Morals in Evolution, Vol. 2 L. T. Hobhouse, 2018-05-05 Excerpt from *Morals in Evolution Vol 2 A Study in Comparative Ethics* The spirit being thus materialized appears to enjoy an independent existence of its own Here we touch the central contradiction of Animism What at first appears as merely the animating principle of a material body turns out to be itself quasi substantial and capable of existence apart from that body We must not press Animism for a logical solution of the question how this can be for Animism remains Animism precisely because the difficulty has not been faced The soul of Animism is clearly a Conception formed to unify and in a manner Explain the visible functions and processes of the body It underlies the sensible and material and sets out to explain them But it turns out to be itself just such another visible and material thing only thinner and less palpable a mere double of the appearances which it should explain For the primitive mind cannot grasp an object of thought without transforming it into an object of sense It needs a principle connecting things that it can see or hear and by a confusion of categories it makes of it merely another thing that it can see and hear About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Morals in Evolution, Vol. 2 L. T. Hobhouse, 2015-06-05 Excerpt from *Morals in Evolution Vol 2 A Study in Comparative Ethics* 1 The history of law and custom gives us one aspect of ethical evolution It sets forth the standard of conduct or rather the standards recognized by different societies at different times But behind the question of the moral standard is that of the moral basis the grounds on which morality rests the spirit in which it is conceived For besides the question what kind of action is expected from us by our neighbours our rulers our spiritual pastors and masters moral philosophy has to recognize the further question how it is that these expectations arise On what grounds do rules of action rest what authority promulgates them and by what sanction are they enforced If it happens to be the interest of any individual to disobey them

what reason other than physical compulsion can be assigned for adhering to them What is the penalty of disobedience What if wrong is done are the means of reconciliation In other words behind the question of the moral standard there is the philosophical question of the nature of moral obligation of moral authority of the moral sanction or to use one expression for them all there is the question of the basis of the moral order About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
