## **Morality And Social Justice Point Counterpoint:**

**Morality and Social Justice** James P. Sterba, 1995 These original essays by seven leading contemporary political philosophers spanning the political spectrum explore the possibility of achieving agreement in political theory Each philosopher defends in a principal essay his or her own view of social justice and also comments on two or more of the other essays The result is a lively exchange that leaves the reader to judge to what degree the contributors achieve agreement or reconciliation

**Ethics and Social Survival** Milton Fisk, 2016-05-20 When speaking of society's role in ethics one tends to think of society as regimenting people through its customs Ethics and Social Survival rejects theories that treat ethics as having justification within itself and contends that ethics can have a grip on humans only if it serves their deep seated need to live together It takes a social survival view of ethical life and its norms by arguing that ethics looks to society not for regimentation by customs but rather for the viability of society Fisk traces this theme through the work of various philosophers and builds a consideration of social divisions to show how rationalists fail to realize their aim of justifying ethical norms across divisions The book also explores the relation of power and authority to ethics without simply dismissing them as impediments and explains how personal values such as honesty modesty and self esteem still retain ethical importance Finally it shows that basing ethics on avoiding social collapse helps support familiar norms of liberty justice and democracy and strives to connect global and local ethics

**In the Company of Others** Nancy E. Snow, 1996 Political and public debate recently has centered on issues of community family and culture What are the boundaries of community and why is community important What constitutes a family and is it the fundamental unit of a stable society What difference does feminism make in our lives and in society How do racial and cultural minorities affect culture as a whole In the Company of Others brings together new and previously published essays by nine distinguished philosophers who argue these questions from a variety of perspectives Presenting traditional and non traditional approaches their essays challenge and refine recent thinking on issues of contemporary social and political importance

*Citizenship in a Fragile World* Bernard P. Dauenhauer, 1996 Traditional conceptions of citizenship have dealt almost exclusively with political life within one state But the internationalization of so much economic cultural and political life today presents new opportunities and problems including the potential to extinguish human life Taking these new features as a point of departure Dauenhauer exposes the flaws in standard communitarian and liberal democratic theory focusing on the work of Charles Taylor John Rawls and Jürgen Habermas He articulates a concept of complex citizenship that recognizes citizens responsibilities beyond borders and shows its fruitfulness for educating children and dealing with foreign states and their peoples

Capitalism with a Human Face William Gay, T. A. Alekseeva, 1996 Combining the theoretical perspectives of a leading Russian political scientist and an American political philosopher who have collaborated for years Capitalism with a Human Face analyzes the relation between economics and politics in Russia as it moves toward modernization Throughout the book the authors

contrast Western media accounts of the Russian situation with less accessible but more relevant data gathered in Russia since 1991 They advocate a new notion of centrism for Russia one that combines democratic politics and a market economy without abandoning the social guarantees on which many Russians have long relied and without which their political and economic life is likely to remain in turmoil This will be an important work for scholars and students of social and political philosophy international relations comparative politics and economics *Rebellious Feminism* E. Bartlett, 2004-01-16 In what might seem an unusual pairing Bartlett brings together the insights of Albert Camus and feminist thought and in doing so sheds new light on both Looking through a Camusian lens Bartlett reveals a rebellious feminism that simultaneously refuses oppression and affirms human dignity in solidarity with concrete diverse others and the earth giving us new insights into this life affirming ethic **Are Liberty and Equality Compatible?** Jan Narveson, James P. Sterba, 2010-04-22 Are the political ideals of liberty and equality compatible This question is of central and continuing importance in political philosophy moral philosophy and welfare economics In this book two distinguished philosophers take up the debate Jan Narveson argues that a political ideal of negative liberty is incompatible with any substantive ideal of equality while James P Sterba argues that Narveson's own ideal of negative liberty is compatible and in fact leads to the requirements of a substantive ideal of equality Of course they cannot both be right Thus the details of their arguments about the political ideal of negative liberty and its requirements will determine which of them is right Engagingly and accessibly written their debate will be of value to all who are interested in the central issue of what are the practical requirements of a political ideal of liberty *The Modernist-postmodernist Quarrel on Philosophy and Justice* Manuel P. Arriaga, 2006-01-01 This book examines the social relevance of philosophy as this problem is posed in the contemporary Modernism Postmodernism debate Manuel P Arriaga critically investigates the two sides of the debate in their various presuppositions and their equally diverse ramifications in fields ranging from political theory philosophy of religion and theory of knowledge among others Making use of the problematic of social justice as touchstone in threshing out the issue and aided particularly by the thought of Emmanuel Levinas Arriaga then presents a view of the social relevance of philosophy that incorporates the good points of the opposing camps of the debate The Modernist Postmodernist Quarrel on Philosophy and Justice will interest anyone wishing to ask about the social relevance of what philosophers do Disciplines as Frameworks for Student Learning Tim Riordan, James Roth, 2023-07-03 What should students be able to do and how should they be able to think as a result of study in a discipline What does learning in the disciplines look like at different developmental levels How does one go about designing such learning and assessment in the disciplines What institutional structures and processes can assist faculty to engage and teach their disciplines as frameworks for student learning Creating ways to make a discipline come alive for those who are not experts even for students who may not take more than one or two courses in the disciplines they study requires rigorous thought about what really matters in a field and how to engage students in the practice of it Faculty from Alverno College

representing a range of liberal arts disciplines chemistry economics history literature mathematics and philosophy here reflect on what it has meant for them to approach their disciplines as frameworks for student learning They present the intellectual biographies of their explorations the insights they have gained and examples of the practices they have adopted The authors all demonstrate how the ways of thinking they have identified as significant for their students in their respective disciplines have affected the way they design learning experiences and assessments They show how they have shaped their teaching around the ways of thinking they want their students to develop within and across their disciplines and what that means in terms of designing assessments that require students to demonstrate their thinking and understanding through application and use This book will appeal to faculty interested in going beyond mere techniques to a more substantive analysis of how their view of their respective disciplines might change when seen through the lens of student learning It will also serve the needs of graduate students trainers of Tas and anyone engaged in faculty development or interested in the scholarship of teaching

**A Social Justice Approach to Survey Design and Analysis** Llewellyn Joseph Cornelius, Donna Harrington, 2014 This book provides a framework of researchers to both engage in social justice research as well as to evolve as social justice practioners back cover

**The Anatomy of Ethical Leadership** Lyse Langlois, 2011 Maximizing productivity without regard for human consequences the quest for profit above all else the stifling of individual personality and creative expression a competitive atmosphere these are the reigning features of the modern workplace Although many writers have called attention to the debilitating effects of this dehumanization of the working environment solutions have been less in evidence In *The Anatomy of Ethical Leadership* Lyse Langlois frames the problem in terms of ethics pointing to the fact that managers are often uncertain how to integrate ethical considerations into their process of decision making She explores the instrumental often highly legalistic patterns of thought that pervade modern organizations and proposes instead a new emphasis on dialogue and on modes of reasoning that make room for the complexity of ordinary reality To that end she outlines a trajectory for ethical responsible and authentic decision making the TERA model that managers

**Self-management and the Crisis of Socialism** Michael Wayne Howard, 2000 While some conclude from the revolutions of 1989 that socialism is dead interest in socialism continues because of persisting problems of contemporary capitalism In this exciting text Michael W Howard offers critiques of liberal communitarian postmodern and some Marxist perspectives in order to develop a left liberal defense of a model of self managed market socialism that includes a basic income for all Specific applications of his view include analyses of its implications for the global marketplace the changing nature of workplaces and media restructuring and ownership This work is sure to be of interest to social scientists public policy makers and economists as well as to feminists ecologists and others concerned with how market socialism is relevant to their social issues

*Gramsci, Materialism, and Philosophy* Esteve Morera, 2014-03-21 Western critical theory Marxism included has largely been based on a view of historical materialism that Gramsci among others developed in his prison

notebooks For many Gramsci's philosophical reflections in prison offered a new foundation for the philosophy of the future His reflections on the philosophy of praxis and absolute historicism find echoes in much of what today is considered to be a materialist philosophy That form of materialism was unable to provide a sound foundation for a progressive social project the possibility of a meaningful and creative ethical life and the forms of activity or praxis that would be conducive to creating good society In this book Esteve Morera connects Marxist philosophy to the broader philosophical discussion of materialism in metaphysics the philosophy science philosophy of mind and naturalised ethics Each chapter deals with a particular aspect related to materialism and its consequences the sorts of things that if materialism is true need to be confronted Morera critiques and rejects Gramsci's conception of matter and materialism and concludes that that philosophical materialism is compatible with freedom and as a consequence offers a good foundation for ethical life Gramsci Materialism and Philosophy is an original contribution to the philosophically vital debates around the meaning limitations implications and possibilities of philosophical materialism as it is a contribution to the critical literature on Gramsci Moral Understandings Margaret Urban Walker, 2007-09-13 This is a revised edition of Walker's well known book in feminist ethics first published in 1997 Walker's book proposes a view of morality and an approach to ethical theory which uses the critical insights of feminism and race theory to rethink the epistemological and moral position of the ethical theorist and how moral theory is inescapably shaped by culture and history The main gist of her book is that morality is embodied in practices of responsibility that express our identities values and connections to others in socially patterned ways Thus ethical theory needs to be empirically informed and politically critical to avoid reiterating forms of socially entrenched bias Responsible ethical theory should reveal and question the moral significance of social differences The book engages with and challenges the work of contemporary analytic philosophers in ethics Moral Understandings has been influential in reaching a global audience in ethics and feminist philosophy as well as in tangential fields like nursing ethics research ethics disability ethics environmental ethics and social and political theory This revised edition contains a new preface a substantive postscript to Chapter 1 about the subject of moral philosophy the addition of a new chapter on the importance of emotion in practices of responsibility and the addition of an afterword which responds to critics of the book **What is Mission?** J. Andrew Kirk, How should today's Church shape its response to the Gospel How can we set about making disciples of all nations in our post Christian multifaith world What does mission mean in our times Here is a book that addresses these issues and many more with honesty and openness It strips mission of its old associations with colonialism and militarism It looks anew at the underlying theology reminding us that our task is God's mission not a human construct It explores key aspects of contemporary mission from the familiar such as the relation of mission to evangelism and to people of other faiths to the unusual and thought provoking such as mission and the environment justice for the poor and the overcoming of violence Students of mission and Christians who wish to engage with today's world to integrate faith and life will find here an inclusive comprehensive and lucid presentation of all
