

# Flow Regulator Patient Teaching Guide

## Preparation

1. Inspect your medication bag prior to using. If you notice any leaking, discoloration, or particles in the solution, do not use. Call your pharmacy for instructions.
2. Review your name, medication name, and medication dose, are correct and expiration date or use by date have not passed.
3. Remove the tubing administration set from package.
4. Turn the dial so the arrow lines up with OFF.
5. Remove the port protector tab from the medication bag.
6. Remove the protective cover from the tubing spike. Take care not to touch the uncovered spike with your hands or to any other surfaces.
7. Insert the tubing spike at a 90° angle into the bag port using a pushing with back-and-forth twisting motion. Ensure the spike is inserted into the bag port up to the raised edge.
8. Hang the medication bag on the IV pole and set the pole to the highest position.
9. Squeeze the drip chamber of the tubing administration set until it is at least half full.
10. Turn the tubing dial from the OFF position to the OPEN position and allow fluid to fill the entire tubing. This is called "priming" the tubing. During priming keep the tubing dial in your hand and don't let the end of the tubing touch any surfaces.
11. When the fluid reaches the end of the tubing turn the dial back to the OFF position.

## Starting your Infusion

1. Scrub the needle-free connector using an alcohol pad for at least 15 seconds and allow it to air dry.
2. Unclamp your catheter (if clamp present).
3. Flush your needle-free connector using a saline flush in the amount ordered.  
**NOTE: If you have any trouble flushing your line or if you experience pain, STOP, do not continue. Call your nurse or pharmacy for instructions.**
4. Attach the primed tubing to your needle-free connector.
5. Turn the tubing administration set dial to the prescribed rate (mL/hour) indicated on your prescription label.
6. Confirm all clamps are in the open position, the tubing administration set is free of kinks, and the medication is dripping.

## Completing your Infusion

1. When the drip chamber is empty, OR when the timing of your infusion has ended, close the dial by turning to the OFF position.
2. Disconnect the tubing administration set from your needle-free connector.  
**Note: If you are receiving your medication more than once per day, place a male/female dead end cap on the end of the tubing to keep it sterile. Each tubing can be used for 24 hours.**
3. Scrub the needle-free connector using an alcohol pad for at least 15 seconds and allow it to air dry.
4. Flush your catheter using a saline flush in the amount ordered.
5. Again, scrub the needle-free connector using an alcohol pad for at least 15 seconds and allow it to air dry.
6. Flush your catheter using a heparin flush (if ordered) in the amount ordered.
7. Clamp your catheter (if clamp present) after flushes are complete.
8. Throw away the medication bag into the trash unless otherwise instructed.

Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Patient Teaching Guides On Disk full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Patient Teaching Guides On Disk eBooks, including some popular titles.

## FAQs About Patient Teaching Guides On Disk Books

**What is a Patient Teaching Guides On Disk PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Patient Teaching Guides On Disk PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Patient Teaching Guides On Disk PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Patient Teaching Guides On Disk PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Patient Teaching Guides On Disk PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
