for early learning in museums due in part to society s evolving view of childhood from an age of innocence to understanding the robust learning that defines the first years of life This perspective is a catalyst for international conversation and continues to raise attention and interest across society Object Lessons and Early Learning leverages what is known about the cognitive development of young children to examine the power of learning through objects in museum and heritage settings Exploring the history and modern day practice of object based learning Shaffer outlines the rationale for endorsing this approach in both formal and informal learning spaces She argues that museums as collecting institutions are learning spaces uniquely positioned to allow children to make meaning about their world through personal connections to cultural artifacts natural specimens and works of art A range of descriptive object lessons inspired by objects in museums as well as from the everyday world are presented throughout the text as examples of ways in which children can be encouraged to engage with museum collections Object Lessons and Early Learning offers insights into strategies for engaging young children as learners in museum settings and in their everyday world and as such will be essential reading for museum professionals classroom educators and students It should also be of great interest to academics and researchers engaged in the study of museums and education **American Journal of Education and College Review** ,1860 Vol 25 is the report of the commissioner of education for 1880 v 29 report for 1877 **American Journal, and Annals of Education and Instruction** ,1860

Parents and Children Charlotte Mason,2022-05-29 In *Parents and Children* Charlotte Mason presents a transformative vision of education that emphasizes the integral role of parents in nurturing the intellectual and moral development of children Written in a conversational yet scholarly tone the book explores the philosophy of education as a partnership between parents and educators positing that children are not mere vessels to be filled with knowledge but active participants in their own learning Mason s literary style is both accessible and profound combining anecdotal evidence with rich insights into child psychology literature and the importance of nature and the arts within the educational framework This work is

situated in the late 19th century a period that grappled with industrialization's impact on family and education marking a pivotal shift toward child centered pedagogy Charlotte Mason a pioneering educator and reformer founded a movement advocating for a holistic approach to education that respects the individuality of each child Her own experiences as a teacher and her extensive research into educational psychology and classical literature informed her notions that learning should be dynamic and engaging Mason's upbringing in a nurturing environment fostered her interest in the natural world which resonates throughout her writings and advocacy efforts in education *Parents and Children* is a must read for educators parents and anyone interested in child development Mason's principles encourage a profound reevaluation of traditional education methods advocating for a richer more engaged relationship between children and their learning experiences This book offers invaluable insights that remain relevant today making it an essential addition to the libraries of those committed to nurturing the next generation
