Morality Reason Power American Diplomacy In The Carter Years:

Morality, Reason, and Power Gaddis Smith, 1990 *The Carter Presidency* John Dumbrell, 1995 With its associated images of the Iranian hostage crisis the presidency of Jimmy Carter from 1977 to 1981 is often regarded as a nadir in modern American national leadership In this re evaluation John Dumbrell looks at Carter s years in the White House from a post cold war perspective and argues that Carter was neither incompetent nor lacking in a compassionate vision **The Carter Presidency** Gary M. Fink, Hugh Davis Graham, 1998 After the Nixon and Ford administrations liberal Democrats hoped Jimmy Carter s election in 1976 would restore the New Deal agenda in the White House Instead during four tumultuous years in office Carter endorsed many of the fiscal and economic policies later espoused by his Republican successor Ronald Reagan But Carter also backed most New Deal social programs and however reluctantly pursued a traditional containment foreign policy In this book more than a dozen eminent scholars provide a balanced overview of key elements of Carter s presidency examining the significance of his administration within the context of evolving American policy choices after World War II They seek not only to understand the troubled Carter presidency but also to identify the changes that precipitated and accompanied the demise of the New Deal order By the time Carter took office many Americans had become disenchanted with big government and welfare spending and his presidency is viewed in these pages as a transitional administration As this volume demonstrates Carter s dilemma emerged from his effort to steer a course between traditional expectations of federal government and new political and economic realities While most of the contributors agree that his administration may be justly criticized for failing to find that course they generally conclude that Carter was more successful than his critics acknowledge These thirteen original essays cover such topics as the economy trade and industrial policies welfare reform energy environment civil rights feminism and foreign policy They offer thoughtful assessments of Carter s performance focusing on policy both as cause and effect of the post industrial transformation of American society that shadowed his administration A final essay shows how Carter s public spirited post presidential career has made him one of America s greatest ex presidents Grounded on research conducted at the Carter Library *The Carter Presidency* is an incisive reassessment of an isolated Democratic administration from the vantage point of twenty years It is a milestone in the historical appraisal of that administration inviting us to take a new look at Jimmy Carter and see what his presidency represented for a dramatically changing America **The American Ascendancy** Michael H. Hunt, 2007-04-10 A simple question lurks amid the considerable controversy created by recent U S policy what road did Americans travel to reach their current global preeminence Taking the long historical view Michael Hunt demonstrates that wealth confidence and leadership were key elements to America s ascent In an analytic narrative that illuminates the past rather than indulges in political triumphalism he provides crucial insights into the country s problematic place in the world today Hunt charts America s rise to global power from the nineteenth and early twentieth centuries to a culminating multilayered dominance

achieved in the mid twentieth century that has led to unanticipated constraints and perplexities over the last several decades Themes that figure prominently in his account include the rise of the American state and a nationalist ideology and the domestic effects and international spread of consumer society He examines how the United States remade great power relations fashioned limits for the third world and shaped our current international economic and cultural order Hunt concludes by addressing current issues such as how durable American power really is and what options remain for America s future His provocative exploration will engage anyone concerned about the fate of our republic

International Relations Since 1945 John W. Young, John Kent, 2020 This textbook provides description and analysis of the Cold War and its aftermath It covers the period from all angles with focus on regional developments as well as global interactions and also gives due consideration to economic and strategic issues

Ethics For A Shrinking World Gerard Elfstrom, 1990-01-29

The Dove and the Eagle Roberto Fornasier, 2013-01-03 This book represents research conducted over a two year period on the politico diplomatic relations between Italy and the United States in the mid Sixties and Seventies Based on conspicuous archival materials from Italian American and British sources and on a great amount of secondary literature it traces an accurate panorama of the Italian political social and diplomatic developments from the student and worker protests of 1968 to the killing of Aldo Moro in 1978 from the behind the scenes bargains between parties to the fear of the Communist Party s growth during the Premiership of the conservative Christian Democrat Mariano Rumor 1915 1990 The volume includes an innovative comparison between Rumor s basic choices of foreign policy and those of the duo Nixon and Kissinger From here arises the book s title where the dove is represented by Rumor a fervent Catholic a firm anti Communist a reliable Atlantist and an indefatigable Europeanist while the eagle is embodied by the Republican Administrations of Richard Nixon and Gerald Ford

The Wilsonian Century Frank Ninkovich, 1999 For most of this century American foreign policy was guided by a set of assumptions that were formulated during World War I by President Woodrow Wilson In this incisive reexamination Frank Ninkovich argues that the Wilsonian outlook far from being a crusading idealistic doctrine was reactive practical and grounded in fear Wilson and his successors believed it absolutely essential to guard against world war or global domination with the underlying aim of safeguarding and nurturing political harmony and commercial cooperation among the great powers As the world entered a period of unprecedented turbulence Wilsonianism became a crisis internationalism dedicated to preserving the benign vision of normal internationalism with which the United States entered the twentieth century In the process of describing Wilson s legacy Ninkovich reinterprets most of the twentieth century s main foreign policy developments He views the 1920s for example not as an isolationist period but as a reversion to Taft s Dollar Diplomacy The Cold War with its faraway military interventions illustrates Wilsonian America s preoccupation with achieving a cohesive world opinion and its abandonment of traditional regional conceptions of national interest The Wilsonian Century offers a striking alternative to traditional interest based interpretations of U S foreign policy In revising the usual view of Wilson s

contribution Ninkovich shows the extraordinary degree to which Wilsonian ideas guided American policy through a century of conflict and tension

The Influence of Small States on Superpowers Richard L. Bernal, 2015-07-22 The conventional wisdom is that small developing countries exert limited if any influence on the foreign policy of superpowers in particular the United States This book challenges that premise based on the experience of the small developing country of Jamaica and its relations with the United States It raises the question if the foreign policy of the United States can be influenced by even a small developing country should Washington be worried

From Colony to Superpower George C. Herring, 2008-10-28 The newest volume in the prestigious Oxford History of the United States From Colony to Superpower provides a sweeping account of United States foreign relations and diplomacy in a magisterial account of America's interaction with other peoples and nations of the world Herring tells a story of stunning successes and sometimes tragic failures captured in a fast paced narrative that illuminates the central importance of foreign relations to the existence and survival of the nation and highlights its ongoing impact on the lives of ordinary citizens And Herring does all this in a story rich in human drama and filled with epic events

The History of American Foreign Policy from 1895 Jerald A Combs, 2015-02-12 This important text offers a clear concise and affordable narrative and analytical history of American foreign policy since the Spanish American War The book narrates events and policies but goes further to emphasize the international setting and constraints within which American policy makers had to operate the domestic pressures on those policy makers and the ideologies preferences and personal idiosyncrasies of the leaders themselves

The British Presidency Michael Foley, 2000 The Premiership of Tony Blair has not only reaffirmed previous trends towards leader centered parties and governments it has provided a decisive change in the development of a British presidency The strategies and techniques designed to secure and expand Blair's public outreach together with the priority attached to the prime minister's personal pledges and individual vision have propelled the office into new dimensions of independence Michael Foley argues that the ascendancy of Blair is not an aberration but rather a culmination of trends that have established vigorous leadership as a key criterion of political evaluation and governing competence This edition is completely up to date including the first convincing analysis of Tony Blair's leadership style

Encyclopedia of the Cold War Ruud van Dijk, William Glenn Gray, Svetlana Savranskaya, Jeremi Suri, Qiang Zhai, 2013-05-13 Between 1945 and 1991 tension between the USA its allies and a group of nations led by the USSR dominated world politics This period was called the Cold War a conflict that stopped short to a full blown war Benefiting from the recent research of newly open archives the Encyclopedia of the Cold War discusses how this state of perpetual tensions arose developed and was resolved This work examines the military economic diplomatic and political evolution of the conflict as well as its impact on the different regions and cultures of the world Using a unique geopolitical approach that will present Russian perspectives and others the work covers all aspects of the Cold War from communism to nuclear escalation and from UFOs to red diaper babies highlighting its vast ranging and lasting impact on international

relations as well as on daily life Although the work will focus on the 1945 1991 period it will explore the roots of the conflict starting with the formation of the Soviet state and its legacy to the present day United States Relations with China and Iran Osamah F. Khalil,2019-07-11 Bringing together experts from history international relations and the social sciences United States Relations with China and Iran examines the past present and future of U S foreign relations toward the People s Republic of China and the Islamic Republic of Iran It benefits from recently declassified documents and an interdisciplinary transnational approach to explore different aspects of the relations between these three countries While the 20th century has been referred to as the American Century this book posits that the 21st century will be shaped by relations between the United States and key countries in Asia in particular China and Iran In assessing the United States foreign policy towards China and Iran over the past six decades the chapters focus on several key themes interaction normalization and confrontation The book provides an insight into how and why Washington has developed and implemented its policies toward Beijing and Tehran and examines how China and Iran have developed policies toward the United States and internationally Finally it draws on the insights of leading scholars discussing the future of relations between Beijing and Tehran This interdisciplinary book brings a unique perspective to the international relations of the 20th century and beyond and will benefit students and scholars of U S foreign relations as well as Middle Eastern and East Asian history and politics

Intending the World Ralph Pettman,2008-03-15 How we look at the world is informed mainly by our assumptions and the ways in which we rationalise them Seldom do we rely or allow ourselves to rely on gut thinking or intuition Intending the World shows how rationalism which is our primary approach in thinking about world affairs is in crisis By studying the world rationalistically we objectify it and we look at it as detached from ourselves But in doing so we cease to see that we are using a perspective that limits as well as enlightens In a disciplinary first Ralph Pettman provides an account of twenty first century international relations in terms of phenomenology one of the main philosophical attempts to compensate for these limits He explores how this re embedded use of reason can successfully describe and explain world affairs in ways unused by rationalists Intending the World follows the lead of the German philosopher Edmund Husserl It looks at the world not only in terms of things in themselves but also in terms of why it is we keep willing the world the way we do **The Columbia**

Guide to the Cold War Michael Kort,2001-03-08 The Cold War was the longest conflict in American history and the defining event of the second half of the twentieth century Since its recent and abrupt cessation we have only begun to measure the effects of the Cold War on American Soviet post Soviet and international military strategy economics domestic policy and popular culture The Columbia Guide to the Cold War is the first in a series of guides to American history and culture that will offer a wealth of interpretive information in different formats to students scholars and general readers alike This reference contains narrative essays on key events and issues and also features an A to Z encyclopedia a concise chronology and an annotated resource section listing books articles films novels web sites and CD ROMs on Cold War themes *Knowing the*

Adversary Keren Yarhi-Milo, 2014-07-21 States are more likely to engage in risky and destabilizing actions such as military buildups and preemptive strikes if they believe their adversaries pose a tangible threat Yet despite the crucial importance of this issue we don't know enough about how states and their leaders draw inferences about their adversaries long term intentions Knowing the Adversary draws on a wealth of historical archival evidence to shed new light on how world leaders and intelligence organizations actually make these assessments Keren Yarhi Milo examines three cases Britain's assessments of Nazi Germany's intentions in the 1930s America's assessments of the Soviet Union's intentions during the Carter administration and the Reagan administration's assessments of Soviet intentions near the end of the Cold War She advances a new theoretical framework called selective attention that emphasizes organizational dynamics personal diplomatic interactions and cognitive and affective factors Yarhi Milo finds that decision makers don't pay as much attention to those aspects of state behavior that major theories of international politics claim they do Instead they tend to determine the intentions of adversaries on the basis of preexisting beliefs theories and personal impressions Yarhi Milo also shows how intelligence organizations rely on very different indicators than decision makers focusing more on changes in the military capabilities of adversaries Knowing the Adversary provides a clearer picture of the historical validity of existing theories and broadens our understanding of the important role that diplomacy plays in international security *American Negotiating Behavior* Richard H. Solomon, Nigel Quinney, 2010 Informed by discussions and interviews with more than fifty seasoned foreign and American negotiators this landmark study offers a rich and detailed portrait of the negotiating practices of American officials Including contributions by eleven international experts it assesses the multiple influences cultural institutional historical and political that shape how American policymakers and diplomats approach negotiations with foreign counterparts and highlights behavioral patterns that transcend the actions of individual negotiators and administrations

The Post-Heroic Presidency Michael A. Genovese, Todd L. Belt, 2016-06-13 This book examines how presidents from Nixon to Obama have faced the challenges of global leadership in a dramatically changing world one with more limited resources and an increasing number of threatening challengers The immediate post World War II era was undeniably a period of American power and influence Even during the Cold War the United States was the leader of the West exerting wide ranging power internationally But beginning with the Vietnam War America began experiencing a series of setbacks and challenges to its power The Post Heroic Presidency Leveraged Leadership in an Age of Limits examines how U S presidents have attempted to reverse or contend with this new era of limited power in which presidential leadership is hamstrung due to an increasingly globalized and interdependent world one where power is more diffuse and the system of checks and balances bind a president in an age of hyper partisanship The book examines presidents of the 20th and 21st centuries explaining how the first U S president to confront this new age was Richard Nixon who along with Henry Kissinger developed a sophisticated approach to deal with the recalibration of American power It documents how other recent presidents have either tried to

make peace with limited power Jimmy Carter reverse the decline Ronald Reagan ignore the implications of limits George W Bush or find ways to lead that were less ambitious more prudent and less unilateral George H W Bush Bill Clinton and Barack Obama In the cases of Clinton and Obama this shift to using soft power persuasion and multilateralism earned them criticism that they are weak thereby undermining their efforts to lead both at home and abroad History of American Foreign Policy, Volume 2 Jerald A Combs, 2017-07-28 First Published in 2017 Now thoroughly updated this respected text provides a clear concise and affordable narrative and analytical history of American foreign policy from the revolutionary period to the present This is Volume II and is from 1895 The historiographical essays at the end of each chapter have been revised to reflect the most recent scholarship The History of American Foreign Policy chronicles events and policies with emphasis on the international setting and constraints within which American policy makers had to operate the domestic pressures on those policy makers and the ideologies preferences and personal idiosyncrasies of the leaders themselves

Unveiling the Magic of Words: A Report on "**Morality Reason Power American Diplomacy In The Carter Years**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance.
