**Andrew Jackson and the Miracle of New Orleans** Brian Kilmeade,Don Yaeger,2019-11-12 Another history pageturner from the authors of the 1 bestsellers George Washington s Secret Six and Thomas Jefferson and the Tripoli Pirates The War of 1812 saw America threatened on every side Encouraged by the British Indian tribes attacked settlers in the West while the Royal Navy terrorized the coasts By mid 1814 President James Madison s generals had lost control of the war in the North losing battles in Canada Then British troops set the White House ablaze and a feeling of hopelessness spread across the country Into this dire situation stepped Major General Andrew Jackson A native of Tennessee who had witnessed the horrors of the Revolutionary War and Indian attacks he was glad America had finally decided to confront repeated British aggression But he feared that President Madison s men were overlooking the most important target of all New Orleans If the British conquered New Orleans they would control the mouth of the Mississippi River cutting Americans off from that essential trade route and threatening the previous decade s Louisiana Purchase The new nation s dreams of western expansion would be crushed before they really got off the ground So Jackson had to convince President Madison and his War Department to take him seriously even though he wasn t one of the Virginians and New Englanders who dominated the government He had to assemble a coalition of frontier militiamen French speaking Louisianans Cherokee and Choctaw Indians freed slaves and

even some pirates And he had to defeat the most powerful military force in the world in the confusing terrain of the Louisiana bayous In short Jackson needed a miracle The local Ursuline nuns set to work praying for his outnumbered troops And so the Americans driven by patriotism and protected by prayer began the battle that would shape our young nation s destiny As they did in their two previous bestsellers Kilmeade and Yaeger make history come alive with a riveting true story that will keep you turning the pages You ll finish with a new understanding of one of our greatest generals and a renewed appreciation for the brave men who fought so that America could one day stretch from sea to shining sea

Powell,2012-04-13 Should stand for years as the definitive history of New Orleans's first century Jonathan Yardley Washington Post This is the story of a city that shouldn't exist In the seventeenth century what is now America's most beguiling metropolis was nothing more than a swamp prone to flooding infested with snakes battered by hurricanes But through the intense imperial rivalries of Spain France and England and the ambitious entrepreneurial merchants and settlers from four continents who risked their lives to succeed in colonial America this

unpromising site became a crossroads for the whole Atlantic world Lawrence N Powell a decades long resident and observer of New Orleans gives us the full sweep of the city's history from its founding through Louisiana statehood in 1812 We see the Crescent City evolve from a French village to an African market town to a Spanish fortress and finally to an Anglo American center of trade and commerce We hear and feel the mix of peoples religions and languages from four continents that make the place electric and always on the verge of unraveling The Accidental City is the story of land jobbing schemes stock market crashes and nonstop squabbles over status power and position with enough rogues smugglers and self fashioners to fill a picaresque novel Powell's tale underscores the fluidity and contingency of the past revealing a place where people made their own history This is a city and a history marked by challenges and perpetual shifts in shape and direction like the sinuous river on which it is perched

Journalism's Roving Eye John Maxwell Hamilton, 2011-08-15 In all of journalism nowhere are the stakes higher than in foreign news gathering For media owners it is the most difficult type of reporting to finance for editors the hardest to oversee Correspondents roaming large swaths of the planet must acquire expertise that home based reporters take for granted facility with the local language for instance or an understanding of local cultures Adding further to the challenges they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs a task made all the more daunting because of the consequence to national security In Journalism's Roving Eye John Maxwell Hamilton a historian and former foreign correspondent provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage as well as the cavalcade of colorful personalities who shaped readers perceptions of the world across two centuries From the colonial era when newspaper printers hustled down to wharfs to collect mail and periodicals from incoming ships to the ongoing multimedia press coverage of the Iraq War Hamilton explores journalism's constant and not always successful efforts at dishing the foreign news as James Gordon Bennett put it in the mid nineteenth century to describe his approach in the New York Herald He details the highly partisan coverage of the French Revolution the early emergence of special correspondents and the challenges of organizing their efforts the profound impact of the non yellow press in the run up to the Spanish American War the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I and the golden age of foreign correspondence during the interwar period when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe From the Nazis intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War Hamilton covers every aspect of delivering foreign news to American doorsteps Along the way Hamilton singles out a fascinating cast of characters among them Victor Lawson the overlooked proprietor of the Chicago Daily News who pioneered the concept of a foreign news service geared to American interests Henry Morton Stanley one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone and

Jack Belden a forgotten brooding figure who exemplified the best in combat reporting Hamilton details the experiences of correspondents editors owners publishers and network executives as well as the political leaders who made the news and the technicians who invented ways to transmit it Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry many fear that foreign reporting will soon no longer exist But as Hamilton shows in this magisterial work traditional correspondence survives alongside a new type of reporting Journalism s Roving Eye offers a keen understanding of the vicissitudes in foreign news an understanding imperative to better seeing what lies ahead
