*Translingual Words* Jieun Kiaer,2018-12-07 *Translingual Words* is a detailed case study on lexical integration or mediation occurring between East Asian languages and English es In Part I specific examples from global linguistic corpora are used to discuss the issues involved in lexical interaction between East Asia and the English speaking world Part II explores the spread of East Asian words in English while Part III discusses English words which can be found in East Asian languages *Translingual Words* presents a novel approach on hybrid words by challenging the orthodox ideas on lexical borrowing and explaining the dynamic growth of new words based on translingualism and transculturalism

**Education Journal** ,1926      **The China Review, Or, Notes and Queries on the Far East** ,1877      *The China Review* ,1901

**Loanwords in the World's Languages** Martin Haspelmath,Uri Tadmor,2009 This landmark publication in comparative linguistics is the first comprehensive work to address the general issue of what kinds of words tend to be borrowed from other languages The authors have assembled a unique database of over 70 000 words from 40 languages from around the world 18 000 of which are loanwords This database allows the authors to make empirically founded generalizations about general tendencies of word exchange among languages Book Jacket      *Swimming to Freedom* Kent Wong,2021-04-27 When Kent Wong was a young boy his father a patriotic Chinese official in the customs office in Hong Kong joined an insurrection

at work and returned with the family to the newly established People's Republic of China. Hailed as heroes they settled in the southern city of Canton. But Mao's China was dangerous and unstable with landlords executed en masse and millions dying of starvation during the Great Leap Forward.

**The Sino-Tibetan Languages** Graham Thurgood, Randy J. LaPolla, 2016-12-08

There are more native speakers of Sino-Tibetan languages than of any other language family in the world. Our records of these languages are among the oldest for any human language and the amount of active research on them has multiplied in the last few decades. Now in its second edition and fully updated to include new research, *The Sino-Tibetan Languages* includes overview articles on individual languages with an emphasis on the less commonly described languages as well as descriptions and comments on the subgroups in which they occur. There are overviews of the whole family on genetic classification and language contact, syntax and morphology, and also on word order typology. There are also more detailed overview articles on the phonology, morphosyntax, and writing system of just the Sinitic side of the family. Supplementing these overviews are articles on Shanghaiese, Cantonese, and Mandarin dialects. Tibeto-Burman is reviewed by genetic or geographical sub-group with overview articles on some of the major groups and areas, and there are also detailed descriptions of 41 individual Tibeto-Burman languages written by world experts in the field. Designed for students and researchers of Asian languages, *The Sino-Tibetan Languages* is a detailed overview of the field. This book is invaluable to language students, experts requiring concise but thorough information on related languages, and researchers working in historical, typological, and comparative linguistics.

[History of Soybeans and Soyfoods in China and Taiwan, and in Chinese Cookbooks, Restaurants, and Chinese Work with Soyfoods Outside China \(1024 BCE to 2014\)](#) William Shurtleff, H.T. Huang, Akiko Aoyagi, 2014-06-22

[Language Planning in the Asia Pacific](#) Robert B. Kaplan, Richard B. Baldauf, 2013-12-16

This volume covers the language situation in Hong Kong, Timor-Leste, and Sri Lanka, explaining the linguistic diversity, the historical and political contexts, and the current language situation, including language in education, planning, the role of the media, the role of religion, and the roles of non-indigenous languages. Two of the authors are indigenous to the situations described, while the other has undertaken extensive field work and consulting there. The three monographs contained in this volume draw together the literature on each of the polities to present an overview of the research available about each of them, while providing new research-based information. The purpose of the volume is to provide an up-to-date overview of the language situation in each polity based on a series of key questions, in the hope that this might facilitate the development of a richer theory to guide language policy and planning in other polities where similar issues may arise. This book was published as special issues of *Current Issues in Language Planning*.

**Assessing Multilingual Children** Sharon Armon-Lotem, Jan de Jong, Natalia Meir, 2015-04-28

Second language learners often produce language forms resembling those of children with Specific Language Impairment (SLI). At present

professionals working in language assessment and education have only limited diagnostic instruments to distinguish language impaired migrant children from those who will eventually catch up with their monolingual peers This book presents a comprehensive set of tools for assessing the linguistic abilities of bilingual children It aims to disentangle effects of bilingualism from those of SLI making use of both models of bilingualism and models of language impairment The book's methods oriented focus will make it an essential handbook for practitioners who look for measures which could be adapted to a variety of languages in diverse communities as well as academic researchers

Although more people speak Chinese than any other language on Earth proficiency in Chinese is largely confined to the people who live in or adjacent to the Chinese Mainland and Taiwan and to the ethnic Chinese inhabitants of the various Chinatowns in countries around the world Despite its allure many people find Chinese a hard language to learn including a considerable number of children who learn it as mother tongue The basic units of written Chinese are ideographic symbols called characters and the meaning and pronunciation of each character is determined by the tone attached to it by the speaker Facing the very large number of Chinese characters and words it seems impossible for learners regardless of their native language to master the language other than via rote memorization The attempt to facilitate the route to proficiency in Chinese has understandably attracted the attention of numerous psycholinguistic researchers and educators Using the Theory of Variation as the primary learning framework the authors of this book conducted a number of large scale and robustly designed studies to investigate the relationship between the learning and teaching of Chinese mostly among native speakers However we believe that the results are applicable to the learning of Chinese as a second language Studies into ways of understanding the phonological and orthographical acquisition of characters are reported ways of helping learners come to terms with reading Chinese a textual language that does not always correspond word for word with the spoken discourse are explained and the implications of the evidence for Chinese curriculum and syllabus design are pointedly addressed by the contributors The authors believe that there are effective ways to become skilled in Chinese and that learning Chinese can be pleasurable and interesting They provide empirical evidence for educators parents policymakers and readers interested in Chinese language education They also illuminate the path to the mastery of Chinese in schools and how Chinese should be taught in today's world      [The Routledge Handbook of Language Contact](#) Evangelia Adamou, Yaron Matras, 2020-07-26 The Routledge

Handbook of Language Contact provides an overview of the state of the art of current research in contact linguistics

Presenting contact linguistics as an established field of investigation in its own right and featuring 26 chapters this handbook brings together a broad range of approaches to contact linguistics including experimental and observational approaches and formal theories a focus on social and cognitive factors that impact the outcome of language contact situations and bilingual language processing the emergence of new languages and speech varieties in contact situations and contact linguistic phenomena in urban speech and linguistic landscapes With contributions from an international range of leading and emerging scholars in their fields the four sections of this text deal with methodological and theoretical approaches the factors that condition and shape language contact the impact of language contact on individuals and language change repertoires and formation This handbook is an essential reference for anyone with an interest in language contact in particular regions of the world including Anatolia Eastern Polynesia the Balkans Asia Melanesia North America and West Africa
