Numerology is a self help tool providing meaningful advice for all types of situations. Our life is indeed like a play. Birth is the raising of the curtain, death is the curtain's descent. The play has evolved through various stages of preparation but does not really begin until we are born. When all the players go on stage, they have been prepared for their parts. Their characters are outlined and the stage is set. Now the curtain is raised, the play itself exists as a potential within characters, the director, the musicians, and the audience. In the same way, the moment of our birth provides that broad outline for our life. Our entire life exists as a potential that has been prepared for. We have ultimate freedom to do with our life as we like, to fulfill its potential completely or to make some smaller version of ourselves. It all depends upon our effort and commitment. We make the decisions to fulfill to whatever extent the potential life that exists within us. That is our choice. The Numerological chart reveals one's potential strengths, weaknesses, challenges, and lessons to be learnt. Every number suggests potential strengths and weaknesses. A Numerologist can have a good idea of which direction a person will likely move in and how much of his potential he will use or abuse. This is known by studying the chart in a balanced way. In short, Numerology is a self help tool providing meaningful advice for all types of situations. In modern world, the popularity of Numerology is growing by leaps and bounds.
