The Dinosaur Filmography Mark F. Berry, 2015-08-31 From classics like King Kong to beloved B movies like The Beast from 20 000 Fathoms to blockbusters like Jurassic Park it's easy to see that filmmakers and audiences alike love to see dinosaurs on the screen This comprehensive filmography arranged alphabetically by title contains entries that include basic facts year of release country of origin studio and running time followed by a concise plot summary the author's critical commentary information on the production and the people behind it and secrets of the often ingenious special effects Three useful appendices feature films with minor dinosaur content planned but unfinished dinosaur movies and the quasi dinosaurs of Toho Studios To be included a movie must depict one or more representations of a prehistoric reptile Inaccurate portrayals are included as long as the intent is to represent a real or fictional dinosaur Not eligible are films featuring prehistoric mammals prehistoric humans or humanoids and beasts of mythology unless of course the movie also has a dinosaur The Independent Film Experience Kevin J. Lindenmuth, 2002-02-14 You see them on the video shelves with titles such as Shadow Tracker Psycho Girls and The Blair Witch Project Skeptically perhaps you rent one and slip it into the VCR Hey you think this isn't so bad sometimes actually quite good Suddenly you discover that there is a whole range of movies from filmmakers operating outside the studio system that have their own attractions that the big budget fare can't match You have of course discovered the world of independent filmmaking A fascinating group of independent film directors and producers in interviews with the author discuss their work and the state of the independent film industry at the end of the 20th century Joe Bagnardi Dennis Devine Andrew Harrison Jeff Leroy Andrew Parkinson Brett Piper and 23 others cover such topics as the increased interest in independent films and how they are changing thanks to high tech advances These filmmakers vary widely in age experience formats and budgets and choice of subject matter but they all have a great passion for their work

Starring T. Rex! José Luis Sanz,2002 The intersection of science myth and popular culture is explored through the story of T Rex from the nineteenth century discovery of his fossil remains to his glorification in popular culture **The Battle for the Bs** Blair Davis,2012-04-06 The emergence of the double bill in the 1930s created a divide between A pictures and B pictures as theaters typically screened packages featuring one of each With the former considered more prestigious because of their larger budgets and more popular actors the lower budgeted Bs served largely as a support mechanism to A films of the major studios most of which also owned the theater chains in which movies were shown When a 1948 U S Supreme Court antitrust ruling severed ownership of theaters from the studios the B movie soon became a different entity in the wake of

profound changes to the corporate organization and production methods of the major Hollywood studios In *The Battle for the Bs* Blair Davis analyzes how B films were produced distributed and exhibited in the 1950s and demonstrates the possibilities that existed for low budget filmmaking at a time when many in Hollywood had abandoned the Bs Made by newly formed independent companies 1950s B movies took advantage of changing demographic patterns to fashion innovative marketing approaches They established such genre cycles as science fiction and teen oriented films think *Destination Moon* and *I Was a Teenage Werewolf* well before the major studios and also contributed to the emergence of the movement now known as underground cinema Although frequently proving to be multimillion dollar box office draws by the end of the decade the Bs existed in opposition to the cinematic mainstream in the 1950s and created a legacy that was passed on to independent filmmakers in the decades to come
