933 Heir to Hermann Cohen's neo Kantian interpretation of Judaism he transforms the religion of reason into an ethical Intimist religion He draws upon a great variety of intellectual currents among them Max Scheler's philosophy of values the historical sociology of Max Weber the sociology of religion of mile Durkheim Ernst

Troeltsch and Georg Simmel and American pragmatism Influenced by his personal experience of marginality in German academia yet the same time unconstrained by the dictates of the German Jewish discourse Koigen shapes these theoretical strands into an original argument which unfolds along two trajectories theodicy of culture and ethos Distinguished from ethics ethos identifies the non formal factors that foster a group s sense of collective identity as it adapts to continuous change From a Jewish perspective ethos is grounded in the biblical covenant as the paradigm of a social contract and corporate liability Although the normative content of the covenantal ethos is subject to gradual secularization its metaphysical and existential assumptions Koigen argues continue to inform Jewish self understanding The concept of ethos identifies the dialectic of tradition as it shapes Jewish religious consciousness and in turn is shaped by the evolving cultural and axiological sensibilities In consonance Jewish identity cannot be reduced to ethnicity or a purely secular culture Urban develops these fragmentary and inchoate theories into a sociology of religious knowledge and suggests to read Koigen not just as a Jewish sociologist but as the first sociologist of Judaism who proposes to overcome the dogmatic anti metaphysical stance of European sociology

Missionary Education and Empire in Late Colonial India, 1860-1920 Hayden J A Bellenoit, 2015-09-30 Contributes simultaneously to both British imperial and Indian history This work demonstrates that missionary understandings and interactions with India rather than being party to imperial ideologies often diverged from metropolitan and imperial norms

A Trinitarian Theology of Religions Gerald Robert McDermott, Harold A. Netland, 2014 How are Christians to think of non Christian religions How are they to relate to people who do not share their faith Two senior scholars survey the field of theology of religions from an evangelical perspective and propose fresh approaches to long debated questions such as salvation revelation the relationship between culture and religion conversion and social action

The Reconstruction of the Christian Revelation Claim Stuart C. Hackett, 2009-01-07 Dr Hackett provides in digestible form a comprehensive systematic and pervasively philosophical apologetic for the Christian revelation claim Although the approach is seriously philosophical the text is free as possible of the earmarks of technical scholarship reflecting the author s aspiration to reach the common person who has a deep interest in such questions Thus although positions arguments and counter arguments are discussed of necessity these are set forth without distracting encumbrances Specifically this book is designed as a substantial textbook for college and seminary courses in apologetics In his thorough introduction Philosophical Prolegomena a firm base for the whole study is established by initiating the reader firmly in epistemology and the concept of revelation The main divisions are Christiainity and the Revelation Cosmos A Philosophical Case for a Theistic Metaphysic Christianity and the Revelational Person An Historical Critical Case for the Incarnation of God in Jesus Christ Christianity and the Revelational Word The Propositional Expression of Revelation in Scripture Dr Hackett includes on every page parallel marginal summaries and outlines to guide the reader and to facilitate ready reference

R. S. Peters Stefaan E. Cuypers, Christopher Martin, 2014-10-23 What does it mean to say that someone is an educated person

How do we know what's worth including in a school curriculum? Is a good moral education about developing good habits or critical thinking? What role does the development of knowledge and understanding play in living a good life? These are all questions that were robustly taken up by the philosopher of education R. S. Peters. In an era of immense reform and confusion about the values, aims, and purposes of education, Peters developed a clear and nuanced account of what education is really about and how educational policy and practice can make good on its promise. This text undertakes a careful and accessible reconstruction of the major themes of Peters' thought in order to demonstrate the continuing relevance of his project both for educational researchers and teachers and student teachers seeking to better understand the nature and scope of their work and study.

Christian Commitment Edward J. Carnell, 2007-10-01 Introducing the Edward Carnell Library Nine Titles Listed Inside Rather than mounting a rational proof for God's existence, the author advocates here a spiritual approach to God. This calls for an exercise not only of one's rational faculties but also of the spiritual. The four parts of this book originally published in 1957 treat the development and application of knowledge by moral acceptance, the process of becoming acquainted with the person of God, and concluding inferences and problems.

In Defense of Kant's Religion Chris L. Firestone, Nathan Jacobs, 2008-10-09 Chris L. Firestone and Nathan Jacobs integrate and interpret the work of leading Kant scholars to come to a new and deeper understanding of Kant's difficult book *Religion within the Boundaries of Mere Reason*. In this text, Kant's vocabulary and language are especially tortured and convoluted. Readers have often lost sight of the thinker's deep ties to Christianity and questioned the viability of the work as serious philosophy of religion. Firestone and Jacobs provide strong and cogent grounds for taking Kant's religion seriously and defend him against the charges of incoherence. In their reading, Christian essentials are incorporated into the confines of reason, and they argue that Kant establishes a rational religious faith in accord with religious conviction as it is elaborated in his mature philosophy. For readers at all levels, this book articulates a way to ground religion and theology in a fully fledged defense of Religion which is linked to the larger corpus of Kant's philosophical enterprise.

Philosophy and Religion in Early Medieval China Alan K. L. Chan, Yuet-Keung Lo, 2010-08-04 Exploring a time of profound change, this book details the intellectual ferment after the fall of the Han dynasty. Questions about heaven and the affairs of the world that had seemed resolved by Han Confucianism resurfaced and demanded reconsideration. New currents in philosophy, religion, and intellectual life emerged to leave an indelible mark on the subsequent development of Chinese thought and culture. This period saw the rise of xuanxue (dark learning) or learning of the mysterious Dao, the establishment of religious Daoism, and the rise of Buddhism. In examining the key ideas of xuanxue and focusing on its main proponents, the contributors to this volume call into question the often presumed monolithic identity of this broad philosophical front. The volume also highlights the richness and complexity of religion in China during this period, examining the relationship between the Way of the Celestial Master and local popular religious beliefs and practices, and discussing the relationship between religious Daoism and Buddhism.

Dictionary of

Twentieth-Century British Philosophers Stuart Brown, 2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture *The Rediscovery of the Highest Good* Stuart C.

Hackett, 2009-03-01 Stuart Hackett's *The Rediscovery of the Highest Good* originally handwritten in spiral notebooks is a masterwork of philosophical ethics that guides readers through 2300 years of discourse on the issue of morality from Plato through Kierkegaard and Nietzsche It is the destiny of every human person to decide Hackett opens Whether our choices are genuinely free or inevitably determined invariably trivial or occasionally momentous carelessly settled or reflectively reasoned at least in one sense all this makes no difference for the one thing about which persons have no choice is that we unavoidably and necessarily must choose and cannot therefore escape our responsibility to do so From this matter of fact beginning Hackett builds a coherent case for a modified teleological position while providing fleeting personal glimpses into his lifelong romance with philosophical contemplation From the opening page all the arguments are set down in a steady line of development aimed unerringly toward a preconceived goal At various points Hackett's summations produce a cerebral satisfaction that could almost be described as aesthetic a kind of sheer intellectual pleasure akin to beauty Recovery of the Highest Good is the culmination of forty years of reflection from a theistic perspective and is likely to be an invaluable handbook for inquirers in future generations
