Morals Of Revolt:

Islam, Ethics, Revolt Donald R. Wehrs, 2008-01-01 Rereading works by Camara Laye Cheikh Hamidou Kane Rachid Boudjedra Yambo Ouologuem Ahmadou Kourouma Mariama B and Assia Djebar this study explores the struggle to craft decolonized Islamic identities within sub Saharan and North African societies Linking the politics of these narratives to an Islamic piety rooted in ethical revolt against egotism and idolatry the study considers the agency of non Western values in postcolonial literature and the relationship between novelistic and prophetic discursive authority *The Ethics of Revolt* Greville MacDonald, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1907 edition Excerpt b THE CONTROL OF STRUCTURE IN VEGETABLE LIFE Biological lore is full of the transformation of structures to serve various purposes and this adaptability is seen more convincingly perhaps in vegetables than animals No better example can be found than in the various duties performed by the stipules of leaves those little winged appendages that are so often seen where the leaf springs from the main stem They are by no means always present and often appear to serve no particular purpose In the rose they look like little teeth In the beech the lime the elm they are represented by the brown scales that protect the young shoots and fall away as soon as the leaves have broken through them In the edible pea where most of the leaves change into tendrils wherewith to seize support from stronger neighbours the stipules become enormously enlarged so that they are actually more important than the leaves themselves in the plant s economy In the sweet pea they are not so big because the true leaves are relatively larger On the other hand in the red berried bryony the stipules become tendrils to climb into neighbouring hedges In the common dock and rhubarb they unite by both margins and form a tube that protects the young leaf In the hop the stipules of opposite leaves unite and split down their centre thus forming the brown scales that lie between the leaves Indeed we cannot by any means always understand the adaptations of structures especially when the only purpose served is that of symmetry and colour But for that matter it has yet to be shown that beauty is not a function in developmental needs and that mutual service between species is only in awakening the emotions of delight and wonder in Man is not a large factor in **Sartre and the Moral Limits of War and Terrorism** Jennifer Ang Mei Sze, 2010-01-31 Based on the latest debate on Jean Paul Sartre s works on ethics and politics this book examines the relevancy and importance Sartre holds for contemporary concerns the reactionary nature of terrorism the extremity of counter violence and limitations of democratization efforts in our post 9 11 era all claiming the name of freedom and liberation It presents a different version of the violent Sartre which was presented recently as militant and supportive of terrorism by critics who were concerned with the terrorist nature of his writings Sartre in this project is reconstructed as a philosopher who although gave importance to the notion of violence in his politics was actually more concerned with containing violent means within morally excusable limits He is presented as both a realist who understood the inevitability of dirty hands in political struggles

and also an absolutist against terrorism he considered wars that derailed from their purported ends of freedom as morally condemnable Arguing for the need for moral limitations to all violent struggles and the need for seeing others as ends for themselves this project outlines an existential response needed to help us reaffirm our moral compass through the invention of existential humanist ethics *Nietzsche and Jewish Culture* Jacob Golomb,2002-01-04 Friedrich Nietzsche occupies a contradictory position in the history of ideas he came up with the concept of a master race yet an eminent Jewish scholar like Martin Buber translated his Also sprach Zarathustra into Polish and remained in a lifelong intellectual dialogue with Nietzsche Sigmund Freud admired his intellectual courage and was not at all reluctant to admit that Nietzsche had anticipated many of his basic ideas This unique collection of essays explores the reciprocal relationship between Nietzsche and Jewish culture It is organized in two parts the first examines Nietzsche s attitudes towards Jews and Judaism the second Nietzsche s influence on Jewish intellectuals as diverse and as famous as Franz Kafka Martin Buber Franz Rosenzweig and Sigmund Freud Each carefully selected essay explores one aspect of Nietzsche s relation to Judaism and German intellectual history from Heinrich Heine to Nazism **Leadership by Resentment** Ruth Capriles,2012-01-01 What do such disparate events as Occupy Wall Street Iran s Islamic revolution and Venezuela s socialist revolution have in common Often resentment based on past grievances or shortcomings seems to emerge from the depths of individual and collective psyches over the course of such emotionally charged movements This resentment and the related philosophical concept of ressentiment can have a profound impact on the course of history and on the role of leadership within societies Expanding on the concept of ressentiment this book addresses the importance of emotions in historical events The author explores the conditions that foster the development of ressentiment the role of leaders and followers and the phases of the phenomenon as it encourages destructive behaviors such as murder and suicide Often considered an incurable disease with destructive social and political repercussions it is a core motive for acts of terrorism revolutions social upheavals and processes of toxic leadership The author puts forth a model that helps to describe certain historical processes led by ressentiment like some revolutions and terrorist acts and to distinguish them from other movements that are usually treated as similar e g independence revolutions The book then tackles a seemingly impossible question Can we find a cure for this powerful and destructive impulse With care and deliberation the author demonstrates the power of ethical leadership recognition and redemption as positive unifying forces during human conflicts A philosophical endeavor to understand events from the Boston Tea Party to Occupy Wall Street from the French revolution to Hugo Ch vez s revolution in Venezuela this book will be fascinating reading for scholars and students of the social sciences and humanities and those with a particular interest in leadership *Nietzsche, God, and the Jews* Weaver Santaniello,1994-01-01 Combining biography and a careful analysis of Nietzsche s writings from 1844 1900 this book explores Nietzsche s critique of Christianity Judaism and antisemitism The first part of the book is concerned with psychological aspects and biographical elements Part Two focuses on the ethical and political aspects of

Nietzsche's views as presented in his mature writings Thus Spoke Zarathustra Toward the Genealogy of Morals and the Antichrist Moral Adventure Burnett Hillman Streeter, 1929 *Christian Theism and Moral Philosophy* Michael D. Beaty, Carlton D. Fisher, Mark Nelson, 1998 These seminal essays will be of interest to scholars and students of religious ethics but also of interest to those of mainstream moral philosophy who work from a Christian worldview as well as to non-Christians with an interest in the relation between Christian theism and moral philosophy

Locating Values in Literature Corina-Mihaela Beleaua, 2020-10-14 Locating Values in Literature Goodness Beauty and Truth discusses the relevance of literature in the current educational process stating that regardless of the level of study literature provides students with the necessary skills to address real world situations Corina Mihaela Beleaua posits that a curriculum that includes literature has a multitude of benefits for the mental and ethical development of students defending the relevance of the three ancient values of goodness beauty and truth Beleaua argues that literature is a significant tool for endorsing these transcendentals and actualizing their positive potentials as humanistic and moral values acting as a symbolic manifestation of moral values that will impact readers outside of the scope of the literature itself Scholars of literature philosophy and education will find this book particularly useful

History as Past Ethics Philip Van Ness Myers, 1913

Ends and Principles in Kant's Moral Thought John E. Atwell, 1986-10-31 Immanuel Kant 1724-1804 stands among the greatest thinkers of the Western world There is hardly an area of thought at least of philosophical thought to which he did not make significant and lasting contributions Particularly noteworthy are his writings on the foundations and limits of human knowledge the bidimensional nature of perceptual or natural objects including human beings the basic principles and ends of morality the character of a just society and of a world at peace the movement and direction of human history the nature of beauty the end or purpose of all creation the proper education of young people the true conception of religion and on and on Though Kant was a life long resident of Konigsberg Prussia child student tutor and then professor of philosophy and other subjects his thought ranged over nearly all the world and even beyond Reports reveal that he a bachelor was an amiable man highly respected by his students and colleagues and even loved by his several close friends He was apparently a man of integrity both in his personal relations and in his pursuit of knowledge and truth Despite his somewhat pessimistic attitude toward the moral progress of mankind judging from past history and contemporary events he never wavered from a deep seated faith in the goodness of the human heart in man's splendid disposition toward the good

Nietzsche and Morality Brian Leiter, Neil Sinhababu, 2007-02-15 This volume capitalizes on a growth of interest in Nietzsche's work on morality from two sides from scholars of the history of philosophy and from contributors to current debates on ethical theory

Free Trade Vs. Protection Amasa Mason Eaton, 1913 *Faith, Hope and Clarity: A look at Biblical and Situation Ethics* Gordon Kainer, 2012-03-24

Truthfulness Morality Ethics Christians face fundamental questions regarding deep issues and everyday problems Are there

situations in life where obedience to God's law is not the most practical solution Is lying always wrong Situation ethics attempts to answer questions like these by affirming that doing the loving thing is a higher priority than obedience to God's law The author endeavors to show how disregard for divine law though seemingly attractive reasonable and practical is untenable The book reveals how a situationalist follows a misguided ego rather than an objective standard Whether we manipulate others to suit our own purposes lie to avoid embarrassment or commit a minor indiscretion it's just a quick fix something that only lasts for a season Discover how the eye of faith adheres to God's directives unblinded by sin's attractive glow it contemplates a lifetime it considers eternity

Fascism: The nature of fascism Roger Griffin, Matthew Feldman, 2004 The nature of fascism has been hotly contested by scholars since the term was first coined by Mussolini in 1919 However for the first time since Italian fascism appeared there is now a significant degree of consensus amongst scholars about how to approach the generic term namely as a revolutionary form of ultra nationalism Seen from this perspective all forms of fascism have three common features anticonservatism a myth of ethnic or national renewal and a conception of a nation in crisis This collection includes articles that show this new consensus which is inevitably contested as well as making available material which relates to aspects of fascism independently of any sort of consensus and also covering fascism of the inter and post war periods This is a comprehensive selection of texts reflecting both the extreme multi faceted nature of fascism as a phenomenon and the extraordinary divergence of interpretations of fascism Lux

Neuroexistentialism Gregg D. Caruso, Owen J. Flanagan, 2018 Existentialisms arise when the foundations of being such as meaning morals and purpose come under assault In the first wave of existentialism writings typified by Kierkegaard Dostoevsky and Nietzsche concerned the increasingly apparent inability of religion and religious tradition to support a foundation of being Second wave existentialism personified philosophically by Sartre Camus and de Beauvoir developed in response to similar realizations about the overly optimistic Enlightenment vision of reason and the common good The third wave of existentialism a new existentialism developed in response to advances in the neurosciences that threaten the last vestiges of an immaterial soul or self Given the increasing explanatory and therapeutic power of neuroscience the mind no longer stands apart from the world to serve as a foundation of meaning This produces foundational anxiety In Neuroexistentialism a group of contributors that includes some of the world's leading philosophers neuroscientists cognitive scientists and legal scholars explores the anxiety caused by third wave existentialism and possible responses to it Together these essays tackle our neuroexistentialist predicament and explore what the mind sciences can tell us about morality love emotion autonomy consciousness selfhood free will moral responsibility law the nature of criminal punishment meaning in life and purpose
