## **Morality Of Power:**

Love and Power Michael J. Perry, 1991 Annotation In this sequel to his *Morality Politics and Law* Michael Perry addresses the proper relation of moral convictions to the politics of a morally pluralistic society While his analysis focuses on religious morality Perry's argument applies to morality generally Contending that no justification of a contested political choice can be neutral among competing conceptions of human good the author develops an ideal of ecumenical politics in which moral convictions about human good can be brought to bear in a productive way in political argument

**Media Inequality** Victoria Fielding, 2024-09-04 News media notionally underpins a vibrant and diverse democracy by representing political industrial and social conflict to mass audiences Yet few studies measure how equitably journalists frame public contestation Despite framing theory's extensive use in media and communication scholarship little is known about how frames are created and disseminated how frames are built to explain how and why journalists frame news the way they do Media Inequality proposes that frame building occurs through a two step process of frame adoption and replication This two step frame building process is explored by identifying the newspaper master narratives used in five historical industrial dispute case studies These master narratives are then mapped to public narratives used by unionised firefighters and their employer in the Australian case of the 2016 Victorian Country Fire Authority industrial dispute By theorising about the causes of journalists inequitable framing of contested narratives Media Inequality tells the story of unconscious structural media bias interrogates the power of news media to reinforce dominant frames offers valuable theoretical perspectives about the influence of media power on the accumulation of power in society and provides lessons for groups communicating in competitive contexts Media Inequality is thus valuable to scholars academics and research students in the fields of journalism communication and media particularly scholars interested in how journalists represent political industrial and social contestation

... To which is added an ode, etc John Abraham HERAUD,1837      **The Moral Power of the Press a Deathblow to Evil! Opinions of the Press on Remarks on Evil, by L. J. H., Especially Touching an Evil to be Complained Of, Videlicet, The Hurtful Prostitution of Mankind-the Seduction of Women, Etc** Luke James HANSARD,1845      The Spirit of Power as Seen in the Christian Church of the Second Century Ernest Arthur Edghill,1910      *The Moral Power of the Sanctuary* David T. KIMBALL,1847      *Ethics* J. Elliot Ross,2022-10-18 The book contains a systematical investigation of the ethics from a scholastic standpoint It begins by examining the fundamental theory of action After that the author develops the conceptions of duty and laws as concrete duties Finally the book examines social ethics as embracing all the rights and duties of men in their relations with other men both as individuals and as groups either in the family or in the state The author offers a very comprehensible text that can be read with profit by undergraduates      Handbook of the Sociology of Morality, Volume 2 Steven Hitlin,Shai M. Dromi,Aliza Luft,2023-10-25 This handbook articulates how sociology can re engage its roots as the scientific study of human moral systems actions and interpretation This second volume builds on the successful original volume published in 2010 which contributed to the initiation of a new section of the American Sociological Association ASA thus growing the field This volume takes sociology back to its roots over a century ago when morality was a central topic of work and governance It engages scholars from across subfields in sociology representing each section of the ASA who each contribute a chapter on how their subfield connects to research on morality This reference work appeals to broader readership than was envisaged for the first volume as the relationship between sociology as a discipline and its origins in questions of morality is further renewed The volume editors focus on three areas the current state of the sociology of morality across a range of sociological subfields taking a new look at some of the issues discussed in the first handbook which are now relevant in sometimes completely new contexts and reflecting on where the sociology of morality should go next This is a must read reference for students and scholars interested in topics of morality ethics altruism religion and spirituality from across the social science      *Culture and Morality: Things We Value* Michael Shengtao Wu,Christine Ma-Kellams,Tian Xie,Yanyan Zhang,Yingnan Zhao,2025-03-20 Morality refers to a set of values relating to right conduct against which behavior is judged to be acceptable or unacceptable It is a form of social norms that guides human behaviors Morality forms a fundamental part of our culture but there is a great range of variation in moral standards and the things we value in each given culture Behavior that is completely normal to Westerners such as choosing a job or partner at one s individual will could be considered immoral in other cultures People are rewarded with money and reputations if they exhibit moral actions approved by cultural expectations and are punished by sanctions for moral violations We also attribute positive feedback to people we consider moral e g empathetic filial and negative feedback to those we consider immoral untrustworthy disgusting Thus it is important to study the psychological antecedents processes and outcomes of morality      Visions of Power in Cuba Lillian Guerra,2012-10-15 In the tumultuous first decade of the Cuban Revolution Fidel Castro

and other leaders saturated the media with altruistic images of themselves in a campaign to win the hearts of Cuba's six million citizens. In *Visions of Power in Cuba*, Lillian Guerra argues that these visual representations explained rapidly occurring events and encouraged radical change and mutual self sacrifice. Mass rallies and labor mobilizations of unprecedented scale produced tangible evidence of what Fidel Castro called unanimous support for a revolution whose moral power defied U.S. control. Yet participation in state orchestrated spectacles quickly became a requirement for political inclusion in a new Cuba that policed most forms of dissent. Devoted revolutionaries who resisted disastrous economic policies exposed post 1959 racism and challenged gender norms set by Cuba's one party state increasingly found themselves marginalized, silenced or jailed. Using previously unexplored sources, Guerra focuses on the lived experiences of citizens including peasants, intellectuals, former prostitutes, black activists and filmmakers as they struggled to author their own scripts of revolution by resisting repression, defying state imposed boundaries and working for anti imperial redemption in a truly free Cuba.

Leadership and the Rise of Great Powers Xuetong Yan, 2020-12-22. A leading foreign policy thinker uses Chinese political theory to explain why some powers rise as others decline and what this means for the international order. Why has China grown increasingly important in the world arena while lagging behind the United States and its allies across certain sectors? Using the lens of classical Chinese political theory, *Leadership and the Rise of Great Powers* explains China's expanding influence by presenting a moral realist theory that attributes the rise and fall of great powers to political leadership. Yan Xuetong shows that the stronger a rising state's political leadership, the more likely it is to displace a prevailing state in the international system. Yan shows how rising states like China transform the international order by reshaping power distribution and norms, and he considers America's relative decline in international stature even as its economy, education system, military, political institutions and technology hold steady. *Leadership and the Rise of Great Powers* offers a provocative alternative perspective on the changing dominance of states. *Harper's New Monthly Magazine*, 1858. Important American periodical dating back to 1850.

*The Political Economy of a Plural World* Robert W. Cox, Michael G. Schechter, 2002. Building on his seminal contributions to the field, Robert W. Cox engages with the major themes that have characterized his work over the past three decades and the main topics which affect the globalized world at the start of the twentieth century. This new volume by one of the world's leading critical thinkers in international political economy addresses such core issues as global civil society, power and knowledge, the covert world, multilateralism and civilizations and world order. With an introductory essay by Michael Schechter which addresses current critiques of Coxian theory, the author enters into a stimulating dialogue with critics of his work. Timely, provocative and original, this book is a major contribution to international political economy and is essential reading for all students and academics in the field.
