[Political Messaging in Music and Entertainment Spaces across the Globe. Volume 1.](#) Uche Onyebadi, 2022-09-06. *Political Messaging in Music and Entertainment Spaces across the Globe* uniquely expands the frontiers of political communication by simultaneously focusing on content, political messaging, and platform music and entertainment. As a compendium of valuable research work, it provides rich insights into the construction of political messages and their dissemination outside of the traditional and mainstream structural process and behavioral research focus in the discipline. Researchers, teachers, students, and other interested parties in political communication, political science, journalism, and mass communication, sociology, music, languages, linguistics, and the performing arts, communication studies, law, and history will find this book refreshingly handy in their inquiry. Furthermore, this book was conceptualized from a globalist purview and offers readers practical insights into how political messaging through music and entertainment spaces actually work across nation-states, regions, and continents. Its authenticity is also further enhanced by the fact that most chapter contributors are scholars who are natives of their areas.
