**Joy at Work** Dennis W. Bakke, 2010-08-03 Imagine a company where people love coming to work and are highly productive on a daily basis Imagine a company whose top executives in a quest to create the most fun workplace ever obliterate labor management divisions and push decision making responsibility down to the plant floor Could such a company compete in today's bottom line corporate world Could it even turn a profit Well imagine no more In Joy at Work Dennis W Bakke tells the true story of this extraordinary company and how as its co founder and longtime CEO he challenged the business establishment with revolutionary ideas that could remake America's organizations It is the story of AES whose business model and operating ethos let's have fun were conceived during a 90 minute car ride from Annapolis Maryland to Washington D C In the next two decades it became a worldwide energy giant with 40 000 employees in 31 countries and revenues of 8.6 billion It's a remarkable tale told by a remarkable man Bakke a farm boy who was shaped by his religious faith his years at Harvard Business School and his experience working for the Federal Energy Administration He rejects workplace drudgery as a noxious remnant of the Industrial Revolution He believes work should be fun and at AES he set out to prove it could be Bakke sought not the empty fun of the Friday beer blast but the joy of a workplace where every person from custodian to CEO has the power to use his or her God given talents free of needless corporate bureaucracy In Joy at Work Bakke tells how he helped create a company where every decision made at the top was lamented as a lost chance to delegate responsibility and where all employees were encouraged to take the game winning shot even when it wasn't a slam dunk Perhaps Bakke's most radical stand was his struggle to break the stranglehold of creating shareholder value on the corporate mind set and replace it with more timeless values integrity fairness social responsibility and a sense of fun

**Preparing for Growth and Marketing in Today's Church** Michael Dixon, 2022-08-05 Churches are facing a crisis of epidemic proportions attendance is dropping empty pews are not being refilled and doors are closing Unfortunately the leadership in today's churches are not trained nor equipped to handle this crisis Leaders at all levels must know how to be an effective leader and communicate in a 360 degree radius effectively with each person they are in contact with Knowing and understanding what the objectives of the church are is of paramount importance Planning for church growth is more than a simple prayer Church growth starts with prayers visions of where God wants the church to go and an evaluation and analysis

of where the church is Unfortunately not every church is prepared for growth and must take the necessary steps to be prepared for growth Love sells itself and love must be shown to all those who not only enter the church s doors but throughout the community Love is not shown by being the loud carnival barker who is selling chances to win a stuffed animal but by actions Love is a warm smile a heartfelt welcome a firm handshake or hug a short sweet introduction a sincere inquiry about the person and most importantly love is listening Love does not sell anything especially denominationalism The life cycle of the church must be understood and leadership must know where the church is in the life cycle In order to extend the church s life cycle new ideas and services must be continuously developed and initiated in order to stay relevant This relevancy leads to a strong brand for the church This book was developed with interviews and conversations with pastors and clergy from all walks of faith and from all areas of the United States Regardless of the denomination this book is designed to guide church leaders through the necessary steps in order to grow and market your church

### **Political Leadership**

Michael Foley, 2013-11-14 Despite its recognized significance in social life leadership is a notoriously elusive subject that generates a host of different points of explanatory focus This is particularly so in the field of political leadership which has been afflicted by an enduring split between the biographical idiosyncrasies of individual leaders and the specialist contributions from an array of social science disciplines This new study is designed to establish an improved balance between this often myopic and confusing bifurcation of approaches It engages with an expansive range of empirical theoretical and interpretive research into the issue of leadership but does so in a way that ensures that the political character of the subject is kept securely in the foreground The project is therefore designed to maintain a clear emphasis upon leaders embedded in their political contexts and viscerally connected to high level issues of political location and status political power and legitimacy and political functions and contingencies The book has a cumulative design that moves from an in depth analysis of the basic components of political leadership to an examination of a series of key dimensions relating to leadership activity and development namely the themes of representation communication marketing business practice and the issue of women leaders It goes on to survey the developmental properties of the international sphere before concluding with a substantive review of the changing landscapes of contemporary leadership activity and the different ways that we come to terms with the theme of political leadership in an increasingly complex world
