**Heidegger on Art and Art Works** J.J. Kockelmans, 2012-12-06 This book grew from a series of lectures presented in 1983 in the context of the Summer Program in Phenomenology at The Pennsylvania State University For these lectures I made use of notes and short essays which I had written between 1978 and 1982 during interdisciplinary seminars on Heidegger's later philosophy in general and on his philosophy of language and art in particular The participants in these seminars consisted of faculty members and graduate students concerned with the sciences the arts literature literary criticism art history art education and philosophy On both occasions I made a special effort to introduce those who did not yet have a specialized knowledge of Heidegger's philosophy to his later way of thinking In this effort I was guided by the conviction that we as a group had to aim for accuracy precision clarity faithfulness and depth while at the same time taking distance comparing Heidegger's views with ideas of other philosophers and thinkers and cultivating a proper sense of criticism Over the years it has become clear to me that among professional philosophers literary critics scholars concerned with art history and art education and scientists from various disciplines there are many who are particularly interested in Heidegger's philosophy of art I have also become convinced that many of these dedicated scholars often have difficulty in understanding Heidegger's lectures on art and art works This is understandable

**J. Krishnamurti and the Nameless Experience** Rohit Mehta, 1979 J Krishnamurti is one of the most revolutionary thinkers of our age To listen to him or to read his books is an experience by itself He challenges every norm and value of individual as well as social life He is not interested in mere outer changes he stands for a fundamental transformation what he calls the Mutation of the Mind He states that there must arise first the New Man before a New Society can be brought into existence The present book deals comprehensively with all aspects of Krishnamurti s teachings his philosophy his psychology and a practice of no practice Krishnamurti says Society is always static only in the individual can there be a radical revolution It is with this individual revolution that this book is fundamentally concerned *Parmenides and Presocratic Philosophy* John Palmer, 2009-10-29 John Palmer develops and defends a modal interpretation of Parmenides according to which he was the first philosopher to distinguish in a rigorous manner the fundamental modalities of necessary being necessary non being or impossibility and non necessary or contingent being This book accordingly reconsiders his place in the historical development of Presocratic philosophy in light of this new interpretation Careful treatment of Parmenides specification of the ways of inquiry that define his metaphysical and epistemological outlook paves the way for detailed analyses of his arguments demonstrating the temporal and spatial attributes of what is and cannot not be Since the existence of this necessary being does not preclude the existence of other entities that are but need not be Parmenides cosmology can straightforwardly be taken as his account of the origin and operation of the world s mutable entities Later chapters reassess the major Presocratics relation to Parmenides in light of the modal interpretation focusing particularly on Zeno Melissus Anaxagoras and Empedocles In the end Parmenides distinction among the principal modes of being and his arguments regarding what what must be must be like simply in virtue of its mode of being entitle him to be seen as the founder of metaphysics or ontology as a domain of inquiry distinct from natural philosophy and theology An appendix presents a Greek text of the fragments of Parmenides poem with English translation and textual notes **By Way Of The**

**The Jesus Dialogues** Brennan R. Hill,2015-03-06

The Jesus Dialogues is a unique book There is no other book that uses this interesting dialogue method to contrast and compare such an extensive number of religions In each chapter Jesus sits down with both women and men religious founders and leaders and talks with them on an equal basis about religious perspectives past and present The book is a thorough overview of Christianity compared and contrasted with eight other religions as well as selected indigenous religions A final chapter deals with the why and how of interfaith dialogue which is so needed in today s diverse and global society This book reflects the author s six decades of study and teaching in the areas of Christianity and world religions It is based on sound scholarship worldwide travel and experience in interfaith dialogue The Jesus Dialogues demonstrates that there is truth and a way to ultimacy in all religions At the same time listening in on these conversations reveals significant differences among religions These dialogues help one realize that Gandhi was right when he said that we must listen to all religions in order to obtain just a glimpse of the divine

**The Wolf Tamers: How They Made the Strong Weak** David Sinclair,2023-02-21 In the war of the wolves and the sheep what if the sheep started winning Are human wolves a keystone species of the human race If they were hunted to extinction leaving no one to winnow the mediocre mob what would happen to humanity The narrator in the movie Idiocracy was on point when he said Evolution does not necessarily reward intelligence With no natural predators to thin the herd it began to simply reward those who reproduced the most and left the intelligent to become an endangered species The same is true of strength Without the strong the weak will reproduce more and more and eventually there will only be weakness mediocrity an inability an impossibility to achieve anything great and glorious The strangest war is being fought It s a war to destroy human intelligence and human strength This war says that wolves must be exterminated or made into non wolves by taming them And then they can become pets You know just like dogs You put a collar on them You put a leash on them You take them for walks You tickle their tummy You make them perform tricks You make them roll over and play dead They are wholly dependent on you They have separation anxiety when you re not there They have to make the intelligent stupid They have to make the strong weak But they don t know what they re doing The task is not to tame wolves It s to make them smarter and stronger It s to sublimate them Without the wolves there is only decadence and degeneration Without the wolves to control mediocrity mediocrity grows exponentially Why did the Roman Empire fall It was because all the Roman wolves had gone Only mediocrities were left They could do nothing to hold back the barbarian tide Civilizations always end when the wolves

vanish New cultures begin when new wolves start a new lupine era full of strength and vigor Are you a lone wolf Are you one of the wolf pack Or are you part of the gang trying to tame all wolves Do you want to see the empire fall When it no longer has any strength left when mediocrities are in charge of everything then the end is certain As Wilfred Owen said What passing bells for these who die as cattle Was it for this the clay grew tall      **Century Path** ,1903      *Philosophers, Jews, and Christians in the Roman Empire* Leslie Kelly,2025-02-28 This book explores how philosophical and religious communities in the Roman Empire of the first and second centuries CE engaged with and were shaped by their relationship to texts and tradition in their quest for true religious knowledge or ultimate truth This era was a dynamic transition period for philosophers Jews and Christians in the Roman Empire it was the stage between Hellenistic philosophy and the Neoplatonism of Late Antiquity the end of Second Temple Judaism and the start of the rabbinic period Christianity's rapid growth and transformation into an institutional and uniform church Philosophers Jews and Christians utilized similar strategies for communal identity and boundary marking and reinterpreted ancient traditions in creative ways to create new centers of authority An intellectual literary culture fostered a focus on texts as a locus of contention conversion and exchange within and between groups The book surveys and compares these groups as three distinct textual or reading communities analyzing their practices of textual engagement and parallel attitudes towards textual authority in this period This book is suitable for students and scholars working on ancient philosophy in the Roman Empire classicists and scholars of early Christianity and Judaism in this period      The Spiritual Dimension of Alternative Medicine Ernest M. Valea,2020-02-20 We often hear that alternative medicine is superior to classical medicine for it treats us holistically both the physical body and the immaterial part of our nature Although such an approach seems desirable it is precisely this aspect that opens the door to spiritual views incompatible with Christianity Many forms of alternative medicine speak of a divine essence we allegedly possess of a vital force that we can manipulate of spiritual beings that can help us and other such views closely related to Eastern religions and New Age thought In their desire to find healing at any price Christians often resort to these methods without realizing the spiritual danger involved For Christians who want to live consistently with their faith this book is intended to raise awareness of the hidden beliefs of alternative medicine      **One Layman'S Contemporary Theology** Michael S. K. Toh,2014-07-17 The credential of the author is based upon the fact that he is a trained psychologist a biologist and a scientist and has been in management business fields for many years having been exposed in all aspects of commerce and finance He has a Master degree in Industrial Psychology from the University of Sydney Bachelor of Science degree with a double major in psychology from Australian National University and a major in Biology from RMIT Was awarded the Elizabeth and Martin Summit Prize in Psychology an annual award given to the most outstanding student in Psychology at Sydney University He has been teaching in a university for several years and was involved in politics for some time but voluntarily chose to pursue a different path because of the incompatible sets of values that are required against what he believed in He has a background

of Buddhist and Confucian upbringing and was converted to being a follower of Jesus as a Catholic. However, he had been battling with what the churches taught and his knowledge and understanding in the fields of biology and psychology, new discoveries of physical sciences in which he was trained against the background of his upbringing in a culture that was homogenous and has survived for more than 5000 years of history and his life experiences in the modern commercial materialistic world culture. He believes in doing God's work in whatever circumstances he was placed to be guided by the principles of what he believed Jesus has taught in establishing a consistent logical framework that is universal and more holistic, the result of which is the writing of this book. One of his greatest gifts is his ability to analyze things logically and he has been a good debater when he was at school. He has thus put all his thoughts down gathered from his training, life experiences and his wide exposure in the modern world environment to establish an overall consistent logical framework in understanding the meaning of life in the order of things and the role religion plays in assisting each individual to achieve the universal objective of a salvation and the conflicts that are generated as a result of different derivatives of history and culture of the world.

Premawardhana, 2018-04-20 Anthropologist Devaka Premawardhana arrived in Africa to study the much-reported explosion of Pentecostalism, the spread of which has indeed been massive. It is the continent's fastest-growing form of Christianity and one of the world's fastest-growing religious movements. Yet Premawardhana found no evidence for this in the province of Mozambique where he worked. His research suggests that much can be gained by including such places in the story of global Christianity by shifting attention from the well-known places where Pentecostal churches flourish to the unfamiliar places where they fail. In *Faith in Flux*, Premawardhana documents the ambivalence with which Pentecostalism has been received by the Makhuwa, an indigenous and historically mobile people of northern Mozambique. The Makhuwa are not averse to the newly arrived churches; many relate to them powerfully. Few, however, remain in them permanently. Pentecostalism has not

firmly taken root because it is seen as one potential path among many a pragmatic and pluralistic outlook befitting a people accustomed to life on the move This phenomenon parallels other historical developments from responses to colonial and postcolonial intrusions to patterns of circular migration between rural villages and rising cities But Premawardhana primarily attributes the religious fluidity he observed to an underlying existential mobility an experimental disposition cultivated by the Makhuwa in their pre Pentecostal pasts and carried by them into their post Pentecostal futures Faith in Flux aims not to downplay the influence of global forces on local worlds but to recognize that such forces explosive though they may be never succeed in capturing the everyday intricacies of actual lives
