More Radical Hermeneutics John D. Caputo, 2000-07-22 In these spirited essays John D Caputo continues the project he launched with Radical Hermeneutics of making hermeneutics and deconstruction work together Caputo claims that we are not born into this world hard wired to know Being Truth or the Good and we are not vessels of a Divine or other omnipotent supernatural force Focusing on how various contemporary philosophers develop aspects of this fragmented view of the life world in areas such as madness friendship democracy gender science the end of ethics religion and mysticism this animated study by one of America's leading continental philosophers shakes the foundations of religion and philosophy even as it gives The Roots of Hermeneutics in Kant's Reflective-Teleological Judgment Horst Ruthrof, 2022-11-28 This book challenges the standard view that modern hermeneutics begins with Friedrich Ast and Friedrich Schleiermacher arguing instead that it is the dialectic of reflective and teleological reason in Kant's Critique of Judgment that provides the actual proto hermeneutic foundation It is revolutionary in doing so by replacing interpretive truth claims by the more appropriate claim of rendering opaque contexts intelligible Taking Gadamer's comprehensive analysis of hermeneutics in Truth and Method 1960 as its point of departure the book turns to Kant's Critiques reviewing his major concepts as a coherent system in relation to his sensus communis At the heart of the book is the interaction between reflective bottom up search and teleological top down interpretative projection as provided in Part II of the third Critique This text contends that Kant's broad definition of nature invites the liberation of the reflective teleological judgment from its biological exemplifications and so permits us to establish its generalised status as a path breaking methodological tool Kant's dialectic of reflective search and meaning bestowing stipulated teleology is asserted to anticipate a series of motifs commonly associated with hermeneutics Figures covered include Dilthey Husserl Ingarden Heidegger Gadamer Apel Habermas Ricoeur Derrida Foucault Lyotard Deleuze Vattimo Nancy and Caputo Their collective contributions to interpretation allow for a review of the evolution of hermeneutics from the perspective of the Kantian critique of the limitations of human cognition The book is written for the informed general reader but will likewise appeal to advanced undergraduate and graduate students as well as researchers in the humanities and social sciences Radical Theology and Emerging Christianity Katharine Sarah Moody, 2016-03-03 The theological turn in continental philosophy and the turn to Paul in political philosophy have occasioned a return to radical theology a tradition whose philosophical heritage can be traced to the death of God announced in the work of Nietzsche and Hegel John D Caputo's deconstructive theology and Slavoj Zizek's materialist theology are two radical theologies that explore what it might mean to pass through the death of God and to abandon this experience as specifically Christian Radical Theology and Emerging Christianity demonstrates how these theologies are transforming everyday religious practices through an examination of the work of Peter Rollins and Kester Brewin two figures at the radical margins of a contemporary expression of Western religiosity called emerging Christianity The author uses her analysis of all four figures to argue that

deconstructive practices can enable religious communities to become part of a wider materialist collective in which the death of God continues to resonate Pushing the methodological boundaries of philosophy of religion by examining religious practices as the site of philosophical signification the book challenges scholars and practitioners alike to a new and more demanding dialogue between theory and practice **Ethics, Love, and Faith in Kierkegaard** Edward F. Mooney, 2008-07-17 Ethics Love and Faith in Kierkegaard collects essays from 13 leading scholars that center on key themes that characterize Kierkegaard's philosophy of religion With their unique focus on notions of the self views on the command to love one s neighbor thoughts on melancholy and despair and the articulation of religious vision the essays in this volume cover the breadth and depth of Kierkegaard's philosophical and religious writings Poised at the intersection of Kierkegaard's moral psychology and its religious significance they offer vivid testimony to the ongoing power of his unique and fervent religious spirit Students and scholars alike will find new light shed on questions that define Kierkegaard s philosophy and Law, Hermeneutics and Rhetoric Francis J. Mootz Iii, 2016-04-22 Mootz offers an antidote to the fragmentation of contemporary legal theory with a collection of essays arguing that legal practice is a hermeneutical and rhetorical event that can best be understood and theorized in those terms This is not a modern insight that wipes away centuries of dogmatic confusion rather Mootz draws on insights as old as the Western tradition itself However the essays are not antiquarian or merely descriptive because hermeneutical and rhetorical philosophy have undergone important changes over the millennia To return to hermeneutics and rhetoric as touchstones for law is to embrace dynamic traditions that provide the resources for theorists who seek to foster persuasion and understanding as an antidote to the emerging global order and the trend toward bureaucratization in accordance with expert administration violent suppression or both

Razing Hell Sharon L. Baker,2010-08-23 The idea of hell can haunt dreams and disturb sleep Many wonder at the justice or injustice of it all feeling confounded by a God who deems it necessary to send the majority of humanity to burn there forever Seventy percent of Americans believe in hell as do ninety two percent of those who attend church every week Clearly it s a hot topic Baker offers readers a safe space to contemplate tough issues as they rethink traditional views of hell In her candid and inviting style Baker explores and ultimately refutes many traditional views of hell presenting instead theologically sound ways of thinking that are more consistent with the image of God as a loving creator who desires to liberate us from sin and evil This is an excellent selection for general readers students pastors professors and grief counselors and will provide clarity for those with questions about hell God s judgment and what happens to us when we die

theoretical and cultural perspectives The book covers both established and emerging approaches to qualitative research in this field beginning with case study ending with postqualitative and with hermeneutic reflexive psychosocial Talanoa queer feminist critical race theory heuristic grounded theory authoethnographic poetic and collaborative writing approaches in between These chapters introduce and explore the complexity of the specific research approach its assumptions challenges ethics and potentials including examples from the authors own research therapeutic practice and life The book is not a how to guide to methods but rather a stimulus for psychotherapy researchers to think and feel their way differently into their research endeavours This book will be an invaluable resource to postgraduate students practitioners and established researchers in psychotherapy who are undertaking or considering qualitative research for their projects It will also appeal to course tutors and trainers looking for a volume around which to structure a qualitative research methods course **Passion for the Impossible** Mark Dooley, 2012-02-01 Presenting the first systematic appraisal of the thought of John D Caputo one of America's most respected and controversial continental thinkers this book brings together internationally renowned philosophers theologians and cultural critics One highlight of the work is an interview with Jacques Derrida in which Derrida talks candidly about his reaction to Caputo s writings and spells out the implications for religion and the question of God after deconstruction Caputo responds to the concerns expressed by his interlocutors in the same humorous erudite and challenging spirit for which he is known The result is a lively and stimulating debate covering themes in the philosophy of religion deconstruction political philosophy feminism and hermeneutics as well as issues surrounding the work of Aquinas Nietzsche Kierkegaard Heidegger Foucault Derrida and Rorty The Face of the Deep Catherine Keller, 2003-12-16 This is a groundbreaking highly original work of postmodern feminist theology from one of the most important authors in the field The Face of the Deep deconstructs the Christian doctrine of creation which claims that a transcendent Lord unilaterally created the universe out of nothing Catherine Keller's impassioned graceful meditation develops an alternative representation of the cosmic creative process drawing upon Hebrew myths of creation from chaos and engaging with the political and the mystical the literary and the scientific the sexual and the racial As a landmark work of immense significance for Jewish and Christian theology gender studies literature philosophy and ecology The Face of the Deep takes our originary story to a new horizon rewriting the starting point for Western spiritual discourse The Presence and Absence of God Ingolf U. Dalferth, 2009 Safeguarding the distinction between God and world has always been a basic interest of negative theology But sometimes it has overemphasized divine transcendence in a way that made it difficult to account for the sense of God's present activity and experienced actuality Criticisms of the Western metaphysics of presence have made this even more difficult to conceive On the other hand there has been a widespread attempt in recent years to base all theology on religious experience the Christian church celebrates God's presence in its central sacraments of baptism and Eucharist process thought has re-conceptualized God's presence in panentheistic terms and some have argued that God

might be poly present not omnipresent But what does it mean to say that God is present or absent For Jews Christians and Moslems alike God is not an inference an absentee entity of which we can detect only faint traces in our world On the contrary God is present reality indeed the most present of all realities However belief in God's presence cannot ignore the widespread experience of God's absence Moreover there is little sense in speaking of God's absence if it cannot be distinguished from God's non presence or non existence So how are we to understand the sense of divine presence and absence in religious and everyday life This is what the essays in this volume explore in the biblical traditions in Jewish and Christian theology and philosophy and in contemporary philosophy of religion No Matter: Theories and Practices of the Ephemeral in Architecture Anastasia Karandinou, 2017-05-15 How do digital media mobile phones GPS iPods portable computers internet virtual realities etc affect the way we perceive inhabit and design space Why do architects traditionally design draw and map the visual as opposed to other types of sensations of space the sound the smell the texture etc Architecture is not only about the solid material elements of space it is also about the invisible immaterial intangible elements of space This book examines the design representation and reception of the ephemeral in architecture It discusses how architects map and examine the spatial qualities that these elements create and questions whether and if so how they take them into account in the designing process Karandinou argues that current interest in the ephemeral in contemporary culture and architecture is related to the evolution of digital media and that it is related to the new ways of thinking about space and everyday situations that new media enables With sound and video recording devices now being embedded in everyday gadgets and mobile phones capturing sounds or ephemeral situations and events has become an everyday habit New animation techniques allow designers to think about space through time as they are able to design dynamic and responsive spaces as well as static spaces explored by someone over time Contemporary video games are no longer based on a simple visual input and a keyboard they now involve other senses movement and the response of the whole body in space This book therefore argues that the traditional binary opposition between the sensuous and the digital is currently being reversed Subsequently new media can also function as a new tool to think with about space Designers are now able to think through time and design spaces accordingly Time temporality ephemerality become central issues in the designing process The notion first claimed by Marshall McLuhan in the 1960s that the emergence of new di The End of Philosophy of **Religion** Nick Trakakis, 2011-10-20 The End of Philosophy of Religion explores the hitherto unchartered waters of the meta philosophy of religion that is the methods and assumptions underlying the divergent ways of writing and studying the philosophy of religion that have emerged over the last century It is also a first class study of the weaknesses of the analytic approach in philosophy particularly when it is applied to religious and aesthetic experience Nick Trakakis main line of argument is twofold Firstly the Anglo American analytic tradition of philosophy by virtue of its attachment to scientific norms of rationality and truth inevitably struggles to come to terms with the mysterious and transcendent reality that is disclosed in religious practice Secondly and more positively alternatives to analytic philosophy of religion are available not only within the various schools of so called Continental philosophy but also in explicitly narrative and literary approaches Peace J Denny Weaver, 2003-09-08 Teaching Peace carries the discussion of nonviolence beyond ethics and into the rest of the academic curriculum This book isn t just for religion or philosophy teachers it is for all educators the Crossroads Kevin J. Vanhoozer, James K. A. Smith, Bruce Ellis Benson, 2006-06-15 In this multi faceted volume Christian and other religiously committed theorists find themselves at an uneasy point in history between premodernity modernity and postmodernity where disciplines and methods cultural and linguistic traditions and religious commitments tangle and cross Here leading theorists explore the state of the art of the contemporary hermeneutical terrain As they address the work of Gadamer Ricoeur and Derrida the essays collected in this wide ranging work engage key themes in philosophical hermeneutics hermeneutics and religion hermeneutics and the other arts hermeneutics and literature and hermeneutics and ethics Readers will find lively exchanges and reflections that meet the intellectual and philosophical challenges posed by hermeneutics at the crossroads Contributors are Bruce Ellis Benson Christina Bieber Lake John D Caputo Eduardo J Echeverria Benne Faber Norman Lillegard Roger Lundin Brian McCrea James K A Smith Michael VanderWeele Kevin Vanhoozer and Nicholas Wolterstorff Cross and Cosmos John D. Caputo, 2019-07-23 John D Caputo stretches his project as a radical theologian to new limits in this groundbreaking book Mapping out his summative theological position he identifies with Martin Luther to take on notions of the hidden god the theology of the cross confessional theology and natural theology Caputo also confronts the dark side of the cross with its correlation to lynching and racial and sexual discrimination Caputo is clear that he is not writing as any kind of orthodox Lutheran but is instead engaging with a radical view of theology cosmology and poetics of the cross Readers will recognize Caputo's signature themes hermeneutics deconstruction weakness and the call as well as his unique voice as he writes about moral life and our strivings for joy against contemporary society and politics New Meanings for Ancient Texts Steven L. McKenzie, John Kaltner, 2013-08-09 This book is a supplement and sequel to To Each Its Own Meaning edited by Steven L McKenzie and Stephen R Haynes which introduced the reader to the most important methods of biblical criticism and remains a widely used classroom textbook This new volume explores recent developments in and approaches to biblical criticism since 1999 Leading contributors define and describe their approach for non specialist readers using examples from the Old and New Testament to help illustrate their discussion Topics include cultural criticism disability studies queer criticism postmodernism ecological criticism new historicism popular culture postcolonial criticism and psychological criticism Each section includes a list of key terms and definitions and suggestions for further reading Contributors Timothy Beal Warren Carter Norman C Habel Gina Hens Piazza Nyasha Junior D Andrew Kille Hugh S Pyper Linda S Schearing Jeremy Schipper Ken Stone and Valarie H Ziegler Recovering Theological Hermeneutics Jens Zimmermann, 2012-02-01 This book is a careful historical demonstration of the way in which hermeneutics was

secularized yet continues to borrow on the capital of Christian theology By exposing the problems inherent in secular hermeneutics and correcting the histories of philosophical hermeneutics on record Zimmerman points a way forward beyond secular hermeneutics. This is a bold project that should be read not only by theologians but more especially by those philosophers working in the wake of Heidegger Gadamer Derrida and Levinas This book is an excellent addition to any course in philosophical hermeneutics James K A Smith author of The Fall of Interpretation In Recovering Theological Hermeneutics Zimmerman offers a compelling argument for the claim that hermeneutics must be theological if it is to be truly hermeneutical Through a fair and careful reading of premodern and postmodern hermeneutical theorists he shows their true kinship Building appreciatively though not uncritically upon insights of Gadamer Levinas and Derrida Zimmerman draws from Bonhoeffer and Balthasar to construct an incarnational hermeneutic Zimmerman provides us with a deeply Christian view of human understanding one that results in nether hermeneutical triumphalism nor hermeneutical despair but affirms understanding as relational historical and ultimately based on God's revelation Bruce Ellis Benson author of Graven Ideologies Nietzsche Derrida and Marion on Modern Idolatry Recovering Theological Hermeneutics is an important contribution to hermeneutics Zimmerman provides not only a detailed and convincing historical analysis but also an outline of theological hermeneutics that is ethical incarnational and thus in the best sense of the word truly evangelical Far from naively idealizing a premodern point of view Zimmerman convincingly works through modern and postmodern thought In so doing he shows the often overlooked potential of the premodern Christian tradition without ignoring its difficulties and shortcomings a challenge to both modern and postmodern theology and indeed philosophy Holder Zaborowsky Albert Ludwig University of Freiburg Ways of Living Religion Christina M. Gschwandtner, 2024-03-14 This study provides a philosophical analysis of different types of religious experience focusing on the lived experience of religion Differences in Identity in Philosophy and Religion Lydia Azadpour, Sarah Flavel, Russell Re Manning, 2020-04-02 This book explores the constitutive role alterity plays in identity formation in Western and Eastern traditions It examines the significance of difference in conceptions of identity across major philosophical and religious traditions in a global and comparative context considering Ancient Greek and Egyptian Chinese Islamic European and Japanese philosophies In addition the book opens up discussion of less dominant trends in philosophical thinking particularly the spaces between self same existence and otherness in the histories of philosophical and religious thought Chapters critique both essentialist and postmodern understandings of self constitution by questioning the ordinary narrative of identity construction across Western and non Western traditions The book also explores the construction of selfhood from a wide range of perspectives drawing upon individual philosophers including Plotinus Descartes Geulincx Hume de Beauvoir and Ueda as well as religious and philosophical movements including Confucian philosophy Zen Buddhism Protestantism and Post Phenomenology Differences in Identity in Philosophy and Religion represents a landmark study drawing together a range of approaches perspectives and
