[Illustrated.]** Christoph von Fürer-Haimendorf,1967      **Morals and Merit** William Fraser Connell,1967      *Encompassing a Fractal World* Gil Daryn,2006-01-01 Encompassing a Fractal World presents a groundbreaking innovative paradigm which opens up new perspectives for understanding and analyzing Hindu life and culture In particular it has crucial implications for the understanding of Hindu cosmology ritual architecture kinship social relationships and agriculture as well as modern anthropological theories of ritual action and agency Gil Daryn s main thrust is not that the fractal concept may neatly bring together much of what has been written about Hindu culture but instead it argues the case for an additional and gendered fractal dimension Encompassing a Fractal World is exceptional in scope drawing from an extensive set of comparative materials ranging from Vedic cosmogonies and sacrifice through Puranic mythology to contemporary ethnographic accounts from Nepal and India This book is an interdisciplinary comparative work which attempts to connect the dots moving beyond isolated local village based studies in order to bridge the gulf between anthropology and Hindu studies      **Vernacular Politics in Northeast India** Jelle J. P. Wouters,2022 Nowhere in India is contemporary politics and visions of the political as diverse animated uncontainable and poorly understood as in Northeast India Approaching politics in the vernacular this book thinks itself afresh into the region s political life      **The Cult of Pure Crystal Mountain** Toni Huber,1999-03-18 The Tibetan district of Tsari with its sacred snow covered peak of Pure Crystal Mountain has long been a place of symbolic and ritual significance for Tibetan peoples In this book Toni Huber provides the first thorough study of a major Tibetan Buddhist pilgrimage center and cult mountain and explores the esoteric and popular traditions of ritual there The main focus is on the period of the 1940s and 50s just prior to the 1959 Lhasa uprising and subsequent Tibetan diaspora into South Asia Huber s work thus documents Tibetan life patterns and cultural traditions which have largely disappeared with the advent of Chinese colonial modernity in Tibet In addition to the work s documentary content Huber offers discussion and analysis of the construction and meaning of Tibetan cultural categories of space place and person and the practice of ritual and organization of traditional society in relation to them      *Community, Anarchy and Liberty* Michael Taylor,1982-09-09 Author argues for a viable and stable form of anarchic or stateless society relying crucially on a form of community He examines existing anarchic or semi anarchic societies to show that it is possible to maintain ideals in a communitarian anarchy      **The Social Structure of Right and Wrong** Donald Black,2014-05-10 The Social Structure of Right and Wrong focuses on formulations that predict and explain the nature of social control throughout the world and across history The publication first offers information on social control as a dependent variable crime as a social control and compensation and the social structure of misfortune Discussions focus on the theory of compensation traditional self help concept of social control varieties of normative behavior models of social control and quantity of normative variation The text then elaborates on social control of

Paul Russell,Michael McKenna,2016-04-22 The philosophical debate about free will and responsibility has been of great importance throughout the history of philosophy In modern times this debate has received an enormous resurgence of interest and the contribution in 1962 by P F Strawson with the publication of his essay Freedom and Resentment has generated a wide range of discussion and criticism in the philosophical community and beyond The debate is of central importance to recent developments in the free will literature and has shaped the way contemporary philosophers now approach the problem This volume brings together a focused selection of the major contributions and reactions to the free will and responsibility debate inspired by Strawson s contribution McKenna and Russell also provide a comprehensive overview of the debate This book will be of great value to scholars of Strawson and those interested in the free will debate more generally     **Macroevolution in Human Prehistory** Anna Prentiss,Ian Kuijt,James C. Chatters,2009-09-18 Cultural

evolution much like general evolution works from the assumption that cultures are descendent from much earlier ancestors Human culture manifests itself in forms ranging from the small bands of hunters through intermediate scale complex hunter gatherers and farmers to the high density urban settlements and complex polities that characterize much of today s world The chapters in the volume examine the dynamic interaction between the micro and macro scales of cultural evolution developing a theoretical approach to the archaeological record that has been termed evolutionary processual archaeology The contributions in this volume integrate positive elements of both evolutionary and processualist schools of thought The approach as explicated by the contributors in this work offers novel insights into topics that include the emergence stasis collapse and extinction of cultural patterns and development of social inequalities Consequently these contributions form a stepping off point for a significant new range of cultural evolutionary studies     **War in Ecological Perspective** Andrew

Vayda,2012-12-06 This book deals with war in three Oceanian societies More specifi cally it analyzes the following the process of war in relation to population pressure among New Guinea s Maring people extension and contraction in the headhunting activities of the Iban people of Sarawak during the nineteenth century and the disruption resulting from the introduction of muskets in the warfare of the Maoris of New Zealand In all of the analyses I have viewed war as a process rather than simply as something that either does or does not occur and I have tried to see how the process relates to environmental problems or perturbations actually faced by people The use of such an approach can I believe lead to important understandings about war and more generally about how people respond to environmental problems A goal in this

book is to show that this is so Although it is only relatively recently that the significance of viewing war as a process became clear to me my interest in war in relation to environmental and demographic phenomena is of long vii viii Preface standing The beginning of the studies resulting in the present book can in fact be said to date back to the mid 1950s when I was in New Zealand to do library research for my Ph D dissertation on Maori warfare *Morality as a Biological Phenomenon* Gunther Siegmund Stent,1980-01-01 Proceedings of the Ninth Seminar of the IATS, 2000. Volume 9: Territory and Identity in Tibet and the Himalayas Katia Buffetrille,Hildegard Diemberger,2021-11-01 Which places does Tibet include Are people Tibetan merely because of living in those places Territory and Identity are notions that are widely present in academic and popular discourses on Tibet In 1992 a group of French and Austrian researchers who had studied some of the mountain deities and sacred landscapes of Tibet began meeting to discuss the links between territory and identity in Tibetan culture Eight years later an interdisciplinary group of scholars met in Leiden in Holland to consider these questions in more detail This book contains some of their findings based on case studies carried out across the Tibetan and Himalayan regions The authors look at the role of local deities kinship economy politics and administration using approaches from across the social sciences to try to work out how a community constructs and reconstructs its idea of itself and how its members think about and are affected by the land on which they were reared Handbook on Evolution and Society Alexandra Maryanski,Richard Machalek,Jonathan H. Turner,2015-11-17 Handbook on Evolution and Society brings together original chapters by prominent scholars who have been instrumental in the revival of evolutionary theorizing and research in the social sciences over the last twenty five years Previously unpublished essays provide up to date critical surveys of recent research and key debates The contributors discuss early challenges posed by sociobiology the rise of evolutionary psychology the more conflicted response of evolutionary sociology to sociobiology and evolutionary psychology Chapters address the application and limitations of Darwinian ideas in the social sciences Prominent authors come from a variety of disciplines in ecology biology primatology psychology sociology and the humanities The most comprehensive resource available this vital collection demonstrates to scholars and students the new ways in which evolutionary approaches ultimately derived from biology are influencing the diverse social sciences and humanities Global Perception of Tribal Research in India Mahendra Lal Patel,2002 The Book Global Perception Of Tribal Research In India Is Edited Research Volume Containing Twelve Chapters On Various Research Themes Pertaining To Tribal People Of India Basically The Book Is A Joint Venture Of Both Indian Social Scientists Including Anthropologists And Ethnologist To Make A Research Volume Out Of A Dozen Of Research Papers On Tribal People And Their Various Problems They Also Provide Viable Propositions Towards Their Amelioration Social Psychology of Punishment of Crime Margit E. Oswald,Steffen Bieneck,Jorg Hupfeld-Heinemann,2015-06-15 In recent years research interest has increased both in the needs of punishment by the public and in the psychological processes underlying decisions on sentencing This comprehensive look at the social

psychology of punishment focuses on recent advances and presents new findings based on the authors own empirical research Chapters explore the application of social psychology and social cognitive theories to decision making in the context of punishments by judges and the punitiveness of laymen The book also highlights the different legal systems in the UK US and Europe discussing how attitudes to punishment can change in the context of cultural and social development

**Sacred Economies** Michael John Walsh,2010 Buddhist monasteries in medieval China employed a variety of practices to ensure their ascendancy and survival Most successful was the exchange of material goods for salvation as in the donation of land which allowed monks to spread their teachings throughout China By investigating a variety of socioeconomic spaces produced and perpetuated by Chinese monasteries Michael J Walsh reveals the sacred economies that shaped early Buddhism and its relationship with consumption and salvation Centering his study on Tiantong a Buddhist monastery that has thrived for close to seventeen centuries in southeast China Walsh follows three main topics the spaces monks produced within and around which a community could pursue a meaningful existence the social and economic avenues through which monasteries provided diverse sacred resources and secured the primacy of Buddhist teachings within an agrarian culture and the nature of transactive participation within monastic spaces which later became a fundamental component of a broader Chinese religiosity Unpacking these sacred economies and repositioning them within the history of religion in China Walsh encourages a different approach to the study of Chinese religion emphasizing the critical link between religious exchange and the production of material culture

**Louis Dumont and Hierarchical Opposition** Robert Parkin,2009-03 The work of Louis Dumont who died in 1998 on India and modern individualism represented certain theoretical advances on the earlier structuralism of Claude L vi Strauss One such advance is Dumont s idea of hierarchical opposition which he proposed as a truer representation of indigenous ideologies than L vi Strauss s binary opposition In this book the author argues that although structuralism is often thought to have gone out of fashion Dumont s greater concern with praxis and agency makes his own version of structuralism more contemporary The work of his followers and fellow travelers as well as his own indicates that hierarchical opposition is capable of taking structuralism in new and more realistic directions reminding us that it has never been the preserve of L vi Strauss alone
