Number Our Days Culture And Community Among Elderly Jews In An American Ghetto:

Number Our Days Barbara Myerhoff, 1980-05-09 Anthropologist Myerhoff's penetrating exploration of the aging process is brilliant sociology as well as living history that tells readers about the importance of ritual the agonies of aging and the indomitable human spirit The book shines with the luminous wit of old age Robert Bly **Ethnographic Film** Karl G. Heider, 2009-04-20 From reviews of the first edition Ethnographic Film can rightly be considered a film primer for anthropologists Choice This is an interesting and useful book about what it means to be ethnographic and how this might affect ethnographic filmmaking for the better It obviously belongs in all departments of anthropology and most ethnographic filmmakers will want to read it Ethnohistory Even before Robert Flaherty released Nanook of the North in 1922 anthropologists were producing films about the lifeways of native peoples for a public audience as well as for research and teaching Ethnographic Film 1976 was one of the first books to provide a comprehensive introduction to this field of visual anthropology and it quickly became the standard reference In this new edition Karl G Heider thoroughly updates Ethnographic Film to reflect developments in the field over the three decades since its publication focusing on the work of four seminal filmmakers Jean Rouch John Marshall Robert Gardner and Timothy Asch He begins with an introduction to ethnographic film and a history of the medium He then considers many attributes of ethnographic film including the crucial need to present whole acts whole bodies whole interactions and whole people to preserve the integrity of the cultural context Heider also discusses numerous aspects of making ethnographic films from ethics and finances to technical considerations such as film versus video and preserving the filmed record He concludes with a look at using ethnographic film in teaching

On the Border of Opportunity Marleen C. Pugach, 1998-07 An ethnographic study of school and community in a border town in New Mexico on the Mexican U S border **The Chicago Guide to Collaborative Ethnography** Luke Eric Lassiter, 2024-05-31 Collaboration between ethnographers and subjects has long been a product of the close intimate relationships that define ethnographic research But increasingly collaboration is no longer viewed as merely a consequence of fieldwork instead collaboration now preconditions and shapes research design as well as its dissemination As a result ethnographic subjects are shifting from being informants to being consultants The emergence of collaborative ethnography highlights this relationship between consultant and ethnographer moving it to center stage as a calculated part not only of fieldwork but also of the writing process itself The Chicago Guide to Collaborative Ethnography presents a historical theoretical and practice oriented road map for this shift from incidental collaboration to a more conscious and explicit collaborative strategy Luke Eric Lassiter charts the history of collaborative ethnography from its earliest implementation to its contemporary emergence in fields such as feminism humanistic anthropology and critical ethnography On this historical and theoretical base Lassiter outlines concrete steps for achieving a more deliberate and overt collaborative practice throughout the processes of fieldwork and writing As a participatory action situated in the ethical commitments between

ethnographers and consultants and focused on the co construction of texts collaborative ethnography argues Lassiter is among the most powerful ways to press ethnographic fieldwork and writing into the service of an applied and public scholarship A comprehensive and highly accessible handbook for ethnographers of all stripes The Chicago Guide to Collaborative Ethnography will become a fixture in the development of a critical practice of anthropology invaluable to both undergraduates graduate students and faculty alike
