Carl de Keyzer,2008 Trinity is a milestone in the work of Magnum photographer Carl de Keyzer It is a triptych on the theme of the omnipresence of power and violence The title itself refers not only to the traditional image of the Supreme Power in classical painting but also for example to the code name of the ominous project with which Oppenheimer lead a team of atomic physicists to produce the first atom bomb Based on three probing themes De Keyzer grabs contemporary power its senseless violence and worldwide devastation by air with oppressive images Tableaux d Histoire Tableaux de Guerre Tableaux Politiques The first tableaux cast a surprising light on the theatrical that has characterised power since time immemorial and without which it could not exist The second perspective shows us violence as a timeless placeless phenomenon War appears in an aesthetic of the sublime although subdued and painful as glorification heroism and justification are absent The third part takes us behind the scenes of political power which should when all is said and done actually be the power of the people the facade the lobbying the backrooms the haggling *Het Vliegveld* ,1917
