The Complete Guide to the Cane Corso Vanessa Richie,2020-02-18 Also known as the Italian Mastiff the Cane Corso is a large dog with a lot of love and affection for the family However they are also one of the best guard dog breeds Like other guard dogs their appearance is part of what makes the Cane Corso so intimidating Its regal appearance hides the fact that this is a breed that can be incredibly playful They are also loath to be away from their family There is no doubt that they make great guardians but proper training and socialization makes them a perfect family dog that can go with you anywhere which will make everyone happy Cane Corsos can be great guardians but the vast majority of the time they are goofy pups that consider themselves lap dogs you need to let them know that isn t the case early if you don t want a 110 pound dog trying to claim your lap Unlike other mastiffs the Cane Corso is easy to train as they are real people pleasers They are not a good breed if you have not had a dog before or if you don t have time for regular training and exercise However you really could not ask for a better breed when it comes to protection playing and affection

Handbook of Early Childhood Literacy Nigel Hall, Joanne Larson, Jackie Marsh, 2003-12-06 This volume examines early literacy research on a global scale and puts social cultural and historical analyses in the front seat without losing sight of individual and family level matters in the process It is comprehensive ground breaking and provocative and should help literacy researchers to think differently about the field Marjorie Faulstich Orellana School of Education and Social Policy Northwestern University No other publication that I am aware of brings together views from such diverse disciplines contributing to a comprehensive statement about early childhood literacy The Handbook not only reviews the current field of situated literacy but presents some important and exciting new research It is a significant resource which promises to become a landmark text Eve Bearne University of Cambridge Faculty of Education This Handbook brings together an astonishing array of writers who explore contemporary political cultural and cognitive understandings of early childhood literacy Literacy and literacy acquisition are broadly defined here to encompass not just traditional notions of reading and writing but multimodalities multiliteracies and critical literacies It is rich and comprehensive an invaluable resource for scholars educators and students of early childhood literacy Elsa Auerbach Professor of English University of Massachusetts Boston This book is unique in its broad consideration of topics and its global focus I particularly appreciate how the Editors have situated current research in an historical context They have also included development issues pedagogy research and the newest areas of interest critical literacy and popular culture Diane Barone University of Nevada Reno The editors and their contributors place a strong emphasis on literacy as a social practice that occurs outside school settings This broad interpretation is a healthy counter blast to the current political views and legislation in many developed countries and should be welcomed by practitioners Another very welcome dimension is the can do approach that celebrates young children s literacy achievements This is an informative and insightful text for researchers and students to dip into and think about for some years to come Marian Whithead writing in Nursery World An inspired and stimulating read aimed at researchers academics professionals and students in the fields of early years education and research and early childhood literacy It will also be of interest to those working in other disciplines such as cultural studies and sociology I think this collection of work by the range of authors some of which are the most distinguished and renowned in the field not only represents real value for money but also makes an essential in depth perceptive and invaluable contribution to this relatively new and dynamic field It offers some cutting edge contemporary and exciting material combined with well founded wisdom and indeed excellent sources for further reading British Journal of Educational Studies

In recent years there has been a virtual revolution in early childhood studies with a mass of books and papers seeking to re-examine and reposition childhood. At the same time an equally significant area has developed within literacy studies reflecting a growing interest in the nature of literacy as a socially situated phenomenon. There is increased interest in literacy as a multimodal concept in which symbolic meaning is a central concept rather than more conventional and narrower notions of literacy. The Handbook of Early Childhood Literacy is central in providing access to all these different perspectives. The Handbook offers a way through the vast diversity of publications on early childhood literacy by providing comprehensive and up to date reviews of research and thinking in early childhood literacy. The arrangement of chapters reflects a contemporary perspective on research into early childhood literacy. Major sections include the global world of early childhood literacy, childhood literacy and family community and culture, the development of literacy in early childhood, pedagogy and early childhood literacy and researching early childhood literacy. Contributions by leading authorities focus on literacy as a socially situated and global experience, one that is evolving in relation to changes in contemporary culture and technological innovation.

Darwinism Mark Fuson, 2011-12-13 Darwin Foster has become a werewolf through unknown means and with each passing day his bloodlust is growing. The young man, damaged through years of abuse and neglect, is ready to exact his revenge on his home town of New Haven. As his lycanthropic desire consumes him, Darwin begins his slaughter. Through his own carelessness, he finds himself under investigation by the local police and he knows they will soon arrest him. In one rash decision to prevent his incarceration, Darwin begins making more werewolves, starting with the police investigators. Before long, Darwin finds himself in the leadership role of an ever-expanding pack of hungry werewolves. Feeling superior, Darwin, with the help of his council of wolves, makes a plan to take over the entire town, eliminating anyone seen as unworthy of receiving the gift of lycanthropy. A list of citizens is drawn up and soon the undesirable humans of New Haven find themselves being rounded up and sent to a makeshift detention center in the abandoned coal mine called Special Handling. Here they wait for their invitation to dinner. Evolution of the Species has begun. Which side will you be selected for? Look for the exciting sequel to Darwinism with Wolf Asylum to be released in 2014.

Woman's Home Missions of the Methodist Episcopal Church, 1918 Spark a Revolution in Early Education Rae Pica, 2022-11-22

Join the revolution in early childhood education. Early childhood educators are facing a crucial inflection point in the profession. Active learning for the whole child has been increasingly ignored by early childhood education decision makers. Research shows that children need movement and play and joy to learn to their fullest potential, yet the educational system pushes worksheets and takes away time outdoors among many other harmful and developmentally inappropriate teaching practices. Educators everywhere are tired of witnessing unrealistic expectations and impossible attempts to accelerate child development, stripping children of authentic learning and their giggles. They are disturbed by the inequities that exist in education and want to see every child provided with the good foundation a quality early education can supply. They are fed up with the nonsense depriving children

of childhood requiring them to teach in ways that they know aren't right. Without an understanding of child development guiding ECE policies, children have lost their love of learning and play and face growing health issues. This book challenges and inspires early childhood professionals to advocate for change in the field while giving them the research underpinnings and tools they need to take real action and bring back active play-based learning for the development and education of the whole child. Including chapters on debunking myths in early childhood education, advocacy basics, and strategies for speaking up, it dispels the fears associated with speaking up and banishes all doubts about the need to advocate bravely and widely, proving the need to change course and providing practical and actionable steps for speaking to decision makers and convincing them to pursue change. *Spark a Revolution in Early Education* busts four myths: earlier is better, children learn by sitting, digital devices are important to learning, and play time is not productive time. To push for Rae's Revolution and get educators everywhere to stand up for the children.

Queen of the Darkness Anne Bishop, 2025-05-06 In the astonishing conclusion of Anne Bishop's *Black Jewels Trilogy*, the Dark Court has been formed and the end for some draws exceedingly near. Jaenelle Angeline now reigns as Queen, protector of the Shadow Realm. No longer will the corrupt Blood slaughter her people and defile her lands. But where one chapter ends, a final unseen battle remains to be written, and Jaenelle must unleash the terrible power that is Witch to destroy her enemies once and for all. Even so, she cannot stand alone. Somewhere long lost in madness is Daemon, her promised Consort. Only his unyielding love can complete her Court and secure her reign. Yet even together, their strength may not be enough to hold back the most malevolent of forces. And in the end, under the emergent shadow of evil and unforeseen betrayal, only Jaenelle's greatest sacrifice will save those she loves and the realm she's bound to protect.

Mom's the Word E. Stoddard, 2006-04-01 Shortly after her divorce, author E. M. Stoddard's life undergoes a dramatic change. Saddled with the responsibilities of a new job, a mortgage, and most importantly, her nine-year-old son Matt, Stoddard can't rely on her alcoholic ex-husband to provide child support. She has to do it on her own. Since her new position requires travel, it doesn't take long for Stoddard to decide that live-in help is an absolute necessity. But finding a trustworthy, dependable nanny becomes an educational experience as she hires a total of seven care providers over the next few years. Each nanny has a unique personality: Marja arrives shy and leaves sexy; Sally appears hale and hearty on arrival but is sent home as a drug addict; Sven, the only male, surprisingly remains unchanged, quiet and reclusive; Charity comes as a Mormon farm girl, complete with cat, and leaves as a Times Square swinger. Through it all, Stoddard and her son survive the craziness, heartache, fear, joy, and personal growth that comes from their relationships with these seven people, all of whom become vitally important in their lives.
