

A photograph of two students, a young Black woman in the foreground and a young white woman in the background, both focused on a project. They are working with a complex, multi-layered structure made of white plastic or cardboard, possibly a model or a prototype. The woman in the foreground is wearing a red and white striped shirt. The woman in the background is wearing a light blue shirt. The background is blurred, showing a bright, indoor setting.

The State of College Access and Completion Laura W. Perna, Anthony Jones, 2013-07-18 Despite decades of substantial investments by the federal government state governments colleges and universities and private foundations students from low income families as well as racial and ethnic minority groups continue to have substantially lower levels of postsecondary educational attainment than individuals from other groups The State of College Access and Completion draws together leading

researchers nationwide to summarize the state of college access and success and to provide recommendations for how institutional leaders and policymakers can effectively improve the entire spectrum of college access and completion. Springboarding from a seminar series organized by the Advisory Committee on Student Financial Assistance, chapter authors explore what is known and not known from existing research about how to improve student success. This much-needed book calls explicit attention to the state of college access and success not only for traditional college-age students but also for the substantial and growing number of nontraditional students. Describing trends in various outcomes along the pathway from college access to completion, this volume documents persisting gaps in outcomes based on students' demographic characteristics and offers recommendations for strategies to raise student attainment. Graduate students, scholars, and researchers in higher education will find *The State of College Access and Completion* to be an important and timely resource.

Dual Enrollment Policies, Pathways, and Perspectives Jason L. Taylor, Joshua Pretlow, 2015-02-26 Looking to develop new dual enrollment programs or adapt and revamp an existing dual enrollment program at a community college, this volume addresses the critical issues and topics of dual enrollment practices and policies, including state policies that regulate dual enrollment practice and the influence of state policy on local practice, the usage of dual enrollment programs as a pathway for different populations of students such as career and technical education students and students historically underrepresented in higher education, and chapters that surface student, faculty, and high school stakeholder perspectives and that examine institutional and partnership performance and quality. This is the 169th volume of the Jossey-Bass quarterly report series *Essential* to the professional libraries of presidents, vice presidents, deans, and other leaders in today's open-door institutions. *New Directions for Community Colleges* provides expert guidance in meeting the challenges of their distinctive and expanding educational mission.

The Qualified Student Harold S. Wechsler, 2017-09-29 In *The Qualified Student*, Harold S. Wechsler focuses on methods of student selection used by institutions of higher education in the United States. More specifically, he discusses the way that college and university reformers employed those methods to introduce higher education into a broader cross-section of America by extending access to an increased number of students from nontraditional backgrounds. Implicit in much of this book is an underlying social and ethical question: How legitimate was and is higher education's regulation of social mobility? Public concern over colleges and universities' practices became inevitable once they became regulators between social classes. The challenging of colleges' admissions policies in the courts augments similar concerns that have been present in legislatures for decades. The volume is divided into three main sections: Prerequisites, Columbia, and the Selective Function and Implications. It focuses mainly on four universities: The University of Michigan, Columbia University, the University of Chicago, and the City University of New York. Wechsler maintains that unlike other universities, these institutions were pacesetters; they did not adopt a new policy simply because some other college had already adopted it. A new introduction brings the book, originally published in 1977, up to date and demonstrates its

continuing importance in today's academic world of selective admissions *College Access and Opportunity Guide 2011* ,

A Shared Agenda Education Resources Institute, Pathways to College Network, 2004 The goal of the Pathways to College Network is to advance college access and success for underserved students including those who are the first in their families to go to college low income students underrepresented minorities and students with disabilities All of the Pathways work is grounded in data and research Through a synthesis of research evidence from hundreds of studies the Pathways to College Network has established six principles to guide the actions of leaders in education and in all sectors of society These principles are 1 Expect that all underserved students are capable of being prepared to enroll and succeed in college 2 Provide a range of high quality college preparatory tools for underserved students and their families 3 Embrace social cultural and learning style differences in developing learning environments and activities for underserved students 4 Involve leaders at all levels in establishing policies programs and practices that facilitate student transitions toward postsecondary attainment 5 Maintain sufficient financial and human resources to enable underserved students to prepare for enroll and succeed in college and 6 Assess policy program practice and institutional effectiveness regularly These principles underpin a series of recommended actions for leaders including elected officials superintendents principals college presidents outreach program directors and community leaders Only through strong leadership and concerted continued effort by stakeholders and advocates will the impetus for change be created Some of the actions that this report recommends are 1 State and federal officials must mandate rigorous aligned curricula for schools and provide sufficient funding for programs teachers and students 2 School leaders should require a college preparatory curriculum for all students provide academic and social support for underserved students and ensure that teachers are well prepared to address different learning styles and cultural backgrounds 3 College and university leaders need to be clear about the skills and knowledge they expect incoming freshmen to have They should build partnerships with schools provide teacher training that focuses on the needs of underserved students and target robust need based aid and support programs to underserved students 4 Outreach program leaders must provide academic and social support for underserved students and their families including tutoring parent involvement and partnership initiatives and 5 Community leaders and family support groups should work with students and families to instill and reinforce beliefs that all students must prepare for postsecondary education In turn communities and families must push schools and government to adopt a goal of universal college readiness and achievement Appendices include 1 Selecting Research Based Strategies and 2 Annotated List of Pathways Research Papers Reports and Other Publications by Focus Area Contains 83 endnotes Funding for this paper was provided by the Lucent Technologies Foundation *Building Transfer Student Pathways for College and Career Success* Sonya Joseph, Mark Allen Poisel, 2018-10-04 Published in partnership with the National Institute for the Study of Transfer Students Analysis of bachelor's degree completion suggests that only about a third of college graduates attend a single institution from start to finish More than one quarter earn college credits from

three or more schools before completing a degree For most these student defined pathways lead to increased time to degree and higher costs Many will simply drop out long before crossing the finish line Ensuring college completion and success requires an understanding of the evolving nature of transfer transitions and a system wide approach that reaches beyond two year and four year institutions to include high schools participating in dual enrollment programs and military college initiatives A new edited collection offers insight into institutional and statewide partnerships that create clearly defined pathways to college graduation and career success for all students
