First Published in 1998. *Understanding Animation* is a comprehensive introduction to animated film from cartoons to computer animation. Paul Wells' insightful account of a critically neglected but increasingly popular medium explains the defining characteristics of animation as a cinematic form, outlines different models and methods which can be used to interpret and evaluate animated films, traces the development of animated film around the world from Betty Boop to Wallace and Gromit. Part history, part theory and part celebration. *Understanding Animation* includes notes towards a theory of animation, an explanation of animation's narrative strategies, an analysis of how comic events are constructed, a discussion of representation focusing on gender and race, primary research on animation and audiences. Paul Wells' argument is illustrated with case studies including Daffy Duck in Chuck Jones' *Duck Amuck*, Jan Svankmajer's *Jabberwocky*, Tex Avery's *Little Rural Riding Hood* and *King Size Canary*, and Nick Park's *Creature Comforts*. *Understanding Animation* demonstrates that the animated film has much to tell us about ourselves, the cultures we live in, and our view of art and society.

Understanding Manga and Anime Robin E. Brenner, 2007-06-30. Teens love it. Parents hate it. Librarians are confused by it and patrons are demanding it. Libraries have begun purchasing both manga and anime particularly for their teen collections. But the sheer number of titles available can be overwhelming, not to mention the diversity and quirky cultural conventions. In order to build a collection, it is important to understand the media and its cultural nuances. Many librarians have been left adrift, struggling to understand this unique medium while trying to meet patron demands as well as protests. This book gives the novice background information necessary to feel confident in selecting, working with, and advocating for manga and anime collections, and it offers more experienced librarians some fresh insights and ideas for programming and collections.
