**A Right to Lie?** Catherine J. Ross, 2021-11-30 In A Right to Lie legal scholar Catherine J Ross addresses the urgent issue of whether the nation s highest officers including the president have a right to lie under the Speech Clause no matter what damage their falsehoods cause Does freedom of expression protect even factual falsehoods If so are lies by candidates and public officials protected And is there a constitutional path without violating the First Amendment to stop a president whose persistent lies endanger our lives and our democracy Perhaps counter intuitively the general answer to each question is yes Drawing from dramatic court cases about defamers proponents of birtherism braggarts and office holders Ross reveals the almost insurmountable constitutional and practical obstacles to legal efforts to rein in public deception She explains the rules that govern the treatment of lies while also demonstrating the incalculable damage presidential mendacity may lead to as revealed in President Trump s lies about the COVID 19 pandemic and the legitimacy of the 2020 election Falsehoods have been at issue in every presidential impeachment proceeding from Nixon to Trump But until now no one has analyzed why public lies might be impeachable offenses and whether the First Amendment would provide a defense Noting that speech by public employees does not receive the same First Amendment protection as the speech of ordinary citizens Ross proposes the constitutionally viable solution of treating presidents as public employees who work for the people Charged with oversight of the Executive Congress may and should put future presidents on notice that material lies to the public on substantial matters will be deemed a high crime and misdemeanor subject to censure and even impeachment A Right to Lie explains how this approach could work if the political will were in place **FCC Record** United States.
